**The Volunteer Project** Penguin  
 “Wow. This book totally rocks. It arrived on a day when I was in deep confusion and sadness about my age. Everything about it, from my invisibility to my neck. Within four or five wise, passionate pages, I had found insight, illumination, and inspiration. I never use the word empower, but this book has empowered me.” —Anne Lamott, New York Times bestselling author  
 Author, activist, and TED speaker Ashton Applewhite has written a rousing manifesto calling for an end to discrimination and prejudice on the basis of age. In our youth obsessed culture, we’re bombarded by media images and messages about the despairs and declines of our later years. Beauty and pharmaceutical companies work overtime to convince people to purchase products that will retain their youthful appearance and vitality. Wrinkles are embarrassing. Gray hair should be colored and bald heads covered with implants. Older minds and bodies are too frail to keep up with the pace of the modern working world and olders should just step aside for the new generation. Ashton Applewhite once held these beliefs too until she realized where this prejudice comes from and the damage it does. Lively, funny, and deeply researched, *This Chair Rocks* traces her journey from apprehensive boomer to pro-aging radical, and in the process debunks myth after myth about late life. Explaining the roots of ageism in history and how it divides and debases, Applewhite examines how ageist stereotypes cripple the way our brains and bodies function, looks at

ageism in the workplace and the bedroom, exposes the cost of the all-American myth of independence, critiques the portrayal of elders as burdens to society, describes what an all-age-friendly world would look like, and offers a rousing call to action. It’s time to create a world of age equality by making discrimination on the basis of age as unacceptable as any other kind of bias. Whether you’re older or hoping to get there, this book will shake you by the shoulders, cheer you up, make you mad, and change the way you see the rest of your life. Age pride!

*Stay Abroad Free by Helping the World* If you're travel-obsessed like me, you're always dreaming of far-off places to visit. Maybe you want to explore the lush tropical vibes of Bali or help orphans learn English in a rural village in Guatemala. There are just so many exciting places to see - best of all, you can see them for free by volunteering abroad! Unfortunately, not all of us have the bank account to travel the world in luxury hotels like your favorite Instagram "influencer" does. What's worse is when searching for travel volunteer programs, you've likely come across borderline scam websites that charge hundreds - or maybe even thousands - just for a week or two of volunteering. That's not what this book is about. I only write about real, vetted international volunteer programs. I've sifted through countless websites and resources to find you the best ways to see more of the world while helping others for close to \$0! What You'll Discover If you're looking for a fulfilling program to fill your gap year or are looking to take a sabbatical in a meaningful way, you'll find what you're

looking for in the contents of this book - and you'll save big on accommodation and living expenses in the process! You'll get insider information on the following: WWOOFing Help Exchange (HelpX & Workaway) AmeriCorps PeaceCorps Couchsurfing Donations And more! This Book Is Ideal For... High School Students. Not only will programs like WWOOF and AmeriCorps look great on a college application and resume, they'll completely change your life (best of all you and your parents won't have to spend a dime if selected). Gap Year. After spending so much time inside a classroom, why not learn from people and places that are completely foreign to you? There are plenty of gap year programs available to graduates - and you don't have to spend thousands of dollars! Find out how you can organize your own trip to volunteer in a dog shelter in Spain or become in Au Pair in France. College Students & Graduates. Whether you're already enrolled in a university and want to kill two birds with one stone (travel and education), or haven't started your academic career yet and are considering getting an international degree as I did, you'll find out how you can pair your need for education with your wanderlust. Retirees. There are many farms looking for your expertise in gardening or cooking via WWOOFing. You may be able to volunteer in an orphanage in Latin America, for example, through a help exchange program. On top of that, there are also organizations you can join within the US like the Senior Corps which allows you to make a difference in a different corner of the US. Young Couples. Sometimes two is better than one! If you want to travel the world as a pair, there are a plethora of benefits. In fact, you'll save on your WWOOFing

Volunteer Tourism Cornell University Press

"This year, over ten million people will go abroad, eager to find the perfect blend of adventure and altruism. Volunteer travel can help you find your place in the world--and find out what you're made of. So why do so many international volunteer programs fail to make an impact? Why do some do more harm than good? Learning Service offers a powerful new approach that invites volunteers to learn from host communities before trying to 'help' them. It's also a thoughtful critique of the sinister side of volunteer travel; a guide for turning good intentions into effective results; and essential advice on how to make the most of your experience."--Amazon.com.

The Global Volunteer U of Nebraska Press

Describes a variety of ways that families can get involved in volunteering, despite a busy schedule, and explains the many benefits of volunteering for all ages.

 What if your church had more volunteers than you knew what to do with? Sound far-fetched? It doesn't have to be. Now consultant, pastor, and author Nelson Searcy unveils his secret to doubling your volunteer base in as little as one day. Yes, you read that right. This step-by-step guide shows church leaders how to create a culture that attracts, keeps, and grows volunteers. Taking a comprehensive approach to the often frustrating issue of finding and retaining volunteers, *Connect* gives leaders the practical insight and tools they need to effectively involve people in serving the local church. It details how to help people see the importance of serving, how to continually raise up new volunteers, how to really delegate, and even how to "fire" a volunteer. Every church leader who has struggled with getting and keeping people active in the church (and that's all of them) will love the practical, workable strategies found here.

 Inspired by the eye-opening events of 9/11, the Asian tsunami and Hurricane Katrina, more and more people are waking up to the value of service – and realizing that their vacation may be the best place to incorporate it into their hectic lives. Even more profoundly, many travelers are deciding that the best way to recharge may not be lying on a beach, but stepping outside of their normal routine to make a difference in the lives of others. The result is an experience that allows travelers to explore a culture in great depth, make new friends, and come home feeling that

they have learned and benefited even more than those they have helped. The book will provide a diverse range of volunteer vacations, with most trips easily accomplished within a one or two-week vacation. Following the highly successful format of Frommer's 500 Places To Take Your Kids Before They Grow Up, chapters will be organized by subject, providing dozens of unique vacation ideas for any traveler:

Overseas volunteering has exploded in numbers and interest in the last couple of decades. Every year, hundreds of thousands of people travel from

wealthier to poorer countries to participate in short-term volunteer programs focused on health services. Churches, universities, nonprofit service organizations, profit-making "voluntourism" companies, hospitals, and large corporations all sponsor brief missions. *Hoping to Help* is the first book to offer a comprehensive assessment of global health volunteering, based on research into how it currently operates, its benefits and drawbacks, and how it might be organized to contribute most effectively. Given the enormous human and economic investment in these activities, it is essential to know more about them and to understand the advantages and disadvantages for host communities. Most people assume that poor communities benefit from the goodwill and skills of the volunteers. Volunteer trips are widely advertised as a means to "give back" and "make a difference." In contrast, some claim that health volunteering is a new form of colonialism, designed to benefit the volunteers more than the host communities. Others focus on unethical practices and potential harm to the presumed "beneficiaries." Judith N. Lasker evaluates these opposing positions and relies on extensive research—interviews with host country staff members, sponsor organization leaders, and volunteers, a national survey of sponsors, and participant observation—to identify best and worst practices. She adds to the debate a focus on the benefits to the sponsoring organizations, benefits that can contribute to practices that are inconsistent with what host country staff identify as most likely to be useful for them and even with what may enhance the experience for volunteers. *Hoping to Help* illuminates the activities and goals

of sponsoring organizations and compares dominant practices to the preferences of host country staff and to nine principles for most effective volunteer trips.
