 This authoritative history of the 20th Century Limited from 1902 to its 1967 demise examines the train; its steam, electric, and diesel motive power; and its swank passenger cars, services, and amenities. The Century was a train of magnates and movie stars, with a red carpet rolled out for departure from Chicago to New York City. With the finest of food in the diner and a full array of amenities - barber, secretary, shower, maid - the 20th Century Limited set the standards against which all other passenger trains would be measured. This book tells the complete story of this extraordinary train, from its illustrious beginning in the days of opulent wooden cars through its demise in the era of passenger-train cutbacks that lead to the formation of Amtrak.

Pantone: The Twentieth Century in Color Herbert Press
 This three-volume encyclopedia on the history of American food and beverages serves as an ideal companion resource for social studies and American history courses, covering topics ranging from early American Indian foods to mandatory nutrition information at fast food restaurants. The expression "you are what you eat" certainly applies to Americans, not just in terms of our physical health, but also in the myriad ways that our taste preferences, eating habits, and food culture are intrinsically tied to our society and history. This standout reference work

comprises two volumes containing more than 600 alphabetically arranged historical entries on American foods and beverages, as well as dozens of historical recipes for traditional American foods; and a third volume of more than 120 primary source documents. Never before has there been a reference work that coalesces this diverse range of information into a single set. The entries in this set provide information that will transform any American history research project into an engaging learning experience. Examples include explanations of how tuna fish became a staple food product for Americans, how the canning industry emerged from the Civil War, the difference between Americans and people of other countries in terms of what percentage of their income is spent on food and beverages, and how taxation on beverages like tea, rum, and whisky set off important political rebellions in U.S. history.

AUTHOR BIO: Joanne Jasper, an antique lover and Homer Laughlin fan for years, visited the Homer Laughlin plant in Newell, West Virginia with her daughter and decided to make her idea for a collector's reference a reality. She spent countless hours researching, interviewing, and taking photographs. Her book has become a bestseller. **REVIEW:** Planet Patchwork Quilting Bookbriefs says this book "contains a well-done primer in foundation techniques, and dozens of creative border designs, both traditional and contemporary. Food and Drink in American History [3 volumes] Artisan Books

This is the ultimate style guide to 20th century dining and social history in the West, as reflected in popular recipes and types of foods, what people used in the way of cutlery, tableware, and table settings, and trends relating to styles of dining (picnics, smorgasbords, etc.). The book is divided into decades - each decade is represented by a separate chapter. The text describes particular political and social events of each decade that influenced the food and dining styles popular in that period. These cover glassware, cutlery, crockery, and to some extent furniture and textiles. There is information about which companies and designers were in vogue, and interesting magazine and newspaper advertisements from the time also feature. The result is a book which works on two levels - firstly as a glossy historical overview of the time, and secondly as a reference book to design icons of the period. It provides a fascinating and unique angle on social history, combined with a slice of 'retro' nostalgia, and will be an inspirational and informative guide for social historians, students and collectors. International in scope, this book will be a visual delight for anyone interested in western design in general.
