The Poisoner's Handbook Watson-Guptill Publications
 There is a long-standing relationship between broadcasting and sports, and nowhere is this more evident than in the marriage of baseball and radio: a slow sport perfectly suited to the word-painting of broadcasters. This work covers the development of the baseball broadcasting industry from the first telegraph reports of games in progress, the influence of early pioneers at Pittsburgh's KDKA and Chicago's WGN, including the first World Series broadcast, the launch of the Telstar Satellite, the Carlton Fisk homerun in the 1975 World Series, which changed how baseball is broadcast, through the latest computer graphics, HD television, and the Internet.

Top of the Morning Penguin

The bestselling author of *Collapse* and *Guns, Germs and Steel* surveys the history of human societies to answer the question: What can we learn from traditional societies that can make the world a better place for all of us? "As he did in his Pulitzer Prize-

winning *Guns, Germs, and Steel*, Jared Diamond continues to make us think with his mesmerizing and absorbing new book." Bookpage Most of us take for granted the features of our modern society, from air travel and telecommunications to literacy and obesity. Yet for nearly all of its six million years of existence, human society had none of these things. While the gulf that divides us from our primitive ancestors may seem unbridgeably wide, we can glimpse much of our former lifestyle in those largely traditional societies still or recently in existence. Societies like those of the New Guinea Highlanders remind us that it was only yesterday—in evolutionary time—when everything changed and that we moderns still possess bodies and social practices often better adapted to traditional than to modern conditions. *The World Until Yesterday* provides a mesmerizing firsthand picture of the human past as it had been for millions of years—a past that has mostly vanished—and considers what the differences between that past and our present mean for our lives today. This is Jared Diamond's most personal book to date, as he draws extensively from his decades of field work in the Pacific islands, as well as evidence from Inuit, Amazonian Indians, Kalahari San people, and others. Diamond doesn't romanticize traditional

societies—after all, we are shocked by some of their practices—but he finds that their solutions to universal human problems such as child rearing, elder care, dispute resolution, risk, and physical fitness have much to teach us. Provocative, enlightening, and entertaining, *The World Until Yesterday* is an essential and fascinating read.

The Silver Pigs is Lindsey Davis' classic novel, which introduced readers around the world to Marcus Didius Falco, a private informer with a knack for trouble, a tendency for bad luck, and a frequently inconvenient drive for justice. When Marcus Didius Falco, a Roman "informer" who has a nose for trouble that's sharper than most, encounters Sosia Camillina in the Forum, he senses immediately all is not right with the pretty girl. She confesses to him that she is fleeing for her life, and Falco makes the rash decision to rescue her—a decision he will come to regret. For Sosia bears a heavy burden: as heavy as a pile of stolen Imperial ingots, in fact. Matters just get more complicated when Falco meets Helena Justina, a Senator's daughter who is connected to the very same traitors he has sworn to expose. Soon Falco finds himself swept from the perilous back alleys of Ancient Rome to the silver mines of distant Britain—and up against a cabal of traitors with blood on their hands and no compunction whatsoever to do away with a snooping plebe like Falco....

New York Times Bestseller • Finalist for the Pulitzer Prize • An Oprah's Book Club Selection "Powerful . . . [Kingsolver] has with infinitely steady hands worked the prickly threads of religion, politics, race, sin and redemption into a thing of terrible beauty." —Los Angeles Times Book Review *The Poisonwood Bible*, now celebrating its 25th anniversary, established Barbara Kingsolver as one of the most thoughtful and daring of modern writers. Taking its place alongside the classic works of postcolonial literature, it is a suspenseful epic of one family's tragic undoing and remarkable reconstruction over the course of three decades in Africa. The story is told by the wife and four daughters of Nathan Price, a fierce, evangelical Baptist who takes his family and mission to the Belgian Congo in 1959. They carry with them

everything they believe they will need from home, but soon find that all of it—from garden seeds to Scripture—is calamitously transformed on African soil. The novel is set against one of the most dramatic political chronicles of the twentieth century: the Congo's fight for independence from Belgium, the murder of its first elected prime minister, the CIA coup to install his replacement, and the insidious progress of a world economic order that robs the fledgling African nation of its autonomy. Against this backdrop, Orleana Price reconstructs the story of her evangelist husband's part in the Western assault on Africa, a tale indelibly darkened by her own losses and unanswerable questions about her own culpability. Also narrating the story, by turns, are her four daughters—the teenaged Rachel; adolescent twins Leah and Adah; and Ruth May, a prescient five-year-old. These sharply observant girls, who arrive in the Congo with racial preconceptions forged in 1950s Georgia, will be marked in surprisingly different ways by their father's intractable mission, and by Africa itself. Ultimately each must strike her own separate path to salvation. Their passionately intertwined stories become a compelling exploration of moral risk and personal responsibility.

The ongoing interconnection of the world through modern mass media is generally considered to be one of the major developments underpinning globalization. This important book considers anew the globalization phenomenon in the media sphere. Rather than heralding globalization or warning of its dangers, as in many other books, Kai Hafez analyses the degree to which media globalization is really taking place. Do we have enough evidence to show that there is a linear and accelerated move towards transnationalization in the media? All too often the empirical data presented seems rather more anecdotal than representative. Many transborder media phenomena are overestimated and taken out of the context of locally and nationally oriented mainstream media processes all over the world. The inherent danger is that a central paradigm of the social sciences, rather than bearing scholarly substance, will turn out to be a myth and even a sometimes dangerously ideological tool. Based on a theoretical debate of media globalization, the work discusses most major fields of media development, including foreign reporting, satellite TV, film, internet, foreign broadcasting, media and migration, media policy and media economy. As an important new contribution to timely debates, *The Myth of Media Globalization* will be essential and provocative reading for students and scholars alike.

World Television: From Global to Local, a new assessment of the interdependence of television across cultures and nations brings together the most current research and theories on the subject. By examining recent developments in the world system of television as well as several theories of culture, industry, genre, and audience, author Joseph D. Straubhaar offers new insights into the topic. He argues that television is being simultaneously globalized, regionalized, nationalized, and even localized, with audiences engaging it at multiple levels of identity and interest; therefore the book looks at all these levels of operation. Key Features Draws upon both international communication and cultural studies perspectives: Presents a new model is presented that attempts to move beyond the current controversies about imperialism and globalization. Looks at historical patterns:

Historical patterns across cultures and countries help compare where television has been and where it is going. Takes a contemporary focus: Uses of technology, flows and patterns of program development, genres of television, the interaction of producers and audiences, and patterns of audience choice among emerging alternatives are examined. Explores how the audience for these evolving forms of television is structured: The effects of these forces or patterns of television have on both cultural formations and individual identities are identified. Intended Audience This is an excellent text for advanced undergraduate and graduate courses in Globalization and Culture, Global Media, Television Studies, Television Criticism, and International Media.

Taking the literary world by storm, Eimear McBride's internationally praised debut is one of the most acclaimed novels in recent years; it is "subversive, passionate, and darkly alchemical. Read it and be changed" (Eleanor Catton). Eimear McBride's debut tells, with astonishing insight and in riveting detail, the story of a young woman's relationship with her brother, the long shadow cast by his childhood brain tumour, and her harrowing sexual awakening. Not so much a stream-of-consciousness, as an unconscious railing against a life that makes little sense, and a shocking and intimate insight into the thoughts, feelings and chaotic sexuality of a vulnerable and isolated protagonist, *A Girl Is a Half-formed Thing* plunges inside its narrator's head, exposing her world firsthand. This isn't always comfortable—but it is always a revelation. Touching on everything from family violence to religion to addiction, and the personal struggle to remain intact in times of intense trauma, McBride writes with singular intensity, acute sensitivity, and mordant wit. *A Girl Is a Half-formed Thing* is moving, funny, and alarming. It is a book you will never forget.

Jessica Alexander arrived in Rwanda in the aftermath of the 1994 genocide as an idealistic intern, eager to contribute to the work of the international humanitarian aid community. But the world that she encountered in the field was dramatically different than anything she could have imagined. It was messy, chaotic, and difficult—but she was hooked. In this honest and irreverent memoir, she introduces readers to the realities of life as an aid worker. We watch as she manages a 24,000-person camp in Darfur, collects evidence for the Charles Taylor trial in Sierra Leone, and contributes to the massive aid effort to clean up a shattered Haiti. But we also see the alcohol-fueled parties and fleeting romances, the burnouts and self-doubt, and the struggle to do good in places that have long endured suffering. Tracing her personal journey from wide-eyed and naïve newcomer to hardened cynic and, ultimately, to hopeful but critical realist, Alexander transports readers to some of the most troubled locations around the world and shows us not only the seemingly impossible challenges, but also the moments of resilience and recovery.

CNN correspondent Brian Stelter reveals the dark side of morning television with exclusive material about current and past morning stars, from Matt Lauer to Katie Couric. When America wakes up with personable and charming hosts like Robin Roberts and George Stephanopoulos, it's hard to imagine their show bookers having to guard a guest's hotel room all night to prevent rival shows from poaching. But that is just a glimpse of the intense reality revealed in this gripping look into the most competitive time slot in television. Featuring exclusive content about all the major players of the 2000s, *Top of the Morning* illuminates what it takes to win the AM -- when every single viewer counts, tons of jobs are on the line, and hundreds of millions of dollars are at stake. Stelter is behind the scenes as Ann Curry replaces Meredith Vieira on the *Today* show, only to be fired a year later in a fiasco that made national headlines. He's backstage as *Good Morning America* launches an attack to dethrone *Today* and end the longest consecutive winning streak in morning television history. And he's there as Roberts is diagnosed with a crippling disease -- on what should be the happiest day of her career. So grab a cup of coffee, sit back, and discover the dark side of the sun. Praise for *Top of the Morning* "Mr. Stelter pulls back the curtains and exposes a savage corporate world that might have been inhabited by the Sopranos." -- *Washington Times* "A troubling look inside an enterprise as vicious and internecine as a soap opera." -- *Kirkus Reviews*
