How to Be a Tour Guide Wellfleet

Tour guides, a highly responsible group of professionals who are in direct communication with tourists traveling around the world, have a great impact on the proper promotion of the culture of countries, global peace, and tolerance. Additionally, they are also effective in the preservation of world natural heritage. Thus, the educational status of tour guides, as well as the characteristics and

ethical values that they should possess, need to be examined on an international scale. In today's world, where tourism demand is directed towards all types of tourism, practices in special interest tourism should be customized in order to ensure the highest level of service quality and cultural appreciation. Cases on Tour Guide Practices for Alternative Tourism provides emerging research exploring the theoretical and practical aspects of the occupational issues that surround tour guides and their applications within international tourism. Featuring coverage on a broad range of topics such as cultural education, specialized learning, and international business, this book is ideally designed for tour guides, travel agencies, tour managers, tour developers, heritage sites, museums, academicians, researchers, students, industry experts, and hospitality professionals.

The City of New Orleans requires all tour guides giving for-profit tours to pass a test on the history, culture and tour regulations in order to obtain a license. The test is administered by the city on a regular basis. The license comes in the form of a plastic photo ID tag to be worn at all times when giving tours. The tag is valid for a period of two years. Many people want this information so they can give intelligent tours to family and friends. Here is your resource. You don't need a license to tell friends or family about this awesome city. This book, **STUDY GUIDE FOR THE PROFESSIONAL TOUR GUIDE TEST NEW ORLEANS** is a text designed to prepare persons to take the city test or give tours to friends. It was written by Dr. William C. Norris who taught the Professional Tourguiding Class for years at Delgado Community College. He is the author of **DOWN IN NEW ORLEANS: True Stories of a Fabled City**. The study guide includes the recent city regulations, recommended readings, important dates and important people pertaining to the city's history and culture. Basic etiquette, safety and group management are explained. Dr. Norris' classic French Quarter walking tour is included as a self-guided tour as a learning tool and to provide a personal experience in touring the city. The French Quarter is a world travel destination and its stories are the core of most any type of tour city-wide. This book introduces

exciting people from the past: explorers, founders, self-seeking rogues, pirates, slaves, spies, battle seasoned military officers, pirates, politicians, and voodoo practitioners, plus philanthropists, missionaries and good people trying to do the right thing. People like Madame Pontalba who survived a point blank murder attempt on her life before leaving New Orleans with a legacy in brick and mortar. Dr. Norris' included recommended readings are a gateway for expanding into a knowledge of characters and culture that made the city legendary. Two institutions provide classroom training. They are the Friends of the Cabildo, a nonprofit organization that supports the State of Louisiana's Cabildo Museum, and Delgado Community College. Both administer tests that are approved by the city for licensing. This city's past, people, culture, chefs and cuisine are legendary. Savor them here.

This alternative guidebook for one of the world's most popular tourist destinations explores all five boroughs to reveal a people's New York City. The sites and stories of A People's Guide to New York City shift our perception of what defines New York, placing the passion, determination, defeats, and victories of its people at the core. Delving into the histories of New York's five boroughs, you

will encounter enslaved Africans in revolt, women marching for equality, workers on strike, musicians and performers claiming streets for their art, and neighbors organizing against landfills and industrial toxins and in support of affordable housing and public schools. The streetscapes that emerge from these groups' struggles bear the traces, and this book shows you where to look to find them. New York City is a preeminent global city, serving as the headquarters for hundreds of multinational firms and a world-renowned cultural hub for fashion, art, and music. It is among the most multicultural cities in the world and also one of the most segregated cities in the United States. The people that make this global city function—immigrants, people of color, and the working classes—reside largely in the so-called outer boroughs, outside the corporations, neon, and skyscrapers of Manhattan. A People's Guide to New York City expands the scope and scale of traditional guidebooks, providing an equitable exploration of the diverse communities throughout the city. Through the stories of over 150 sites across the Bronx, Manhattan, Queens, Brooklyn and Staten Island as well as thematic tours and contemporary and archival photographs, a people's New York emerges, one in which collective struggles for justice and freedom have shaped the very landscape of the city.

#1 NEW YORK TIMES BESTSELLER • A special 25th anniversary edition of the beloved book that has changed millions of lives with the story of an unforgettable friendship, the timeless wisdom of older

generations, and healing lessons on loss and grief—featuring a new afterword by the author “A wonderful book, a story of the heart told by a writer with soul.”—Los Angeles Times “The most important thing in life is to learn how to give out love, and to let it come in.” Maybe it was a grandparent, or a teacher, or a colleague. Someone older, patient and wise, who understood you when you were young and searching, helped you see the world as a more profound place, gave you sound advice to help you make your way through it. For Mitch Albom, that person was his college professor Morrie Schwartz. Maybe, like Mitch, you lost track of this mentor as you made your way, and the insights faded, and the world seemed colder. Wouldn't you like to see that person again, ask the bigger questions that still haunt you, receive wisdom for your busy life today the way you once did when you were younger? Mitch Albom had that second chance. He rediscovered Morrie in the last months of the older man's life. Knowing he was dying, Morrie visited with Mitch in his study every Tuesday, just as they used to back in college. Their rekindled relationship turned into one final “class”: lessons in how to live. “The truth is, Mitch,” he said, “once you learn how to die, you learn how to live.” Tuesdays with Morrie is a magical chronicle of their time together, through which Mitch shares Morrie's lasting gift with the world.

There are many ways to show our devotion to an author besides reading his or her works. Graves make for popular pilgrimage sites, but far more popular are writers' house museums. What is it we hope to accomplish by trekking to the home of a dead author? We may go in search of the point of inspiration, eager to stand on the very spot where our favorite literary characters first came to life—and find ourselves instead in the house where the author himself was conceived, or where she drew her last breath. Perhaps it is a place through which our writer passed only briefly, or maybe it really was a longtime home—now thoroughly remade as a decorator's show-house. In A Skeptic's

Guide to Writers' Houses Anne Trubek takes a vexed, often funny, and always thoughtful tour of a goodly number of house museums across the nation. In Key West she visits the shamelessly ersatz shrine to a hard-living Ernest Hemingway, while meditating on his lost Cuban farm and the sterile Idaho house in which he committed suicide. In Hannibal, Missouri, she walks the fuzzy line between fact and fiction, as she visits the home of the young Samuel Clemens—and the purported haunts of Tom Sawyer, Becky Thatcher, and Injun' Joe. She hits literary pay-dirt in Concord, Massachusetts, the nineteenth-century mecca that gave home to Hawthorne, Emerson, and Thoreau—and

yet could not accommodate a surprisingly complex Louisa May Alcott. She takes us along the trail of residences that Edgar Allan Poe left behind in the wake of his many failures and to the burned-out shell of a California house with which Jack London staked his claim on posterity. In Dayton, Ohio, a charismatic guide brings Paul Laurence Dunbar to compelling life for those few visitors willing to listen; in Cleveland, Trubek finds a moving remembrance of Charles Chesnutt in a house that no longer stands. Why is it that we visit writers' houses? Although admittedly skeptical about the stories these buildings tell us about their former

inhabitants, Anne Trubek carries us along as she falls at least a little bit in love with each stop on her itinerary and finds in each some truth about literature, history, and contemporary America.
