The Glencoe Vocabulary Builder program uses a systematic approach to building students vocabulary by presenting words in context or information about word parts to help students unlock word meanings independently, and by requiring students to apply their knowledge of new words in reading and

writing exercises. Each book in the seven book series is designed for a specific reading level and features readings from the humanities, social studies, and sciences, vocabulary from Greek and Latin roots, assessment after each writing assignment, and a section on taking standardized tests! Vocabulary Builder is a research-based program and is ideal for SAT/ACT preparation.

Join Carol Ann Tomlinson and Cindy A. Strickland in the continuing exploration of how real teachers incorporate differentiation principles and strategies throughout an entire instructional unit. Focusing on the high school grades, but

applicable at all levels, *Differentiation in Practice, Grades 9-12* will teach anyone interested in designing and implementing differentiated curriculum how to do so or how to do so more effectively. Inside, you'll find * Annotated lesson plans for differentiated units in English, mathematics, history, science, art, and world languages. * Samples of differentiated product assignments, learning contracts, rubrics, and homework handouts. * An overview of the non-negotiables in differentiated classrooms and guidelines for using the book as a learning tool. * An extended glossary and recommended readings for further exploration of key ideas and strategies. Each unit highlights underlying standards, delineates learning goals, and takes you step by step through the instructional process. Unit developers provide running commentary on their use of flexible grouping and pacing, tiered assignments and assessments, and numerous other strategies. The models and insight presented will inform your own differentiation efforts and help you meet the challenge of mixed-ability classrooms with academically responsive curriculum appropriate for all learners.

The newest guide in our popular *Teacher's Classroom Guide* series. Complete with everything teacher's need to enhance the reading experience and make reading fun. Includes in-classroom and home-school connection handouts. Buzz on in for the adventure of a life time by reading the *How Mother Nature* stories! *Mother Nature* has a terrible dilemma. Supreme Queen Bee, Queen Bluefire, no longer wants the responsibility of getting all the flowers to grow. Her bees want to play and have fun. They no longer want to work to pollinate the flowers. Oh dear, what's *Mother Nature* to do? Reviews from educators... "In the tradition of established folk and fairy tales, Mr. Schwartz has created a variety of engaging characters in this imaginative environmental trilogy. The message of preservation of humans and their environment is an important one for our youth." Dr. Richard Di Patri, Superintendent, Brevard Public Schools, Florida "The environment and conservation are becoming increasingly

important to keeping our planet livable. Tom Schwartz has written a book to help children understand the importance of each creature in the scheme of things. The three stories in this book are tied together by the interaction of the wonderful, believable characters... The stories are well plotted with plenty of action and peril to keep even reluctant readers interested. The story shows how teamwork really pays off, and how the action of one can affect the whole planet. The vulnerability of the earth and its creatures is stressed, and the whole ties in nicely with school curriculum. Tom Schwartz is a gifted writer, and this is a much needed contribution to children's literature and a great addition to your child's library." Beverly J. Rowe, MyShelf.com "Tom's stories about Mother Nature and her helpers left a big impact on the children, which will help make our Earth a cleaner place." Diane Goodson, Curriculum Resource Teacher, Eccleston Elementary School, Orlando, Florida "Tom visited out school and the children were enthralled with his stories about Mother Nature. Great message about saving the environment." Maureen Tassone, Media Specialist, Christa McAuliffe Elementary School, Palm Bay, Florida "Tom's Mother Nature stories reinforce what we teach about the environment. Our students loved the characters and their parts in helping Mother Nature." Sharen Talbert, Principal, Mims Elementary School, Mims, Florida

The Complete Fire Inspector I and II Training Solution! Fire inspectors need to know how to interpret and apply national and local codes and standards in the office and in the field. Fire Inspector: Principles and Practice is designed to prepare fire inspectors to ensure the highest standards of fire and life safety in their communities. The National Fire Protection Association (NFPA) and the International Association of Fire Chiefs (IAFC) are pleased to bring you Fire Inspector: Principles and Practice, a modern integrated teaching and learning system for the fire inspector. This textbook meets and exceeds the job performance requirements for level I and II fire inspectors from Chapters 4 and 5 of NFPA 1031, Standard for Professional Qualifications for Fire Inspector and Plan Examiner, 2009 Edition. Fire Inspector: Principles and Practice is built on a solid foundation of the basics: building construction, fire growth, and types of occupancies. This fundamental knowledge is presented in a concise, understandable writing style that is easy to digest and recall. The solid foundation of fire and building knowledge then branches out to show the fire inspector how abstract concepts and codes will be concretely applied on a daily basis. This is the text that truly prepares fire inspectors for the real world.
