Is today's language at an all-time low? Are pronunciations like cawfee and chawklit bad English? Is slang like my bad or hook up improper? Is it incorrect to mix English and Spanish, as in Yo quiero Taco Bell? Can you write Who do you trust? rather than Whom do you trust? Linguist Edwin Battistella takes a hard look at traditional notions of bad language, arguing that they are often based in sterile conventionality.

Examining grammar and style, cursing, slang, and political correctness, regional and ethnic dialects, and foreign accents and language mixing, Battistella discusses the strong feelings evoked by language variation, from objections to the pronunciation NU-cu-lar to complaints about bilingual education. He explains the natural desire for uniformity in writing and speaking and traces the association of mainstream norms to ideas about refinement, intelligence, education, character, national unity and political values. Battistella argues that none of these qualities is inherently connected to

language. It is tempting but wrong, Battistella argues, to think of slang, dialects and nonstandard grammar as simply breaking the rules of good English. Instead, we should view language as made up of alternative forms of orderliness adopted by speakers depending on their purpose. Thus we can study the structure and context of nonstandard language in order to illuminate and enrich traditional forms of language, and make policy decisions based on an informed engagement. Re-examining longstanding and heated debates, Bad Language will appeal to a wide spectrum of readers

engaged and interested in the debate over what constitutes proper language.

Last Stop Before Tomorrow shares the compelling tale of three people as they wrestle with the riddles, paradoxes, and dilemmas of climate change and technology, and search for answers to the human predicament and their own lives. Jules, a computer genius, finds himself working with Sir Henry Percival McIntyre, CEO of a multinational energy company, who knows he must change the course of his global enterprise as humanity struggles to change the course of history. Maryanne, Jules' artist lover, distrusts the alliance and is filled with premonitions. As Maryanne, Jules, and Sir Henry are brought together, they are swept along on a journey accompanied by Prometheus, bringer of fire, and Pandora, the inquisitive, whose legacies also hang in the balance as they wonder if the outcome will be tragic or transcendent. The writing is brilliant. Its not just a story, its an experience. - B. Wolfe, artist
The book has sweep, velocity, and power. Kept me on edge of my seat to the end. - B. Lebaron, musician

People do bad things. They misspeak, mislead, and misbehave. They lie, cheat, steal, and kill. Often, afterward, they apologize. But what makes a successful apology? Why does Joe Biden's 2007 apology for referring to Barack Obama as "articulate and bright" succeed, whereas Mel Gibson's 2006 apology for his anti-Semitic tirade fails? Naturally, the effectiveness of an apology depends on the language used, as well as the conditions under which we offer our regrets. In *Sorry About That*, linguist Edwin Battistella analyzes the public apologies of presidents, politicians, entertainers, and businessmen, situating the apology within American popular culture. Battistella offers the fascinating stories behind these apologies alongside his own analysis of the language used in each. He uses these examples to demonstrate the ways in which language creates sincere or insincere apologies, why we choose to apologize or don't, and how our efforts to say we are sorry succeed or fail. Each chapter expands on a central concept or distinction that explains part of the apology process. Battistella covers over

fifty memorable apologies from McDonald's, Martha Stewart, Oprah Winfrey, Jane Fonda, Bill Clinton, and many more. Moving back and forth between examples and concepts, Battistella connects actual apologies with the broader social, ethical, and linguistic principles behind them. Readers will come away from the book better consumers of apologies - and better apologizers as well. [101 Careers in Social Work](#) Henry Holt and Company (BYR)

Report of a Workshop on the Scope and Nature of Computational Thinking presents a number of perspectives on the definition and applicability of computational thinking. For example, one idea expressed during the workshop is that computational thinking is a fundamental analytical skill that everyone can use to help solve problems, design systems, and understand human behavior, making it useful in a number of fields. Supporters of this viewpoint believe that computational thinking is comparable to the linguistic, mathematical and logical reasoning taught to all children. Various efforts have been made to introduce K-12 students to the most basic and essential computational

concepts and college curricula have tried to provide a basis for life-long learning of increasingly new and advanced computational concepts and technologies. At both ends of this spectrum, however, most efforts have not focused on fundamental concepts. The book discusses what some of those fundamental concepts might be. Report of a Workshop on the Scope and Nature of Computational Thinking explores the idea that as the use of computational devices is becoming increasingly widespread, computational thinking skills should be promulgated more broadly. The book is an excellent resource for professionals in a wide range of fields including educators and scientists.

In the 1960s Donald Barthelme came to prominence as the leader of the Postmodern movement. He was a fixture at the *New Yorker*, publishing more than 100 short stories, including such masterpieces as "Me and Miss Mandible," the tale of a thirty-five-year-old sent to elementary school by clerical error, and "A Shower of Gold," in which a sculptor agrees to appear on the existentialist game show *Who Am I?* He had a dynamic

relationship with his father that influenced much of his fiction. He worked as an editor, a designer, a curator, a news reporter, and a teacher. He was at the forefront of literary Greenwich Village which saw him develop lasting friendships with Thomas Pynchon, Kurt Vonnegut, Tom Wolfe, Grace Paley, and Norman Mailer. Married four times, he had a volatile private life. He died of cancer in 1989. The recipient of many prestigious literary awards, he is best remembered for the classic novels *Snow White*, *The Dead Father*, and many short stories, all of which remain in print today. *Hiding Man* is the first biography of Donald Barthelme, and it is nothing short of a masterpiece.

Market - Articles Simon and Schuster Fans of Elizabeth Moon and Anne Leckie will love this first thrilling adventure in an epic space opera trilogy—set in a future where alien technology comes at a steep price: human life. Aliens came to Earth 40 years ago. Their anatomy proved unfathomable and all attempts at communication failed. But through trade, humanity gained technology that allowed them to colonize the stars. The price: live

humans for every alien faster-than-light drive. Kara's sister was one of hundreds exchanged for this technology, and Kara has little love for aliens. So when she is drafted by GalDiv—the organization that oversees alien trades—it is under duress. A group of colonists have been kidnapped by aliens and taken to an uncharted planet, and an unusual team is to be sent to negotiate. As an ex-army sniper, Kara's role is clear. But artist Marc has no combat experience, although the team's pre-cog Tse is adamant that he has a part to play. All three know that success is unlikely. For how will they negotiate with aliens when communication between the species is impossible?

Having a good death is our final human right, argues Sandra Martin in this updated and expanded version of her bestselling and award-winning social history of the right to die movement in Canada and around the world. Winner of the BC National Award for Canadian Non-Fiction, finalist for both the Donner Prize in Public Policy and the Dafoe Prize for History, *A Good Death* has a new chapter on Canada's Medical Assistance in Dying Law. The law allows mentally competent adults, who are suffering grievously from incurable conditions, to ask for a doctor's help in ending their lives. Does the law go far enough? No, says Martin. She delivers compelling stories about the patients the law ignores: people with life-crushing diseases who are condemned to suffer because their natural deaths are not reasonably foreseeable. With a clear analytical eye, she exposes the law's shortcomings and outlines constitutional challenges, including the presumed right of publicly-funded faith-based institutions to deny suffering patients a legal medical service. Martin argues that Canada can set an example for the world if it can strike a balance between compassion for the

suffering and protection of the vulnerable, between individual choice and social responsibility. *A Good Death* asks the tough question none of us can avoid: How do you want to die? The answer will change your life—and your death. “[An] excellent new book. . . .The timeliness is hard to overstate.” —The Globe and Mail “What truly distinguishes this book is the reportage on individuals and families who have fought to arrange for a better death. . . .  WINNER OF THE PULITZER PRIZE •
 NATIONAL BESTSELLER • A searing, post-apocalyptic novel about a father and son's fight to survive, this "tale of survival and the miracle of goodness only adds to McCarthy's stature as a living master. It's gripping, frightening and, ultimately, beautiful" (San Francisco Chronicle). • From the bestselling author of *The Passenger* A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. *The Road* is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that

we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation. A Brief Introduction to American Politics provides a coherent and succinct account of how contemporary American politics blends enduring principles with the realities and demands of the present day. Beginning with a brief overview of American society today, the book introduces the constitutional framework of American politics and the fluid concept and practice of federalism. It also covers the major features of the representative process, looking at both elections and main players such as parties, interest

groups, and the media. Chapters on the major institutions of the federal government - the presidency, the Congress, and the Supreme Court - examines how they are simultaneously independent and constrained by each other. Chapters on domestic and foreign policy demonstrate how government and politics work in connection with the system's main outputs. *A Brief Introduction to American Politics* is a shorter version of *Politics USA* and is intended for students who need an introduction to the essential features of the American political system.

The New York Times bestselling writer Tracy Daugherty illuminates his most vital subject yet in this first biography of the *Catch-22* author Joseph Heller. Joseph Heller was a Coney Island kid, the son of Russian immigrants, who went on to great fame and fortune. His most memorable novel took its inspiration from a mission he flew over France in WWII (his plane was filled with so much shrapnel it was a wonder it stayed in the air). Heller wrote seven novels, all of which remain in print. *Something Happened* and *Good as Gold*, to name two, are still considered the epitome of satire. His life was filled with women and romantic indiscretions, but he was perhaps more famous for his friendships—he counted Mel Brooks, Zero

Mostel, Carl Reiner, Kurt Vonnegut, Norman Mailer, Mario Puzo, Dustin Hoffman, Woody Allen, and many others among his confidantes. In 1981 Heller was diagnosed with Guillain-Barré Syndrome, a debilitating syndrome that could have cost him his life. Miraculously, he recovered. When he passed away in 1999 from natural causes, he left behind a body of work that continues to sell hundreds of thousands of copies a year. *Just One Catch* is the first biography of Yossarian's creator.
