When Piper gets the opportunity to volunteer as a horseback Frontier Nursing courier in the Appalachian Mountains for the summer, she jumps at the chance to be something other than a dutiful daughter or a kept wife in a loveless marriage. The work is taxing, the scenery jaw-droppingly gorgeous, and the people she meets along

the way open up a whole new world to her. The longer she stays, the more an advantageous marriage slips from her grasp. But something much more precious--true love--is drawing ever closer. Bestselling author Ann H. Gabhart invites you into the storied hills of Eastern Kentucky to discover what happens when one intrepid young woman steps away from the restrictive

past into a beautiful, wide-open future. *The Poetical Works of Alice Cary, With A Memorial of Their Lives by Mary Clemmmer.* Garnet & Ithaca Press Important American periodical dating back to 1850. [The Footprints of My Life](#) The Monacelli Press, LLC Creativity and the Poetic Mind mingles the voices of well-known writers such as Nikki Giovanni, Donald Hall,

John Koethe, Marge Piercy, and Robert Pinsky with newer voices, and includes engaging excerpts from interviews with thirty-eight American poets. Within a sustained argument about creative states of mind, this book innovatively presents and explores the technique of «going to the place» as more reliable in writing poetry than waiting for «inspiration». It explains why poets

frequently believe that talking about their own poetry may damage their creativity and why, for centuries, inspiration has seemed to come from somewhere beyond the poet. In addition, it discusses the practicality of poets' thinking that «being creative» and «writing poetry» are two separate skills: inspiration is unreliable, but experienced poets create daily. Write to Celebrate, Heal, and Free the Wild Woman Within
In her years as a writing coach, Judy Reeves has found twin urges in women: they yearn to reclaim a true nature that resides below the surface of daily life and to give it voice. The longing to express this wild, authentic nature is what informs Reeves's most popular workshop and now this workshop in a book. Here,

you will explore the stages that make up your life, from wild child, daughter/sister/mother, and loves and lovers, to creative work, friendships, and how the wise woman encounters death. Both intuitive and practical, Wild Women, Wild Voices responds to women's deep need for expression with specific and inspiring activities, exercises, and writing prompts. With true empathy, Reeves

invites, instructs, and celebrates the authentic expression — even the howl — of the wild in every woman.

 "In those days of random destruction, and trigger-happy militiamen, one never knew what to expect to see on the streets. I was doing my grocery shopping one afternoon when two militia boys rushed past. One had three revolvers

stuffed in his belt and the other had two bullet-belts crisscrossing his chest, and two Kalashnikovs slung over his shoulder. Both were carrying bouquets of red roses. It was Mother's Day." (from "Arabia's Hidden America") ---
 Author Fadia Basrawi, a Saudi Arab, grew up in the strictly circumscribed and tailor-made 'desert Disneyland' of Aramco (the Arabian American Oil Company).
 This slice of

modern suburban middle-class America was located in Dharan, one of the leading cities of Saudi Arabia, a theocratic Muslim kingdom run according to strict Wahabbi Shari'a law. Eventually, Fadia moved to Beirut, the glitzy 'Paris of the Middle East, ' to attend high school. In Beirut she fell in love with a passionate and idealistic Lebanese journalist with whom she eloped against her parents'

wishes, subsequently getting caught up in Lebanon's fifteen-year civil war while raising a family of five children. Providing a fascinating account of a Saudi woman's painful journey from naive Aramcon girl to life as a resident of a war-torn capital city, this book provides new insight into two very different Middle Eastern worlds about which so little is known by

those living outside the region

The Locusts is the first monograph by photographer and publisher Jesse Lenz. His images transport the reader to rural Ohio where his children run wild in the fields, build forts in the attic, and fall asleep surrounded by lightsabers and superheroes. The microcosmic worlds of plants,

insects, animals, and children create a brooding landscape where dichotomies of nature play out in front of his growing family. The backyard becomes a labyrinth of passages as the children experience the cycles of birth and death in the changing seasons. The Locusts depicts a world in which beautiful and terrible things will happen, but offers grace and healing within

the brokenness and imperfection of life.

It discusses Janes as one of the few Westerners allowed to live in the interior and as the "father" of the Kumamoto Band, which became the dominant wing of Japanese Protestantism and a significant modernizing force. A compelling global exploration of nature and survival as seen via a dozen species of trees that represent the challenges facing our planet, and the ways that scientists are working urgently to save our forests and our future. The world today is undergoing the most rapid

environmental transformation in human history—from climate change to deforestation. Scientists, ethnobotanists, indigenous peoples, and collectives of all kinds are closely studying trees and their biology to understand how and why trees function individually and collectively in the ways they do. In *Twelve Trees*, Daniel Lewis, curator and historian at one of the world's most renowned research

libraries, travels the world to learn about these trees in their habitats. Lewis takes us on a sweeping journey to plant breeding labs, botanical gardens, research facilities, deep inside museum collections, to the tops of tall trees, underwater, and around the Earth, journeying into the deserts of the American west and the deep jungles of Peru, to offer a globe-spanning perspective on

the crucial impact trees have on our entire planet. When a once-common tree goes extinct in the wild but survives in a botanical garden, what happens next? How can scientists reconstruct lost genomes and habitats? How does a tree store thousands of gallons of water, or offer up perfectly preserved insects from millions of years ago, or root itself in muddy swamps and remain standing? How

does a 5,000-year-old tree manage to live, and what can we learn from it? And how can science account for the survival of one species at the expense of others? To study the science of trees is to study not just the present, but the story of the world, its past, and its future. Note—species include: * The Lost Tree of Easter Island (*Sophora toromiro*) * The coast redwood (*Sequoia sempervirens*)

Through vivid storytelling and meticulous historical detail, MacKenna brings to life the turbulent events of the Killing Times, painting a vivid picture of the Highland landscape and the brave souls who fought for their convictions. As the Covenanters navigate the treacherous terrain of revolution and struggle, their courage and resilience shine through, inspiring

readers with their unwavering commitment to their cause. "Flower o' the Heather" is a poignant tribute to the indomitable spirit of the Covenanters, whose bravery and sacrifice continue to resonate through the ages. The intimate Monk's

Garden at the Isabella Stewart Gardner Museum in Boston embodies the design principles that inform the work of noted landscape architect Michael Van Valkenburgh. In *Designing a Garden*, Van Valkenburgh presents the design of the Monk's Garden at the Isabella Stewart Gardner Museum, an intimate, walled garden that Laurie Olin has described as "a

masterpiece, and not a minor one." The book documents the evolution of the garden's design, which is based on the concept of meandering paths through a dreamlike woodland to create a contemplative space. Sketches and models show how the idea was worked out, and lush photographs reveal the completed garden through the seasons. Van Valkenburgh's text explores the origins of

his love of landscape and plants in his family farm in Upstate New York and how this has influenced his intuitions as a designer. He shares the full background story of the Monk's Garden, focusing on the experimental nature of design work as well as the challenges and satisfactions of the small scale and the historic and cultural context. Designing a Garden provides a

unique first-person account of the design process from the most prominent landscape architects in the country. *Bible Readings with My Children* BoD - Books on Demand The haunting memoir *Flowers & Locusts* opens a window on the legendary kingdom of Ethiopia through the extraordinary childhood of an American girl. The author's father brought his family there from New York

City to become official advisor to the Emperor, and the arc of her story is set against the dramatic events that lead to the downfall of the king. *Flowers & Locusts* is also a meditation on the universal joys and pains of childhood. *The Rosary Magazine* Revell Sheer Mayhem New York is hit by a wave of bombings, and a lack of anything cool to wear. Sheer Power Hot on

the trail but cool in their fashion, a wild bunch works against time and the military to find out who is responsible. Sheer Infamy, is on the case of the murders. She is the protean protagonist, who travels the broken landscape of a fragmented America, in search of justice and sweet flattering footwear. Sheer Infamy, is a human comedy in the age of terrorism and totalitarianism set fifteen

minutes into the future of New York City. It comes from the tradition of J.G.Ballard and Thomas Pynchon, and navigates the terrain between Ulysses and Rick & Morty. It is a dark satire on how history victimizes its witnesses, and how they resist. Sheer Infamy, an eternally hip woman in her late thirties who decides to confront the bombings - and her own mid-life crisis - by becoming a crime fighter. Surrounded by

her ex-boyfriends; two women whose closet she is parasitically living in; and a group of military police; Shear investigates a crime that has shaken the world around her. Included in the dramatic personae are the traumatized Evelin Nook, who lost her sister and her lover in the bombing, Captain Giacomo Straniero, military investigator with a dark and tragic

past, Jissabel D'ladie, heiress and femme fatale, Agent Gogol Swinecock, freelance expert and analyst for the security services, Danny Quinn, the revolutionary woke pornographer, Francis Cabliban, an adventurer being hunted by two men in grey suits, Long Dong Wong, a pot dealer and gorrilla insurgent, and Maggy Cranny, who just wants Shear to get out of her

apartment. The novel is as fragmented as the lives we live, with each chapter examining a different way of thinking and writing. From movie trailers, to game shows, to epic poetry, the story progresses through comic fake to tragic turn. With its diverse and Dickensian cast, Shear Infamy is an examination of how to live in a world of violence and imagery, where to be is to be seen. The novel ends on a

note of hope as friendship and love are illuminated as the only things worth holding onto. Lord is the God of restoration, and He has promised to restore the years the locusts have taken. **Harper's Magazine** Most of Harden's life has been as a writer — a writer of facts in the news departments of radio, television and newspapers. "With all that factual writing, I thought what I was about to attempt would be vastly different," he said. "However, I learned

otherwise. This book is also about facts — and the very life I've lived is certainly a fact." After four years in the U.S. Air Force, his next step was into broadcasting. Trained as an announcer, he later moved into the news departments and both wrote and voiced the news. During his long career, he also worked in television and as a newspaper writer/photographer. "Having written most

of my adult life, I felt I could quickly and easily write of my family's history", Harden said, "but this was the most difficult task I ever attempted. And, as it turned out, what I had written was more of an autobiography ." What's next for Harden's pencil? He says he wants

to try writing fiction. He plans to write a novel about a now-lost love of motorcycling. It will actually be an adventure/murder/suspense tale with a woman protagonist and he has already collected many pages of notes. Asked when the novel would

be ready for readers, Harden smiled and said, "I can only say as mother's have always told their children, "We'll just have to wait and see"
