The growing concern over the number of accidental firearm shootings, especially those involving children, prompted passage of the initial handgun safety law which went into effect in 1994. The stated intent of the California Legislature in enacting the current FSC law is for persons who obtain firearms to have a basic familiarity with those firearms, including, but not limited to, the safe handling and storage of those firearms. The statutory authority for this program is contained in Penal Code sections 26840 and 31610 through 31700. These statutes mandate DOJ to develop, implement and maintain the FSC Program. Pursuant to Penal Code section 26840, a firearms dealer cannot deliver a firearm unless the person receiving the firearm presents a valid FSC, which is obtained by passing a written test on firearm safety. Prior to taking delivery of a firearm from a licensed firearms dealer, the purchaser/recipient must also successfully perform a safe handling demonstration with that firearm..

Community development -- the economic, physical, and social revitalization of a community, led by the people who live in that community -- offers a wide range of exciting and rewarding employment options. But until now, there has been no "road map" for professionals, volunteers, students, or anyone wishing to become involved in the field. A Guide to Careers in Community Development describes the many different kinds of community development jobs available, ranging from community organizing, to financing housing and new businesses, to redeveloping brownfields. It offers advice on how to break into the field along with guidance for career advancement and lateral movement. Following an introductory chapter that offers an overview and definition of community development and its history, the authors describe: different institutions in the field and how they fit together pros and cons of community development careers, with a self-assessment quiz for readers to use in analyzing their suitability for the field the work and skills involved in different kinds of positions how to prepare for and move up in a career how to land that first job Also included are detailed appendixes that provide information on job descriptions with salary ranges; universities and colleges offering community development curricula; training programs; where to look for job announcements; internet resources; internships, fellowships, and volunteer positions; and much more. A Guide to Careers in Community Development is an essential reference for anyone interested in working in the community development field, including graduate and undergraduate students, volunteers, and mid-career professionals seeking a more fulfilling line of work.

While many banks and microfinance institutions provide valuable services to the poor in the developing world, they are most successful in economically dynamic urban or peri-urban areas. 30 years since the start of the microfinance revolution, poor people who live in many rural areas and urban slums still find it difficult to access appropriate microfinance products, even in countries with a well developed microfinance sector. Village Savings and Loan Associations based in the community are complementary to MFIs tending to serve the very poor whose income is less reliable, but

also offering useful services to the economically secure. This manual provides a concise guide to how to set up and run a village savings and loan association and is based on over 15 years of research and development experience.

The classic book on problem-oriented policing (POP), is now back in print. Written by Professor Herman Goldstein, one of the most highly regarded scholars in the field of policing who originated the POP concept, this monograph presents a new model for developing police services that corrects for the inadequacies and conflicts inherent in the traditional model. While originally published in 1990, the concept is even more relevant today as a response to meeting current concerns regarding the complex role of the police in a society that seeks to increase police effectiveness while placing the highest value on operating in accord with democratic principles. It calls for reorienting police agencies so that they place highest emphasis on: (1) analyzing each of the specific behavioral problems that the public expects them to handle; (2) developing new, creative, tailor-made responses to each such problem, giving top priority to preventive measures and trying to avoid over dependence on the criminal justice system, and engaging the community more fully; (3) realigning their organization, leadership, recruitment and training to support this orientation.
