A stunning love story about a young Black woman whose life is torn apart when her lover is wrongly accused of a crime—"a moving, painful story, so vividly human and so obviously based on reality that it strikes us as timeless" (The New York Times Book Review). "One of the best books Baldwin has ever written—perhaps the best of all." —The Philadelphia Inquirer Told through the eyes of Tish, a nineteen-year-old girl, in love with Fonny, a young sculptor who is the father of her child, Baldwin's story mixes the sweet and the sad. Tish and Fonny have pledged to get married, but Fonny is falsely accused of a terrible crime and imprisoned. Their families set out to clear his name, and as they face an uncertain future, the young lovers experience a kaleidoscope of emotions—affection, despair, and hope. In a love story that evokes the blues, where passion and sadness are inevitably intertwined, Baldwin has created two characters so alive and profoundly realized that they are unforgettably ingrained in the American psyche.

Adam Gordon is a brilliant, if highly unreliable, young American poet on a prestigious fellowship in Madrid, struggling to establish his sense of self and his relationship to art. What is actual when our experiences are mediated by language, technology, medication, and the arts? Is poetry an essential art form, or merely a screen for the reader's projections? Instead of following the dictates of his fellowship, Adam's "research" becomes a meditation on the possibility of the genuine in the arts and

beyond: are his relationships with the people he meets in Spain as fraudulent as he fears his poems are? A witness to the 2004 Madrid train bombings and their aftermath, does he participate in historic events or merely watch them pass him by? In prose that veers between the comic and tragic, the self-contemptuous and the inspired, *Leaving the Atocha Station* is a portrait of the artist as a young man in an age of Google searches, pharmaceuticals, and spectacle. Born in Topeka, Kansas, in 1979, Ben Lerner is the author of three books of poetry *The Lichtenberg Figures*, *Angle of Yaw*, and *Mean Free Path*. He has been a finalist for the National Book Award and the Northern California Book Award, a Fulbright Scholar in Spain, and the recipient of a 2010-2011 Howard Foundation Fellowship. In 2011 he became the first American to win the Preis der Stadt Münster für Internationale Poesie. *Leaving the Atocha Station* is his first novel.

**A Heart of Stone** Simon and Schuster

A gripping and fast-paced adventure story about one boy's life-threatening mission to support the secret resistance in Nazi-occupied Netherlands, based on the author's own childhood in Holland during World War II. It's the winter of 1944-45, and Michiel's country has been at war since he was eleven. Now he's fifteen, and his country is under Nazi occupation, including the town where Michiel lives and where his father is the mayor. No longer able to attend school, Michiel spends his days running urgent errands on his bicycle, avoiding Allied bombers and German soldiers alike. Then one day, his friendship with Dirk, the neighbor's older son and a member of the secret underground, involves him in the care of a wounded British pilot. When a German soldier is found murdered and the townspeople are

blamed for his death, Michiel's already-risky mission turns life-threatening. *Winter in Wartime* is a fast-paced and exciting novel, which has never been out of print in the Netherlands since it was first published, nearly fifty years ago. Based on the author's own boyhood in wartime Holland, the action and adventure of Michiel's mission makes for a gripping read, while the anguish of his experience underscores the ultimate anti-war tenor of the novel.

The full ECG is reproduced and a study of it with the case history should be enough to give an answer. On the back the case is examined, with a description of the main features of the ECG along with a clinical interpretation and a "what to do" section. The cases are graded in difficulty. The unique page size allows presentation of all 12-lead ECGs across a single page for clarity. Several of the cases incorporate chest X-rays and coronary angiograms illustrating the appearances that are associated with various cardiac conditions. All the cases are graded in difficulty and are cross-referenced to the new editions of ECG Made Easy and ECG in Practice for further information. For this Fourth Edition over 30 new ECGs have been included, mainly to provide clearer examples, though the book deliberately retains

some technically poor records to maintain a 'real-world' perspective.

**150 ECG Problems E-Book** HarperCollins Publishers A New York Times Notable Book of the Year. Shortlisted for the 2016 Man Booker Prize, Hot Milk moves "gracefully among pathos, danger, and humor" (The New York Times). I have been sleuthing my mother's symptoms for as long as I can remember. If I see myself as an unwilling detective with a desire for justice, is her illness an unsolved crime? If so, who is the villain and who is the victim? Sofia, a young anthropologist, has spent much of her life trying to solve the mystery of her mother's unexplainable illness. She is frustrated with Rose and her constant complaints, but utterly relieved to be called to abandon her own disappointing fledgling adult life. She and her mother travel to the searing, arid coast of southern Spain to see a famous consultant--their very last chance--in the hope that he might cure her unpredictable limb paralysis. But Dr. Gomez has strange methods that seem to have little to do with physical medicine, and as the treatment progresses, Sofia's mother's illness becomes increasingly baffling. Sofia's role as detective--tracking her mother's symptoms in an attempt to find the secret motivation for her pain--deepens as she discovers her own desires in this transient desert community. Hot Milk is a profound exploration of the sting of sexuality, of unspoken female rage, of myth and modernity, the lure of hypochondria and big pharma, and, above all, the value of experimenting with life; of being curious, bewildered, and vitally alive to the world. This novel dramatizes an incident that took place in a California school in 1969. A teacher creates an experimental movement in

his class to help students understand how people could have followed Hitler. The results are astounding. The highly disciplined group, modeled on the principles of the Hitler Youth, has its own salute, chants, and special ways of acting as a unit and sweeps

beyond the class and throughout the school, evolving into a society willing to give up freedom for regimentation and blind obedience to their leader. All will learn a lesson that will never be forgotten.
