Alexander Gordon's life changed forever April 30, 2015, when investigators with the IRS Criminal Investigation Division and Tax Inspector General Tax Administration barged into his home waving guns. For someone who had received performance awards every year, it was a shocking turn of events. He discovered he'd been indicted in the Eastern District Brooklyn, New York, U.S. Court, on charges of filing false tax returns, identity theft, and perjury. In this eye-opening account of the egregious practices the IRS commits on a daily basis, the author reveals how the agency hurts law-abiding citizens. Just as important, he explains how individuals can protect themselves from unfair collection policies. The book also provides a shocking account of the racism within the agency and how it hurts hardworking people. Join the author as he shares a personal story of being abused by the IRS and why every taxpayer needs to be wary of the agency.

Recoup lost time and revenue with denials management and appeals know-how. Claim denials can sink a profit margin. And given the cost of appeals, roughly \$118 per claim, not all denials can be

reworked. A practice submitting 50 claims a day at an average reimbursement rate of \$200 per claim should bring in \$10,000 in daily revenue. But if 10% of those claims are denied, and the practice can only appeal one, they lose \$800 per day—upwards of \$200K annually. Your medical claims are the lifeblood of operations. Don't compromise your financial health. Learn how to preempt denials with the Denials Management & Appeals Reference Guide. This vital resource will equip you to get ahead of payers by simplifying the leading causes of denials and showing you how to address insufficient documentation, failing to establish medical necessity, coding and billing errors, coverage stipulations, and untimely filing. Rely on AAPC to walk you through the appeal process. We'll help you establish protocols to avoid an appeals backlog and teach you how to identify and prioritize denials likely to win an appeal. What's more, you'll learn when a claim can be "reopened" to fix a problem. Collect the revenue your practice deserves with effective denials and appeals solutions: Know how to analyze your denials Defeat documentation and compliance issues for successful claims success Utilize payer policy for coverage clues Lock in revenue with face-to-face reimbursement guidance Refine efforts to avoid E/M claim denials Ace ICD-10 coding for optimum reimbursement Put an end to modifier confusion Stave off denials with CCI edits advice Navigate the appeals process like a pro And much more!
