This text is the first-and only-modern text to follow the New York Edition, the one which had James's final authority. Reeds Eastern Almanac 2020 Timber Press The Reeds Western

Almanac covers the coastline from Cape Wrath to Padstow as well as the whole of Ireland, and is ideal for any boater lucky enough to cruise and race in the superb waters

off the coast of Western Scotland, Ireland or Western England. It offers ready access to essential navigation information by virtue of its clear layout and user friendly format. Completely updated for 2020, topics include seamanship, pilotage, tide tables, safety procedures, navigation tips, radio, lights, waypoints, weather forecast information, communicatio

ns, Mayday and distress procedures. The spiral binding allows the Almanac to be opened flat on the chart table and the large type size and clear layout makes information easy to read even in adverse conditions. It is the complete guide for both Irish and Scottish mariners as well as those cruising the UK west coast. Includes a free Reeds Marina Guide. Also available: free supplements

of up-to-date navigation changes from January to June at: [www.reedsnauticalalmanac.co.uk](http://www.reedsnauticalalmanac.co.uk) 'There are some things I would not go to sea without - Reeds is one of them.' Sir Chay Blyth

It contains all

the information the ocean-going sailor needs (without the bulk) in order to navigate by the sun, moon, stars and planets, using tables devised by practical ocean navigators. This book, together with a sextant, will enable sailors to navigate confidently and safely when out of the sight of land. The book continues to feature the well-received additions of the past few years,

including forms to help determine True Altitude (for the sun, stars and planets), Calculated Altitude (using the versine formula) and Azimuth (using the ABC Tables), as well as a pro forma for calculating Intercept. With 8 extra pages and an improved layout, there is plenty of space for making notes and calculations. *Reed's Nautical Almanac and Tide Tables* Reeds

It's easy to confuse (or forget) what particular lights, marks and shapes mean - especially under stress or in the dark - but with this handy book, help is quickly at hand. Laid out simply & clearly for quick accessibility, it enables crew,

navigators, skippers and even casual day guests aboard to quickly identify the lights, marks and shapes being displayed by other ships at night as well as during the day. A ready reckoner reminder of: - Cardinal buoys and channel markers - Lights displayed by ships at night (tugs, dredgers, pilot vessels, stationary vessels, fishing boats, yachts, motorboats)

and from all aspects (front, side, astern) - Daytime shapes displayed by boats (e.g. for anchoring, towing, diving, dredging) - Ships' sound signals (used in fog) - Signal flags and their navigational meanings (I am dragging my anchor; You are running into danger; I have a diver down). These lights, shapes and marks are applicable worldwide, by maritime law, which makes this international handbook a

valuable and popular addition to the Reeds Handbook series.
