MACIAS PITTS

[ACCA F5 - Performance Mgt - Study Text 2013](#) BPP Learning Media

First published in 1998, this volume of readings provides an overview of the development of the study of Management Control theory over the past 35 years. The period encompasses the publication of a major and seminal text by Anthony and Dearden in 1965, which acted as a touchstone in defining the range and scope of management control systems. This laid management control's foundations in accounting-based mechanisms of control, an element which has been seen as both a strength and a constraint. A good deal of work has followed, providing both a development of the tradition as well as a critique. In this volume we attempt to provide a range of readings which will illustrate the variety of possibilities that are available to researchers, scholars and practitioners in the area. The readings illustrate the view that sees control as goal directed and integrative. They go on to explore the idea of control as adaption, consider its relationship with social structure and survey the effects of the interplay between the organisation and the environment. The essays included are not intended to lead the reader through a well-ordered argument which concludes with a well reasoned view of how management control should be. Instead it seeks to illustrate the many questions which have been posed but not answered and to open up agendas for future research.

Slave to a Job, Master of Your Career BPP Learning Media

The examining team reviewed F8 Practice & Revision Kit provides invaluable guidance on how to approach the exam and contains past ACCA exam questions for you to try. Questions are grouped by syllabus area so that you can easily identify what they cover. Detailed solutions provide tips, advise you how to approach questions and tell you how to gain easy marks. ACCA Options P5 Advanced Performance Management Study Text 2014 Oxford University Press, USA

Third edition of this popular, easy-to-use textbook, updated for the revised Spreadsheet Methods Level 5 module [5N1977], which details fundamental spreadsheet methods and facilitates practical experience in spreadsheet design and implementation. New to this edition: Updated for the revised Spreadsheet Methods module [5N1977] and Excel 2010 (all assignments can be completed using Excel 2007) Includes new interactive assignments allowing students to test their spreadsheets. Details how to create formulas and functions, sort spreadsheet data, present data using a variety of charts, protect spreadsheets from unauthorised access and automate decision-making with IF functions. Presents in-depth explanations of spreadsheet concepts and of the different types of IF functions. Introduces useful Excel keyboard shortcuts in each chapter, with all images reflecting Microsoft's Ribbon system. Comprehensively deals with Excel's charting facility and introduces the use of macros and spreadsheet protection. Worked

examples guide the learner through each task, while progress tests and chapter reviews support a 'learning through practice' approach. With no previous experience in spreadsheets required, the learner is brought from the basics to an advanced level. Written for: Spreadsheet Methods Level 5 module [5N1977]
