The Federal Trade Commission receives more complaints about rogue debt collecting than about any activity besides identity theft. Dramatically and entertainingly, *Bad Paper* reveals why. It tells the story of Aaron Siegel, a former banking executive, and Brandon Wilson, a former armed robber, who become partners and go in quest of "paper"—the uncollected debts that are sold off by banks for pennies on the dollar. As Aaron and Brandon learn, the world of consumer debt collection is an unregulated shadowland where operators often make unwarranted threats and even collect debts that are not theirs. Introducing an unforgettable cast of strivers and rogues, Jake Halpern chronicles their lives as they manage high-pressure call centers, hunt for paper in Las Vegas casinos, and meet in parked cars to sell the social security numbers and account information of unsuspecting consumers. He also tracks a "package" of debt that is stolen by unscrupulous collectors, leading to a dramatic showdown with guns in a Buffalo corner store. Along the way, he reveals the human cost of a system that compounds the troubles of hardworking Americans and permits banks to ignore their former customers. The result is a vital exposé that is also a bravura feat of storytelling.

A beautiful commemorative edition of Dr. Martin Luther King's essay "Letter from Birmingham Jail," part of Dr. King's archives published exclusively by HarperCollins. With an afterword by Reginald Dwayne Betts On April 16, 1923, Dr. Martin Luther King Jr., responded to an open letter written and published by eight white clergymen admonishing the civil rights demonstrations happening in Birmingham, Alabama. Dr. King drafted his seminal response on scraps of paper smuggled into jail. King criticizes his detractors for caring more about order than justice, defends nonviolent protests, and argues for the moral responsibility to

obey just laws while disobeying unjust ones. "Letter from Birmingham Jail" proclaims a message - confronting any injustice is an acceptable and righteous reason for civil disobedience. This beautifully designed edition presents Dr. King's speech in its entirety, paying tribute to this extraordinary leader and his immeasurable contribution, and inspiring a new generation of activists dedicated to carrying on the fight for justice and equality.

You can use these letters as they are, modify them to suit your needs or your business or just use one sentence from a letter. Each letter should be on your company letterhead and include your company name, address, phone and fax, web address, email and any other contact information. The letters that get the best results are not "form" letters. If a letter looks like a form letter it loses some of its punch. The most effective letters are short, to the point and easy to read. Try to avoid long or confusing words and sentences. The more direct, the fewer misunderstandings. Have someone read your letter and see if they totally understand it. If they do, then chances are your debtor will, too. Your letter is a reflection of your business; keep it professional. Remember that your letter is to persuade someone to send you money. Your

wording and tone are critical, especially if this is a customer you want to continue to do business with. Always assume the debtor will pay. Enclosing an envelope for payment is always a good idea. You can also include an envelope with postage. The easier you make it for the debtor to make payment, the better your chances are of receiving that payment. Collection letters should do two things: retain customer good will and help you get paid. You know a letter works well when you do a mailing and your phone rings off the hook when everyone receives their letters. If you send out a letter and there is no response, you need to re-work your letter.

As more and more people find it impossible to pay off debts and companies employ debt collectors, the incidences of unfair practices are rising, as many people simply do not know their rights when faced with bullying and intimidating agents whose only remit is to recover money. In many cases, threats are issued and the person on the receiving end doesn't know how to stand up to these tactics and assert their rights. This book spells out those rights in a very clear manner.

Its the stranger that is sent off with scant consideration. When a man dodges payment, he dodges creditors. Neighbors are easiest remembered - close-at-home debts are first paid. Get close to your man. Keep your debtor in sight. In your letter, "talk it over" with him personally. Most accounts are lost because the debtor feels sheltered by the mass because your letter comes as one of hundreds put out to delinquents you follow in droves. Make the man who owes you
