Mathematics Standard Level for the IB
Diploma is a single volume that matches
the Mathematics Standard Level course
of the International Baccalaureate
Diploma Programme, to be taught from
September 2004 for first examination in
2006. The book has been adapted in
consultation with seniorexaminers to
ensure complete and authoritative
coverage of the syllabus.

Mathematics OUP Oxford

Developed in cooperation with the IB,
this student-friendly, concept-based
Course Book has been comprehensively
updated to support all aspects of the
new English A: Literature syllabus, for
first teaching in September 2019. With
in-depth coverage of the new Areas of
Exploration, concepts and global
concerns, the resource provides a clear
and accessible route through the course
- from text selection and analysis to
assessment. The IB English A: Literature
Course Book is available in print, online
and as a print and online pack.

Diploma Exam Preparation Guide

Cambridge University Press
Build solid mathematical understanding
and develop meaningful conceptual
connections. The inquiry-based approach
holistically integrates the key concepts,
helping you shift to a concept-based
approach and cement mathematical
comprehension. Fully comprehensive
and matched to the Revised MYP, this
resource helps you smoothly progress
learners into DP Mathematics with
confidence and supports the MYP
eAssessment. Using a unique question
cycle to sequentially build skills and
comprehension, units introduce factual
questions, followed by concept-based
questions and conclude with debatable
questions. This firm grounding in inquiry-
based learning equips learners to
actively explore mathematical concepts
and relate them to the wider 21st
Century world, strengthening
comprehension. Progress your learners
into IB Diploma - fully comprehensive
and matched to the Revised MYP
Develop conceptual understanding in the
best way for your learners - learn by
mathematical unit or by key concept
Drive active, critical exploration of
mathematical principles - build rounded
comprehension framed within the key
and related concepts Develop
meaningful cross-curricular connections
that help learners recognize and
manipulate mathematical ideas in other
disciplines Support higher level thinking
skills through an approach grounded in
factual, conceptual and debatable
questions Build a solid foundation of
practical skills with extensive practice
equipping learners to apply skills Fully
prepare learners for the MYP
