Brooklyn "A stunner—equal parts epic and intimate, thrilling and elegiac."—Laura Van den Berg, author of *The Third Hotel* The mesmerizing story of a Latin American science fiction writer and the lives her lost manuscript unites decades later in post-Katrina New Orleans In 1929 in New Orleans, a Dominican immigrant named Adana Moreau writes a science fiction novel. The novel earns rave reviews, and Adana begins a sequel. Then she falls gravely ill. Just before she dies, she destroys the only copy of the manuscript. Decades later in Chicago, Saul Drower is cleaning out his dead grandfather's home when he discovers a mysterious manuscript written by none other than Adana Moreau. With the help of his friend Javier, Saul tracks down an address for Adana's son in New Orleans, but as Hurricane Katrina strikes they must head to the storm-ravaged city for answers. What results is a brilliantly layered masterpiece—an ode to home, storytelling and the possibility of parallel worlds.

Inside Out U of Nebraska Press

The debut book from Mexico's best chef, Enrique Olvera of Pujol, pioneer of contemporary, authentic Mexican food and global gourmet influencer. As featured on Good Morning America. Enrique Olvera is the most famous and celebrated Mexican chef working today. Olvera's restaurant Pujol was ranked #1 in Mexico and #20 in the world at the World's 50 Best Restaurant Awards. This is his first book and the first ever high-end chef cookbook in English on Mexican cuisine. It captures and presents a new contemporary Mexican style of food, rooted in tradition but forward thinking in its modern approach. Olvera has pioneered and defined this new way of cooking and belongs to a global group of gourmet influencers that includes Noma's René Redzepi, Dom's Alex Attala, Osteria Francescana's Massimo Bottura and elBulli's legendary Ferran Adrià. Olvera rethinks how to use traditional, authentic local ingredients using unusual flavor combinations to create a reinvented way of cooking and eating. Mexico from the Inside Out includes both sophisticated and more accessible recipes to explain Enrique's philosophy, vision, and process. He is fueled by a constant exploration of Mexico's ingredients and culinary history, and inspired by his early family

memories about food. This book goes beyond stereotypes to reveal new possibilities of Mexican cuisine, which is now an essential part of the international conversation about gastronomy. Features: -Over 65 recipes, each with an elegant photograph, from the sophisticated dishes served at Pujol to more accessible casual dishes that he enjoys with his family at home. -More than 100 atmospheric photographs capture the vivid mosaic of the Mexican landscape while tip-in pages bring the reader up close to Enrique's vision and philosophy about food. Mexico from the Inside Out is the latest addition to Phaidon's bestselling and influential collection of cookbooks by the world's most exciting chefs.

In this inspirational yet practical book, the man Parade called "the most important coach in America," subject of the national bestseller *Season of Life*, Joe Ehrmann, describes his coaching philosophy and explains how sports can transform lives at every level of play, from the earliest years to professional sports. Coaches have a tremendous platform, says Joe Ehrmann, a former Syracuse University All-American and NFL star. Perhaps second only to parents, coaches can impact young people as no one else can. But most coaches fail to do the teaching, mentoring, even life-saving intervention that their platform provides. Too many are transactional coaches; they focus solely on winning and meeting their personal needs. Some coaches, however, use their platform. They teach the Xs and Os, but also teach the Ys of life. They help young people grow into responsible adults; they leave a lasting legacy. These are the transformational coaches. These coaches change lives, and they also change society by helping to develop healthy men and women. InSideOut Coaching explains how to become a transformational coach. Coaches first have to "go inside" and articulate their reasons for coaching. Only those who have taken the InSideOut journey can become transformational. Joe Ehrmann provides examples of coaches in his life who took this journey and taught him how to find something bigger than himself in sports. He describes his own InSideOut experience, starting with the death of his beloved brother, which helped him understand how sports could transcend the playing field. He gives coaches the information and the tools they need to become transformational. Joe Ehrmann has taken his message about the extraordinary power of sports all over the country. It has been warmly endorsed by NFL head coaches, athletic directors at major

universities, high school head coaches, even business groups and community organizations. Now any parent-coach or school or community coach can read Ehrmann's message and learn how to make sports a life-changing experience.

A design-thinking book for planting or redesigning churches and incubating a new generation of leaders. Written by Linda Bergquist and Allan Karr, two experienced church planters and mentors, the book is full of wisdom, practical advice, and creative counsel. Instead of a business-model-as-usual approach, the authors challenge readers to begin with the raw materials of beliefs, values, individuals, teams, and culture, and to then move outwards to draw from a rich palette of real and potential church paradigms. This book is meant to provoke church leaders to think outside of the box and to imagine how their churches might better reflect the image and the mission of God in the world. Contains a wealth of illustrative examples, charts, and other visual aides Offers a creative practical perspective and a multi-disciplinary approach to establishing a new church or leading an existing one Shows how to honor a church's purpose while embracing its unique culture Includes important lessons for nurturing church leadership skills

This historical exploration of the Green Book offers "a fascinating [and] sweeping story of black travel within Jim Crow America across four decades" (*The New York Times Book Review*). Published from 1936 to 1966, the Green Book was hailed as the "black travel guide to America." At that time, it was very dangerous and difficult for African-Americans to travel because they couldn't eat, sleep, or buy gas at most white-owned businesses. The Green Book listed hotels, restaurants, gas stations, and other businesses that were safe for black travelers. It was a resourceful and innovative solution to a horrific problem. It took courage to be listed in the Green Book, and *Overground Railroad* celebrates the stories of those who put their names in the book and stood up against segregation. Author Candacy A. Taylor shows the history of the Green Book, how we arrived at our present historical moment, and how far we still have to go when it comes to race relations in America. A New York Times Notable

This book offers a comprehensive, multidisciplinary introduction to theme parks and the field of theme park studies. It identifies and discusses relevant economic, social, and cultural as well as medial, historical, and geographical aspects of theme parks worldwide, from the big international theme park chains to smaller, regional, family-operated parks. The book also describes the theories and methods that have been used to study theme parks in various academic disciplines and reviews the major contexts in which theme parks have been studied. By providing the necessary backgrounds, theories, and methods to analyze and understand theme parks both as a business field and as a socio-cultural phenomenon, this book will be a great resource to students, academics from all disciplines interested in theme parks, and professionals and policy-makers in the leisure and entertainment as well as the urban planning sector.

In Draining New Orleans, the first full-length book devoted to "the world's toughest drainage problem," renowned geographer Richard Campanella recounts the epic challenges and ingenious efforts to dewater the Crescent City. With forays into geography,

public health, engineering, architecture, politics, sociology, race relations, and disaster response, he chronicles the herculean attempts to "reclaim" the city's swamps and marshes and install subsurface drainage for massive urban expansion. The study begins with a vivid description of a festive event on Mardi Gras weekend 1915, which attracted an entourage of elite New Orleanians to the edge of Bayou Barataria to witness the christening of giant water pumps. President Woodrow Wilson, connected via phonenumber from the White House, planned to activate the station with the push of a button, effectively draining the West Bank of New Orleans. What transpired in the years and decades that followed can only be understood by examining the large swath of history dating back two centuries earlier—to the geological formation and indigenous occupation of this delta—and extending through the colonial, antebellum, postbellum, and Progressive eras to modern times. The consequences of dewatering New Orleans proved both triumphant and tragic. The city's engineering prowess transformed it into a world leader in drainage technology, yet the municipality also fell victim to its own success. Rather than a story about mud and machinery, this is a history of people, power, and the making of place. Campanella emphasizes the role of determined and sometimes unsavory individuals who spearheaded projects to separate water from dirt, creating lucrative opportunities in the process not only for the community but also for themselves.

The thematic project 'New Orleans in the Atlantic World' was planned immediately after hurricane Katrina and focuses on what meteorologists have always known: the city's identity and destiny belong to the broader Caribbean and Atlantic worlds as perhaps no other American city does. Balanced precariously between land and sea, the city's geohistory has always interwoven diverse cultures, languages, peoples, and economies. Only with the rise of the new Atlantic Studies matrix, however, have scholars been able to fully appreciate this complex history from a multi-disciplinary, multilingual and multi-scaled perspectivism. In this book, historians, geographers, anthropologists, and cultural studies scholars bring to light the atlanticist vocation of New Orleans, and in doing so they also help to define the new field of Atlantic Studies. This book was published as a special issue of Atlantic Studies.
