From shapes and baby animals to students in space, fiction and non-fiction Dolphins capture imaginations. With

activities for every page of reading, the stimulating 'read and do' approach engages learners, practises language, and encourages critical-thinking skills.

[A Day with Baby \(Dolphin Readers Starter\)](#) Oxford University Press
Schneider Family Book Award-winning author Ginny Rorby has created an irresistible dolphin story about a girl's struggle to help her autistic brother and herself. Lily loves her half-brother, Adam, but she

has always struggled with him, too. He's definitely on the autism spectrum -- though her step-father, Don, can barely bring himself to admit it -- and caring for him has forced Lily to become as much mother as sister. All Lily wants is for her step-father to acknowledge that Adam has a real issue, that they need to find some kind of program that can help him. Then maybe she can have a life of her own. Adam's always loved dolphins, so

when Don, an oncologist, hears about a young dolphin with cancer, he offers to help. He brings Lily and Adam along, and Adam and the dolphin -- Nori -- bond instantly. But though Lily sees how much Adam loves Nori, she also sees that the dolphin shouldn't spend the rest of her life in captivity, away from her family. Can Adam find real help somewhere else? And can Lily help Nori regain her freedom without betraying her family?
