This book offers a unique collection of inter- and multidisciplinary studies on river systems. Rivers have been the prime source of sustenance since the advent of civilization and river systems often form the basis for agriculture, transport, water, and land for domestic, commercial, and industrial activities, fostering economic prosperity. A river basin is a basic geographical and climatological unit within which the vagaries of natural processes act and manifest themselves at different spatio-temporal scales. Even if compared side-by-side, no two river basins respond to natural processes in the same way and thus, it has long been recognized that each river basin is unique. Hence, any developmental activity or conservation effort has to be designed and implemented to match each unique river basin. With the burgeoning population and increasing dependency on natural resources, understanding and maintaining river systems has become increasingly important. This book provides a varied reference work on and unprecedented guidelines for conducting and implementing research on river basins, and for managing their ecological

development.

*Capital Structure and Firm Value* Google Books

This book describes how to develop methods for evaluating and assessing the sustainable development of agricultural systems in a micro-region. A comprehensive and practical book, it guides the reader through details of the methodology needed to carry out an appropriate assessment, and focuses on the central problem of whether productivity can be maintained. More specifically, it: - Discusses the meanings of sustainability and sustainable development, and reviews the issues related to agricultural sustainability. - Examines the theory and practice of indicators and delineates the six categories considered necessary for a holistic evaluation: productivity, stability, efficiency, durability, compatibility and equity.

*Dynamics of Commerce and Management* Springer

Capital Structure decision is one of the crucial decisions to be taken by a company. There are divergent views regarding Capital Structure and Firm Value. There is dearth of studies in the area of Pharma Industry regarding Capital Structure and Firm Value. Therefore, the present study seeks to answer the following questions: what are the factors determining the Capital Structure decision in Pharma sector in India? What is the relationship between

select variable and company value? What is the impact of leverage on stock price volatility of Pharma Companies? Period of the study is eleven years from 2005 to 2015. The panel data regression model has been employed. It can be concluded that Debt-Equity Ratio has negative impact on capital structure of a company. It was revealed from the findings that majority of the select variables have significant impact on the capital structure. The study also brings to light the fact that leverage effect is dominant in the stock market. Findings of the present study are useful in gaining valuable insights into the intricacies of capital structure, firm value and leverage effect. The study is useful to finance managers, investors, researchers and also to academicians doing research in the area of corporate finance.

*Issues in Indian Economy: National & Global Perspectives* RED'SHINE Publication. Pvt. Ltd

The dynamic economic climate invites participants who are grounded in strategic financial management and infrastructure development. Thus, a lack of sufficient infrastructure, in both quality and quantity, often disqualifies developing countries from being key players in the global economy and influences other socioeconomic problems like unemployment, quality of work life, and quality of life. Handbook of Research on Strategic Business Infrastructure Development and Contemporary Issues in Finance discusses the efficiency of good infrastructure and its impact on socioeconomic growth and socioeconomic development in general and addresses contemporary aspects of the strategic financial management essential for accomplishing the objective

of wealth maximization in today's challenging and competitive economy. This book is an essential research work for policy makers, government workers and NGO employees, as well as academicians and researchers in the fields of business, finance, marketing, management, accounting, MIS, public administration, economics, and law.

An Evaluation of Life Insurance Business in India IGI Global

The book, now in its second edition, fulfills the need for an up-to-date comprehensive text on irrigation water management for students of agriculture both at the undergraduate and postgraduate levels. The scope of the book makes it a useful reference for courses in agricultural engineering, agronomy, soil science, agricultural physics and environmental sciences. It can also serve as a valuable guidebook to persons working with farming communities. The coverage in sixteen chapters brings out different aspects of irrigation including irrigation situation in the world, rainfall, evaporation, water wealth and progressive development of irrigation in India, measurement of soil water and irrigation water, methods of irrigation, irrigation with saline water, formulating cropping pattern in irrigated area and management of high water table. In the second edition, a new chapter on 'On-farm Irrigation System' has been included and a few chapters have been updated to include latest development. The book has useful research data and a large number of diagrams for easy comprehension of the topics. The end-of-chapter problems and numerous worked-out examples serve to aid further understanding of the subject. The book also contains an extensive glossary.

*PROCEEDINGS OF NATIONAL SEMINAR ON MULTIDISCIPLINARY RESEARCH AND PRACTICE VOLUME 1* Concept Publishing Company

Economic development involves not merely economic change but also social and institutional changes. It is a continuous process. It fulfils the aspirations of the people as well as national objectives. For more than decades, the development process has been associated with the challenges of persistent poverty, unemployment, degradation of natural resources and so on. In recent years economic development has also been linked with social progress. Accelerated economic growth brings with it social progress that is, increase in mass well-being, expansion of employment and reduction in income disparities.

### **Management Of Financial Institutions In India** Lulu.com

Case study is an important pedagogical tool not only to facilitate classroom teaching, but is also a research tool used widely in academia and industry. Every workplace situation calls for decision making and managerial skill. While some situations are more complex and far-reaching than the others, all decisions are equally important for the businesses in the overall landscape. On one hand, strategic decisions call for sharp business acumen and experience; on the other hand, operational decisions call for tact and eye for detail. Businesses employ unique solutions to solve their problem which is often recorded as a case study. These case studies are an

effective tool to enhance learning. It stimulates the students to integrate classroom-learning with application orientation to solve real live problems. The growth in case writers coupled with availability of good cases has made industry and academia to embrace case methods. An initiative to support and encourage build indigenous case studies, this book is a compilation of the cases presented at the Management Case Conference organised by PSG Institute of Management in 2021

*Agricultural Sustainability* JEC

PUBLICATION

The book covers basic but very comprehensive information on history of agriculture and relationship of Agronomy with other disciplines, tillage practices, nutrient elements for plant growth, weed and their management, irrigation management, crop physiology, crop ecology, integrated farming system and organic farming. A detailed information on history and origin, improved varieties, agronomic practices and plant protection techniques for important field crops viz. cereals, oilseeds, pulses, sugar crops and fiber crops has been given. Also information on cultivation practices for important medicinal, aromatic and spice crops as well as plantation crops along with their uses/medicinal values has been provided. Apart from this, information on dry land agriculture, crop production under special situations and hints for achieving higher yield of field crops are also given in details. This book will be very helpful for B.Sc. Agriculture as well as M.Sc. Agronomy students throughout the country as it covers nerly the entire syllabus for Agronomy courses framed by ICAR.

Finance is one of the crucial prerequisites to start any business. Further, a sufficient corpus of funds and efficient financial management is required throughout a business's lifetime and even when a company is sold or wound up. Therefore, funds need to be managed, regulated as per procedures, and monitored at every step of the business lifecycle. In simple terms, financial management is the business function that deals with investing the available financial resources in a way that greater business success and return-on-investment (ROI) is achieved. Financial management professionals plan, organize and control all transactions in a business. They focus on sourcing the capital whether it is from the initial investment by the entrepreneur, debt financing, venture funding, public issue, or any other sources. Financial management professionals are also responsible for fund allocation in an optimized way to ensure greater financial stability and growth for the organization. The purpose of this study Material is to present an introduction to the subjects of Commerce and Management. The book contains the syllabus from basics of the subjects going into the intricacies of the subjects. All the concepts have been explained with relevant examples and diagrams to make it interesting for the readers. An attempt is made here by the authors to assist the students by way of providing Study Material as per the curriculum with non-commercial considerations. However, it is implicit that these are exam-oriented Study Material and students are advised to attend regular class room classes in the Institute and utilize reference books available in the library for In-depth

knowledge. We owe to many websites and their free contents; we would like to specially acknowledge contents of website [www.wikipedia.com](http://www.wikipedia.com) and various authors whose writings formed the basis for this book. We acknowledge our thanks to them. At the end we would like to say that there is always a room for improvement in whatever we do. We would appreciate any suggestions regarding this study material from the readers so that the contents can be made more interesting and meaningful. Readers can email their queries and doubts to our authors on [tmcnagpur@gmail.com](mailto:tmcnagpur@gmail.com). We shall be glad to help you immediately. Dr. Hitesh Vaswani | Dr. Mukul Burghate Authors Investment Pattern of Public Undertakings in India Archers & Elevators Publishing House This Book Would Be Of Great Help To Researches, Business Managers, Professionals, Policy Planners And All Those Concerned With Improving The Performance Of Various Organisations. Corporate Investment and Financial Practices in Service Sector in India Alpha Science Int'l Ltd. This book comprehensively compiles information on some of the major pests that afflict agricultural, horticultural and medicinal crops in particular as well as many polyphagous pests. Not only does this book deal with the pests of common globally produced crops it also addresses those of rarely dealt with crops such as seed spices, medicinal and aromatic plants. While the perspective of insect pests is largely Indian and South East Asian in context, the book does deal with globally problematic pests, particularly polyphagous ones. Not only will the readers be acquainted with the pests, their damaging potential and their life cycle but also with the latest methods of

managements including ecofriendly measures being employed to keep pest populations at manageable levels. The 27 chapters in the book, are grouped into four sections primarily based on crop types, viz. pest of agricultural, horticultural and medicinal crops, and polyphagous pests, making the book easy to navigate. Each of the chapters is comprehensive and well illustrated and written by academicians who have dedicated their entire lives to the study of a particular crop-pest complex. The final chapter of this book provides an overview on the principles and processes of pest management.
