 Salt supply - Salt requirement - Ion absorption by cells - Ion uptake by plants - Distribution of ions \_\_\_\_  
Plants and Mineral Salts Yale University Press  
 An ethnography of magic-religious, medicinal and recreational tobacco use among nearly 300 native South American societies. Wilbert found that South American Indians use tobacco in many ways and that a close functional relation exists between tobacco and shamanism.  
**From the Milk River: Spatial and**

## Temporal Processes in Northwest Amazonia

BRILL  
 The House of Ulloa follows pure and pious Father Julian Alvarez, who is sent to a remote country estate to put the affairs of the marquis, an irresponsible libertine, in order. When he discovers moral decadence, cruelty and corruption at his new home, Julian's well-meaning but ineffectual attempts to prevent the fall of the House of Ulloa end in tragedy.  
*Maya Society Under Colonial Rule* Penguin Group  
 Exile Cultures, Mislplaced Identities takes a

transnational and transcultural approach to exile and its capacities to alter the ways we think about place and identity in the contemporary world. The edited collection brings together researchers on exile in international perspective from three continents who explore questions of exilic identity along multiple geopolitical and cultural axes—Cuba, the USA and Australia; Colombia and the USA; Algeria and France; Italy, France and Mexico; non-Han minorities and Han majorities in China; China, Tibet and India; Japan and China; New Caledonia, Vietnam and France; Hungary, the USSR, and Australia; and Germany, before and after unification. The international and crosscultural span of this collection represents an important addition to the fields of exile criticism and cultural identity studies. *Exile Cultures, Misplaced Identities* will be of interest to readers, scholars and students of exile, diasporic and transmigration studies, international studies, postcolonial studies, cultural studies, language studies, and comparative literary studies.

*Inca Culture at the Time of the Spanish Conquest* Cambridge University Press  
Since its first publication in 1979, this

book, together with its companion volume, *The Palm and the Pleiades* by Stephen Hugh-Jones, has become established as 'the most competent and sophisticated ethnography to date of any South American tropical forest people' (The Times Higher Education Supplement). Both are now available for the first time in paperback. The book is an integrated account of a Northwest Amazonian society, which elucidates the structural models that underlie and unify the domains of kinship, religion, politics and economics. These dynamic models are built from a rich corpus of ethnographic data drawn from extensive field research, and are developed in such a way that, as far as possible, they reproduce an Indian theory of society. Besides enhancing anthropological understanding of a fascinating culture area, the book's highly original approach makes it an important contribution to the general theory of social and cultural structures.

**Dentists** Timber Press (OR)

*The Villagers* is a story of the ruthless

exploitation and extermination of an Indian village of Ecuador by its greedy landlord. First published in 1934, it is here available for the first time in an authorized English translation. A realistic tale in the best tradition of the novels of social protest of Zola, Dostoevsky, José Eustasio Rivera, and the Mexican novels of the Revolution, *The Villagers* (Huasipungo) shocked and horrified its readers, and brought its author mingled censure and acclaim, when it was first published in 1934. Deeply moving in the dramatic intensity of its relentless evolution and stark human suffering, Icaza's novel has been translated into eleven foreign languages, including Russian and Chinese, and has gone through numerous editions in Spanish, including a revised and enlarged edition in 1953, on which this translation is based, but it has never before been authorized for translation into English. His first novel, but not his first published work, *The Villagers* is still considered by most critics as Icaza's best, and it is widely acclaimed as one of the most significant works in contemporary Latin American literature. Thirty years after its original publication in Ecuador,

The Villagers still carries a powerful message for the contemporary world and an urgent warning. The conditions here portrayed prevail in these areas, even today. The Villagers is an indictment of the latifundista system and a caustic picture of the native worker who, with little expectation from life, finds himself a victim of an antiquated feudal system aided and abetted by a grasping clergy and an indifferent government.  
Exile Cultures, Misplaced Identities Inca

Culture at the Time of the Spanish ConquestHuasipungo  
This is a detailed portrait of how an aboriginal tribe of the remote Amazonian region understands the cosmic dimensions of their partnership with the rainforest. Anthropologist Gerardo Reichel-Dolmatoff, who spent most of his life working in Colombia among the Indian tribes of the North-West Amazon, explores the world-view of the Tukano Indians: their view of

the forest as a model of the cosmos; the master of the animals; their complex and multi-dimensional bond with their environment; and their social and sexual restrictions in order to harmonise with the rainforest.

The Healing Forest

This is a study of the Maya Indians of Yucatan, Mexico, from late preconquest times through the end of the Spanish colonial rule.
