Diccionario de escritores mexicanos : siglo XX : desde las generaciones del Ateneo y novelistas de la Revolución hasta nuestros días Univ of California Press

This book contains 55 letters written by Octavio Paz to the Spanish poet Tomas Segovia, author of Anagorisis. A splendid testimony to friendship, literary vocation, love, concern for Mexico and a ceaseless questioning of what it means to be Mexican and Latin American, these collected letters constitute a veritable panoply of ideas and life. Mexican Nobel laureate Paz corresponded regularly with Segovia for over 10 years before the two great literary figures met in person. Their correspondence opens a revealing window on Paz, his thoughts and motivations, and the gestation of some of his works, including Piedra de Sol, Cuadrivio and Blanco. Many of the letters are in fact essays on topics as diverse as Mexicanness and Spanishness, eroticism, India, underdevelopment, surrealism, the deep significance of poetry, and the need Paz felt for a Latin American literary journal that led him to found Plural and Vuelta.

When Octavio Paz died, Mexico lost a tribe of writers. He was a surrealist disciple of Andre Breton, an admiring imitator of Alexander Pope; now a radical experimentalist, now an autobiographer and confessional writer. European by inclination, he brought unanticipated tonalities into Spanish.

Compares a range of Mexican food policy reforms, focusing on the SAM (Mexican Food System), a program in place from 1980-82, designed to shift subsidies and privileged access from large private farmers and ranchers to peasants and small producers. In this context, Fox (political science, MIT) examines the limits and possibilities of political reform, and its history and future in the Mexican state. Written Reaction--poetics, Politics, Polemics Fernand Hazan

Blending cultural studies, literary analysis, and political history, this book shows how Elena Garro's life and work expose the impasses inherent to the concept of Mexican modernity. This study explores her critique of Mexican modernity and its apologists, as well as her critique on the nation's crisis of globalization, state power, and violence.

In ¡México, la patria! Monica A. Rankin examines the pervasive domestic and foreign propaganda strategies in Mexico during World War II and their impact on Mexican culture, charting the evolution of these campaigns through popular culture, advertisements, art, and government publications throughout the war and beyond. In particular, Rankin shows how World War II allowed the wartime government of Ávila Camacho to justify an aggressive industrialization program following the Mexican Revolution. Finally, tracing how the American government's wartime propaganda laid the basis for a long-term effort.

This book examines an important type of Spanish-American essay--one that deals with the problems of a developing civilization--and places its focus on the history of ideas rather than on literature per se, pointing up the hemispheric pattern of intellectual development in most of the major Spanish-American countries and revealing a general pattern in cultural development. Originally published in 1967. A UNC Press Enduring Edition -- UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print.
