Heroes for Wargames Sterling Publishing Company, Inc.

Great new novel from Aaron Dembski-Bowden chronicling the story of the Emperor's Spears, a Space Marine Chapter on the edge of destruction, last watchmen over the Elara's Veil nebula. Now, the decisions of one man, Amadeus Kaias Incarius of the Mentor Legion, will determine the Chapter's fate... The scattered worlds of the Elara's Veil nebula were once protected by the oath of unity sworn by three mighty Chapters of the Adeptus Astartes. The Star Scorpions were undone by flaws in their genetic coding. The Celestial Lions were ravaged by the Inquisition for sins they did not commit. Now, after hundreds of years, only the Emperor's Spears still keep their vigil. They are barbarian watchmen against the Outer Dark; bloodied but unbroken in their long duty.

Amadeus Kaias Incarius, a brother of the Mentor Legion, is commanded to cross the Great Rift and assess the Spears' war-readiness, only to be drawn into the chaotic plight of a depleted crusade on the Imperium's benighted frontier. The decisions he makes, far from the God-Emperor's light, will decide the fate of the war-torn Chapter.

Let's Paint a Rainbow Houghton Mifflin Harcourt

Unlike many other art books only give recipes for mixing colors or describe step-by-step painting techniques, **Color and Light** answers the questions that realist painters continually ask, such as: "What happens with sky colors at sunset?", "How do colors change with distance?", and "What makes a form look three-dimensional?" Author James Gurney draws on his experience as a plain-air painter and science illustrator to share a wealth of information about the realist painter's most fundamental tools: color and light. He bridges the gap between abstract theory and practical knowledge for traditional and digital artists of all levels of experience.

Formed in the aftermath of the Horus Heresy, the Flesh Tearers, veterans of the Blood Angels Legion now cast adrift, gather behind their leader, Chapter Master Amit, and set out to forge their own destiny. None of the scions of Sanguinius are as bloody or wrathful as the Flesh Tearers. The fury of this Chapter, scorned by the Blood Angels and many of their successors, is legendary. Within them, the Black Rage is made manifest, a curse on the Imperium and its enemies. In the uncertain years following the end of the Great Heresy, it fell to Amit to lead this benighted Chapter. Upon his shoulders lay a heavy burden, for to prevent their own self-annihilation, the Flesh Tearers must not only fight their many foes but their very nature itself.

This is a complete "Intro to Airbrushing" course in a workbook form. A classroom in a book! There is only so much an airbrush can do - dots, lines, daggers, and shading. We introduce each skill in a logical and exciting way. In our book, each skill is cumulative, so grasping each technique is easier than tackling them out of order as you would if you were self taught and left to sift through a cluster of internet information that is not necessarily correct. Our method is successful, because we have taken the entire contents of an Intro to Airbrushing class, and made it into a workbook... yes a WORKBOOK! The skills are introduced in an interesting way, and each lesson has a corresponding workbook page that can be practiced over and over until you are proficient at each skill! There has never been anything like this before! With over 50 lessons, you will master each skill and work up to the four beautiful and challenging final projects. We cover all the basics that you need to know to get set up in airbrushing: types of airbrushes, compressors, paint, substrates, etc....even how to properly hold an airbrush and how to clean it. We are so thorough and innovative, we have earned the endorsement of Anest Iwata-Medea, Inc. AND Grex Airbrushes. A course like this costs hundreds of dollars just for tuition if you were to attend a workshop. With travel and lodging,

you can spend thousands of dollars for just ONE course. With this book, you get the same content but are free to take it at your own pace. This is an excellent way to introduce airbrushing into your skill set and develop a life-long passion and income source.

The Imperium fights a constant battle to defend itself from its many enemies, but few are as deadly or as relentless as the Chaos Space Marines. Moose Mischief Simon and Schuster

The artist known as "El Mercenario" "shares the secrets of his

success in this useful guide to painting miniature figures"—includes photos (Stuart Asquith, author and editor of Practical Wargamer). In this accessible "how-to" guide, Javier Gomez, a highly talented figure painter of long experience and excellent reputation, takes the reader step-by-step through the whole process, from choice of materials (unlike other available guides it is not linked to any specific figure manufacturer) and preparation of the miniatures to basing and even advice on photographing the finished item. Techniques such as dry-brushing, ink-washing, shading and highlighting are all explained clearly with the help of step-by-step photographs and color charts. Specific case studies tackle a variety of useful subjects across all periods, such as mixing realistic flesh tones for different races; painting horses; guns and limbers; Medieval heraldry; Napoleonic uniforms; WW2 and modern camouflage patterns. Javier also clearly explains how these techniques and processes can be applied to all the major wargaming scales, from 40mm down to 6mm. Whatever historical period (or Sci-fi/Fantasy) and whatever scale the reader is interested in, this book is an invaluable source of practical advice and inspiration. "Very soon after we started up Perry Miniatures we managed to acquire Javier's outstanding painting services for our figure collections. He is a true genius with a brush, with a great sense of color that turns figures into masterpieces. His military and uniform knowledge adds a great deal to his ability to produce little painted gems."—Michael and Alan Perry, Perry Miniatures "I have used some of the suggestions here as well as the highlights for some of my own figures and they have produced improved results."—Mataka.org
