Coming of age on Park Avenue in the 1950s, Anne Roiphe had an adolescence entrenched in privilege, petticoats, and social rules. Young women at the time were expected to give up personal freedom for devotion to home and children. Instead, Roiphe chose Beckett, Proust, Sartre, and Mann as her heroes, and became one of the girls draped across the sofa at parties with George Plimpton, Norman Mailer, and William Styron, sometimes with her young child in tow. For a time she was satisfied to play the muse, but at the age of twenty-seven, divorced and finally freed of the notion that any sacrifice was worth making for art, she began to write. Here, in her clear-sighted, perceptive, and unabashed memoir, Roiphe shares with astonishing honesty the tumultuous adventure of self-discovery that finally led to her redemption.

Depths of Madness Little, Brown

With Bukowski, the votes are still coming in. There seems to be no middle ground—people seem either to love him or hate him. Tales of his own life and doings are as wild and weird as the very stories he writes. In a sense, Bukowski was a legend in his time . . . a madman, a recluse, a lover . . . tender, vicious . . . never the same . . . these are exceptional stories that come pounding out of his violent and depraved life . . . horrible and holy, you cannot read them and ever come away the same again. Bukowski . . . "a professional disturber of the peace . . . laureate of Los Angeles netherworld [writes with] crazy romantic insistence that losers are less phony than winners, and with an angry compassion for the lost." —Jack Kroll, Newsweek "Bukowski's poems are extraordinarily vivid and often bitterly funny observations of people living on the very edge of oblivion. His poetry, in all its glorious simplicity, was accessible the way poetry seldom is – a testament to his genius." —Nick Burton, PIF Magazine Charles Bukowski (1920-1994) published his first story when he was twenty-four and began writing poetry at the age of thirty-five. His first book of poetry was published in 1959; he went on to publish more than forty-five books of poetry and prose, including books

published by City Lights Publishers such as *Notes of a Dirty Old Man*, *More Notes of a Dirty Old Man*, *The Most Beautiful Woman in Town*, *Tales of Ordinary Madness*, *Portions from a Wine-Stained Notebook*, *Absence of the Hero* and *The Bell Tolls for No One*.

A lively and provocative look at the modern culture of motherhood and at the social, economic, and political forces that shaped current ideas about parenting What is wrong with this picture? That's the question Judith Warner asks in this national bestseller after taking a good, hard look at the world of modern parenting—at anxious women at work and at home and in bed with unhappy husbands. When Warner had her first child, she was living in Paris, where parents routinely left their children home, with state-subsidized nannies, to join friends in the evening for dinner or to go on dates with their husbands. When she returned to the States, she was stunned by the cultural differences she found toward how people think about effective parenting—in particular, assumptions about motherhood. None of the mothers she met seemed happy; instead, they worried about the possibility of not having the perfect child, panicking as each developmental benchmark approached. Combining close readings of mainstream magazines, TV shows, and pop culture with a thorough command of dominant ideas in recent psychological, social, and economic theory, *Perfect Madness* addresses our cultural assumptions, and examines the forces that have shaped them. Working in the tradition of classics like Betty Friedan's *The Feminine Mystique* and Christopher Lasch's *The Culture of Narcissism*, and with an awareness of a readership that turned recent hits like *The Bitch in the House* and Allison Pearson's *I Don't Know How She Does It* into bestsellers, Warner offers a

context in which to understand parenting culture and the way we live, as well as ways of imagining alternatives—actual concrete changes—that might better our lives.

A fragile peace gives way to conspiracy, betrayal, and rebellion in this sequel to the New York Times bestselling *A Little Hatred* from epic fantasy master Joe Abercrombie. "A master of his craft." —Forbes "No one writes with the seismic scope or primal intensity of Joe Abercrombie." —Pierce Brown Peace is just another kind of battlefield . . . Savine dan Glokta, once Adua's most powerful investor, finds her judgement, fortune and reputation in tatters. But she still has all her ambitions, and no scruple will be permitted to stand in her way. For heroes like Leo dan Brock and Stour Nightfall, only happy with swords drawn, peace is an ordeal to end as soon as possible. But grievances must be nursed, power seized, and allies gathered first, while Rikke must master the power of the Long Eye . . . before it kills her. Unrest worms into

every layer of society. The Breakers still lurk in the shadows, plotting to free the common man from his shackles, while noblemen bicker for their own advantage. Orso struggles to find a safe path through the maze of knives that is politics, only for his enemies, and his debts, to multiply. The old ways are swept aside, and the old leaders with them, but those who would seize the reins of power will find no alliance, no friendship, and no peace lasts forever. These brave, formally dexterous poems examine antiquated diagnoses and procedures from hysteria to lobotomy; offer meditations on risky sex; and take up the poet's personal and family histories as mental health patients and practitioners. Ultimately, *Madness* attempts to build a queer lineage out of inherited language and cultural artifacts; these poems trouble the static categories of sanity, heterosexuality, masculinity, normality, and health. sax's innovative collection embodies the strange and disjunctive workings of the mind as it grapples to make sense of the world around it.

In *The Madness of Crowds* Douglas Murray investigates the dangers of 'woke' culture and the rise of identity politics. In lively, razor-sharp prose he examines the most controversial issues of our moment: sexuality, gender, technology and race, with interludes on the Marxist foundations of 'wokeness', the impact of tech and how, in an increasingly online culture, we must relearn the ability to forgive. One of the few writers who dares to counter the prevailing view and question the dramatic changes in our society – from gender reassignment for children to the impact of transgender rights on women – Murray's penetrating book, now published with a new afterword taking account of the book's reception and responding to the worldwide Black Lives Matter protests, clears a path of sanity through the fog of our modern predicament.

During the chaos of partition in 1947, something dreadful happened in the city of Jalandhar in Punjab. As a result of this, Salman Rashid's family fled Jalandhar for Pakistan, the newly created country across the border. They were among the nearly two million people uprooted from their homes in the greatest transmigration in history. Besides those who fled, other members of the family became part of a grimmer statistic: They featured among the more than one million unfortunate souls who paid with their lives for the division of India and creation of Pakistan. After living in the shadow of his family's tragedy for decades, in 2008, Rashid made the journey back to his ancestral village to uncover the truth. A time of madness tells the story of what he discovered with great poignancy and grace. It is a tale of unspeakable brutality but it is also a testament to the uniquely human traits of forgiveness, redemption and the resilience of the human spirit.

Inspector Armand Gamache returns to Three Pines in #1 New York Times bestseller Louise Penny's latest spellbinding novel *You're a coward*. Time and again, as the New Year approaches, that charge is leveled against Armand Gamache. It starts innocently enough. While the residents of the Québec village of Three Pines take advantage of the deep snow to ski and toboggan, to drink hot chocolate in the bistro and share meals together, the Chief Inspector finds his holiday with his family interrupted by a simple request. He's asked to provide security for what promises to be a non-event. A visiting Professor of Statistics will be giving a lecture at the nearby university. While he is perplexed as to why the head of homicide for the Sûreté du Québec would be assigned this task, it sounds easy enough. That is until Gamache starts looking into Professor Abigail Robinson and discovers an agenda so repulsive he begs the university to cancel the lecture. They refuse, citing academic freedom, and accuse Gamache of censorship and intellectual cowardice. Before

long, Professor Robinson's views start seeping into conversations. Spreading and infecting. So that truth and fact, reality and delusion are so confused it's near impossible to tell them apart. Discussions become debates, debates become arguments, which turn into fights. As sides are declared, a madness takes hold. Abigail Robinson promises that, if they follow her, *ça va bien aller*. All will be well. But not, Gamache and his team know, for everyone. When a murder is committed it falls to Armand Gamache, his second-in-command Jean-Guy Beauvoir, and their team to investigate the crime as well as this extraordinary popular delusion. And the madness of crowds.
