### Acute Care Nurse Practitioner Certification Study Question Book

Jones & Bartlett Publishers

"In this book, the tools and clear presentation of information related to the actual testing process provide the learner with a framework for confidence as he or she prepares for the exam. More important, however, is the elaborate presentation of the certification content and the attention to the important physical and psychosocial elements of the human aging process." -  
-Geraldine Bednash, PhD, RN, FAAN  
Executive Director American Association of Colleges of Nursing  
This is the only certification review for the gerontology nursing specialty exam that has it all--a comprehensive review section covering key content included on the exam, well-honed test-taking strategies, and an extensive number of exam-style questions with answers and rationales. The second edition is completely updated to mirror the new format and content of the 2015 certification exam. It now features rationales for all review questions to promote critical thinking and includes new or expanded sections on health promotion and person-centered care, state-of-the-art drug information, and instruction on leadership, management, patient education, and population health. Concise and to the point, this resource contains all of the information required for test success, including step-by-step directives on how to best prepare for the certification exam, a meticulous content review presented according to the test blueprint, and 500 questions with

answers and rationales that mirror the type of questions included on the exam. The dissection and analysis of a variety of questions likely to appear reinforce crucial test-taking strategies, and clues for memorizing information and tips for prioritizing answers offer additional tactics for exam success. An unrivalled resource for test preparation, the book will also be useful for students and teachers of gerontology and practicing nurses working with older adults. Key Features: Mirrors the new 2015 certification test plan Provides expanded content on health promotion and person-centered care Offers updated information on new medications and treatments Presents new content on leadership, management, patient education, and population health New to the second edition, are rationales for all 500 questions

### Informatics Nurse Exam Secrets Study Guide

Springer Publishing Company  
If you are studying for the family nurse practitioner certification exam, the highly acclaimed Family Nurse Practitioner Certification Intensive Review is a must-have resource. Lauded for its concise, well-organized format, this fourth edition has been significantly revised and updated to feature key information about the new AANPCB and ANCC certification exams, all new end-of-chapter review questions, and new full-color images. The fourth edition also features four practice tests with hundreds of new questions and rationales—800 questions in total. Extensive test-taking techniques and question dissection and analysis chapters help you identify the best clues during the problem-solving process so that you can strategically master the certification exam. Designed to help FNP candidates boost their confidence

through intensive review and high-quality questions, the fourth edition continues to provide succinct, precisely targeted “need-to-know” details of diseases and classic presentations you can expect to see in practice in patients across the life span. Organized by body system, chapters are consistently formatted to include Danger Signals, Normal Findings, Lab Findings, Benign Variants, and Disease Review topics. Each chapter features valuable Exam Tips and Clinical Pearls that highlight key considerations and information likely to be encountered on the exam, ideal for a last-minute refresher before test day. Ensure success by making this essential resource—praised by thousands for helping them pass their certification—a key part of your exam prep study regimen. Key Features: Includes updated information reflecting the new AANPCB and ANCC certification exams Introduces new end-of-chapter review questions to help you assess knowledge application and retention Features four practice tests with hundreds of new questions and rationales Provides a succinct and highly targeted review of diseases commonly seen in primary care, updated clinical information, all new color photos, and Exam Tips and Clinical Pearls to highlight key exam content Outlines Danger Signals, Normal Findings, Lab Findings, and Benign Variants in physical assessment of each body system Delineates strategic question-dissection techniques to simplify the problem-solving process Offers an intensive pharmacology review and review of professional issues—ethical guidelines, professional roles, reimbursement, research, evidence-based medicine and epidemiology, and cultural considerations

on the go ExamPrepConnect Features: All the high-quality content from the book Personalized study plan based on exam date 700+ questions and answers with rationales—study by topic to identify your strengths and weaknesses Lessons and flashcards on key information and abbreviations Discussion board to connect with FNP exam-prep community Games to make studying fun See access details inside book. Core Curriculum for Ambulatory Care Nursing Springer Publishing Company Assessment and Diagnosis Review for Advanced Practice Nursing Certification Exams is designed to help nurse practitioner students strengthen their assessment and clinical-reasoning skills in preparation for certification exams, clinical rotations, and clinical practice. This must-have resource is relevant for the AANPCB and ANCC Family Nurse Practitioner and Adult-Gerontology Primary Care Nurse Practitioner exams, ANCC Psychiatric-Mental Health Nurse Practitioner exam, and PNCB Pediatric Nurse Practitioner Primary Care exam. It includes both review content and practice Q&A—everything you need to pass the exam. It includes comprehensive coverage of pediatric, pregnant, and older adult populations, as well as social determinants of health and wellness and mental health and substance abuse. The review manual begins with evidence-based strategies for successful exam performance and tips for self-care. Each systems-based chapter includes an overview of anatomy and physiology; physical examination; differentials for episodic, acute, and chronic conditions; and wellness and preventive care considerations. Knowledge and application of key concepts are reinforced with numerous illustrations, tables, red flag boxes,

evidence-based practice considerations, and end-of-chapter assessment questions. The review concludes with a 150-question practice test that addresses all patient populations and a 50-question practice for the pediatric population. With a total of 350 practice questions and detailed review content and answer rationales, *Assessment and Diagnosis Review for Advanced Practice Nursing Certification Exams* gives you the tools to study your way and the confidence to pass the first time, guaranteed. Key Features: Prepares APRN students for the assessment and diagnosis portions of their AANPCB, ANCC, and PNCB certification exams Provides a comprehensive yet concise review of the assessment of all body systems, as well as social determinants of health and mental health and substance abuse Includes coverage of pediatric, pregnant, and older adult populations Features abundant illustrations, tables, and boxes to facilitate information retention Includes a total of 350 exam-style questions with robust rationales, including two practice tests The American Academy of Nurse Practitioners Certification Board (AANPCB), American Nurses Credentialing Center (ANCC), and Pediatric Nursing Certification Board (PNCB) are the sole owners of their certification programs. AANPCB, ANCC, and PNCB do not endorse this exam preparation resource, nor do they have a proprietary relationship with Springer Publishing Company.

[Psychiatric-Mental Health Nursing](#) F A Davis Company

Print version of the book includes free access to the app (web, iOS, and Android), which offers interactive Q&A review plus the entire text of the print book! Please note the app is included

with print purchase only. The only book designed specifically to prepare students for the Adult-Gerontology Acute Care Nurse Practitioner (AG-ACNP) exams, this unparalleled review details the step-by-step journey from classroom to patient room and beyond. This book begins with proven test-taking strategies for students and provides an overview of common pitfalls for exam takers. It features question styles and content material from both the American Association of Critical-Care Nurses (AACN®) and American Nurses Credentialing Center (ANCC) exams, providing an overview of the certification exams written specifically by the certification organizations themselves. With more than 630 unique questions, this review contains completely up-to-date and evidence-based exam preparation. Practice questions are organized into body system review, special populations, and legal/ethical issues, and culminate in a 175-question practice test that represents the length, variety, and complexity of board exam questions. All questions' answers have accompanying rationales based on clinical practice guidelines. Completely unique to this publication, the last section of *Adult-Gerontology Acute Care Nurse Practitioner Q&A Review* guides one through the next steps after the exam—how to progress into practice with your new certification. KEY FEATURES Over 630 practice questions with answers and rationales The only current book publication designed specifically to prepare students for the AG-ACNP exams Contains the most current information and practice using published guidelines Exam tips and perils/pitfalls to avoid in test-taking Includes free access to interactive ebook and Q&A app—track and sync your

progress on up to three devices!  
*Practice Considerations for Adult-Gerontology Acute Care Nurse Practitioners* Elsevier Health Sciences  
 The second edition of Nursing Informatics: Scope and Standards of Practice is the most comprehensive, up-to-date resource available in this subject area. The book covers the full scope of nursing informatics and outlines the competency level of nursing practice and professional performance expected from all informatics nurses and nurse specialists. In addition, it details the nursing informatics competencies needed by any RN, spans all nursing careers and roles, and reflects the impact of informatics in any health care

practice environment. This is a must-read for nurses, as informatics touche.  
[Q & A Review for the Mometrix Test Preparation](#)  
 The authors provide some excellent tools for teaching a venipuncture class though small, is complete in its coverage of topics related to phlebotomy. The unit on blood collection and venipuncture equipment is very thorough. . .  
 Respiratory Care, review of the 1st Edition.Perfect for intensive one- or two-day phlebotomy courses! This user-friendly text concentrates on the crucial skills of blood specimen collection. . . making it a cost-effective, compact learning tool for cross training and continuing education.
