Songs of Love, Poems of Sadness Simon and Schuster

Machig Labdron is popularly considered to be both a dakini and a deity, an emanation of Yum Chenmo, or Prajnaparamita, the embodiment of the wisdom of the buddhas. Historically, this Tibetan woman, a contemporary of Milarepa, was an adept and outstanding teacher, a mother, and a founder of a unique transmission lineage known as the Chöd of Mahamudra. This translation of the most famous biography of Machig Labdron, founder of the unique Mahamudra Chöd tradition, is presented together with a comprehensive overview of Chöd's historical and doctrinal origins in Indian Buddhism and its subsequent transmission to Tibet. Chöd refers to cutting through the grasping at a self and its attendant emotional afflictions. Most famous for its teaching on transforming the aggregates into an offering of food for demons as a compassionate act of self-sacrifice, Chöd aims to free the mind from all fear and to arouse realization of its true nature, primordially clear bliss and emptiness.

Gaban, first published in 1931, five years before Premchand's death, gives us a fascinating glimpse of north Indian society, and especially of the author's own Kayasth community. But this novel also serves to put forth his own deeply-held views of the ills of that society - the insatiable love of its women for personal adornment, its failure to create fulfilling marriage relationships, and its moral corruption. This is a felicitous translation by Christopher R. King and will enable many readers to appreciate Premchand's important novel, available for the first time in English

Since its initial publication, Dharma Paths has quietly gained a reputation as one of the most useful introductory texts on Tibetan Buddhism. Assuming no prior background or knowledge of Buddhist terminology, Khenpo Karthar Rinpoche presents Buddhist ways of working with anxiety and frustration, the nature and development of love and compassion, and the profound methods of the vajrayana. The Four Noble Truths, taking refuge, and the Stages of the Path are concisely explained, and clear instructions for shamatha ("calm abiding") meditation are provided. Question-and-answer sections follow each chapter, anticipating common problems and addressing them in a direct, accessible style.

This volume illustrates how language revival movements in Russia and elsewhere have often followed a specific pattern of literacy bias in the promotion of a minority's heritage language, partly neglecting the social and relational aspects of orality. Using the Vepsian Renaissance as an example, this volume brings to the surface a literacy-orality dualism new to the discussion around revival movements. In addition to the more-theoretically oriented scopes, this book addresses all the actors involved in revival movements including activists, scholars and policy-makers, and opens a discussion on literacy and orality, and power and agency in the multiple relational aspects of written and oral practices. This study addresses issues common to language revival movements worldwide and will appeal to researchers of linguistic anthropology, sociolinguistics, education and language policy, and culture studies.

Vajrayogini is a tantric goddess from the highest class of Buddhist tantras who manifests the ultimate development of wisdom and compassion. Her practice is prevalent today among practitioners of Tibetan Buddhism. This ground-breaking book delves into the origins of Vajrayogini, charting her evolution in India and examining her roots in the Cakrasamvara tantra and in Indian tradition relating to siva. The focus of this work is the Guhyasamayasadhanamala, a collection of forty-six sadhanas, or practice texts. Written on palm leaves in Sanskrit and preserved since the twelfth century, this diverse collection, composed by various authors, reveals a multitude of forms of the goddess, each of which is described and illustrated here. One of the sadhanas, the Vajravahni Sadhana by Umapatideva, depicts Vajrayogini at the center of a mandala of thirty-seven different goddesses, and is here presented in full translation alongside a Sanskrit edition. Elizabeth English provides extensive explanation and annotation of this representative text. Sixteen pages of stunning color plates not only enhance the study but bring the goddess to life.

A practical guide for invoking the power and blessings of Tara, the beloved female buddha of Tibet Known as "the female Buddha" in Tibet and India, Tara connects us to the archetypal Divine Feminine—an energetic force that exists within us and all around us, and has been available to all humans since our earliest origin. While there are many books on Tara, this practical guide shows us how those of any tradition can directly access her, through clear instruction and authentic Tibetan Buddhist teachings. Jungian analyst, scholar, and spiritual practitioner Dr. Rachael Wooten combines the ancient Tara tradition with depth psychology to help us connect with each of Tara's manifestations and access her blessings within ourselves and in the external world. In her myriad forms, Tara has the power to protect us from inner and outer negativity, illuminate our self-sabotaging habits, cleanse mental and physical poisons, address emotional trauma, open us to abundance, give us strength and peace, help us fulfill our life purposes, and more. Here, you will explore all 22 manifestations of Tara. Each chapter begins with an epigraph that captures the spiritual and psychological essence of the emanation, explains her purpose, and teaches you specific visualizations, praises, mantra chants, and other ways of invoking her presence in yourself and the world. "If ever the voice of wisdom and compassion was needed in the form of an awakened female figure such as Tara," writes Dr. Wooten, "that time is now." This book illuminates the way to her healing, blessings, and aid.

The Epic of Gesar of Ling OUP India

An English-Tibetan dictionary of modern Tibetan compiled by Melvyn Goldstein with Ngawang Dhondup Narkyid.

[King of the Empty Plain](#) Routledge

This book explores the cultural history of embryology in Tibet, in culture, religion, art and literature, and what this reveals about its medicine and religion. Filling a significant gap in the literature this is the first in-depth exploration of Tibetan medical history in the English language. It reveals the prevalence of descriptions of the development of the human body – from conception to birth – found in all forms of Tibetan religious literature, as well as in medical texts and in art. By analysing stories of embryology, Frances Garrett explores questions of cultural transmission and adaptation: How did Tibetan writers adapt ideas inherited from India and China for their own purposes? What original views did they develop on the body, on gender, on creation, and on life itself? The transformations of embryological narratives over several centuries illuminate key turning points in Tibetan medical history, and its relationship with religious doctrine and practice. Embryology was a site for both religious and medical theorists to contemplate profound questions of being and becoming, where topics such as pharmacology and nosology were left to shape secular medicine. The author argues that, in terms of religion, stories of human development comment on embodiment, gender, socio-political hierarchy, religious ontology, and spiritual progress. Through the lens of embryology, this book examines how these concerns shift as Tibetan history moves through the formative 'renaissance' period of the twelfth through to the seventeenth centuries.
