Cambridge University Press  
At least 146,000 female migrant workers - perhaps many more - are employed in the United Arab Emirates (UAE). Female domestic workers from the Philippines, Indonesia, India, Bangladesh, Sri Lanka, Nepal, Ethiopia, and elsewhere face severe abuse and exploitation by employers and labor recruitment agencies. "I Already Bought You" : Abuse and Exploitation of Female Migrant Domestic Workers in the United Arab Emirates documents how the UAE's visa sponsorship system (known as kafala) ties migrant workers to employers and how the exclusion of domestic workers from labor law protections leaves migrant domestic workers at risk of abuse. The report exposes barriers preventing abused domestic workers

from obtaining remedy, including lack of shelters, penalties for "absconding" workers, and justice system failings. Based on interviews with 99 female domestic workers, recruitment agents, employers, and others in the UAE, the report documents abuses that domestic workers face - passport confiscation, non-payment of wages, lack of rest periods and time off, confinement to households, excessive work and working hours, food deprivation, and psychological, physical, and sexual abuse. In some cases the abuses amounted to forced labor or trafficking. The UAE has an increasingly influential role in the international labor arena. In 2014, it joined the governing body of the International Labor Organization. At home, however, it maintains the

exploitative kafala system, has failed to adopt a bill pending since 2012 on domestic workers' rights, and has yet to ratify key international treaties on migrants' and domestic workers' rights. Human Rights Watch calls for the reform of the kafala system and the introduction of labor law protections and other measures to fully protect domestic workers' rights. -- back cover.

QF32 is the award winning bestseller from Richard de Crespigny, author of the forthcoming Fly!: Life Lessons from the Cockpit of QF32 On 4 November 2010, a

flight from Singapore to Sydney came within a knife edge of being one of the world's worst air disasters. Shortly after leaving Changi Airport, an explosion shattered Engine 2 of Qantas flight QF32 - an Airbus A380, the largest and most advanced passenger plane ever built. Hundreds of pieces of shrapnel ripped through the wing and fuselage, creating chaos as vital flight systems and back-ups were destroyed or degraded. In other hands, the plane might have been lost with all 469 people on board, but a supremely experienced flight crew, led by Captain Richard de Crespigny, managed to land the crippled aircraft and safely disembark the passengers after hours of nerve-racking effort. Tracing Richard's life and career up until that fateful flight, QF32 shows exactly

what goes into the making of a top-level airline pilot, and the extraordinary skills and training needed to keep us safe in the air. Fascinating in its detail and vividly compelling in its narrative, QF32 is the riveting, blow-by-blow story of just what happens when things go badly wrong in the air, told by the captain himself. A gripping, real-life drama that reveals the true story of a plane full of unsuspecting passengers who landed in a war zone and were delivered into the hands of a murderous dictator. On August 1, 1990, Flight 149 was scheduled for its routine London-to-Kuala Lumpur run. But when the plane, carrying 385 passengers and crew,

landed at a Kuwait airport to refuel that day, it was surrounded by Iraqi tanks and about to be bombed by fighter jets. The passengers and crew were kept as hostages and suffered brutal treatment including violent attacks, sexual assaults, and mock executions. When the survivors were eventually released, they were never told why their plane landed in the middle of an invasion, or who a mysterious team of late arrivals on the flight might have been. Their story was overshadowed by the ensuing Gulf War. Until now. In *Flight 149*, Stephen Davis draws on unique witness accounts from the hostages, and uncovers the lies and coverups orchestrated by the British secret service and CIA. This story reveals an astonishing misuse of intelligence that

changed the course of history and forever altered the relationship between the West and the Middle East.

Not for Tourists  
Aviation has played an important part in shaping Australia's culture and history through the course of the twentieth

century. Australia embraced aviation from its earliest days, eagerly responding to its potential to cover a challenging country, to bring far-flung communities closer and to provide services that could not be delivered any other way. Add the romance of pioneer heroes, the vital role of aviation in wartime and the capacity to deliver aid to people in need in Australia and beyond, and it is clear why aviation is at the heart of Australia's recent history. This book aims to set out the major themes that characterise Australia's aviation history for a broad audience and to provide a foundation for a broader discussion, and for further research, about how aviation transformed Australia. Connecting the Nation is a vital and timely introduction to the

history of civil aviation in Australia as we prepare for the centenary of civil aviation services in 2020.
