Stolen Stripes and Broken Medals is a true account of the life of a Pakistani naval officer who despite reaching the star ranks and with impeccable record of service had to prematurely say good bye to his long military career. In fact those achievements created enemies who ultimately staged the fatal conspiracy when he was at the pinnacle of his career and was just about to get his second star. The title of this book reflects as to how his hard earned stripes were stolen and his medals broken by no one other than the top brass of the Navy since he had refused to tell a lie to safeguard their personal interests. This book tells the story of his long naval career which was full of adventures, challenges, and achievements and of course the due recognition which he had earned through sheer hard work and dedication to the service. This is an eye opening account for those who want to see as to what happens to those who are upright and honest but without any backing in a country like Pakistan. It also reflects on what happens behind the close doors of the top leadership in the Armed Forces, who are trusted with nations sacred duty. It is for the first time that someone has taken such a bold step to touch the untouchable, apprising his nation and those in the helm of affairs, expecting some positive outcome.

Effective Letter Writing & Business Correspondence

Indian English, or rather, the forms of English used in India, have long been a topic of interest for laymen and scholars. For generations, the 'exotic' nature of the transplanted language was commented on, often ridiculed as a matter of unintentional comic. It was only from the 1960s onwards that the local forms of English were recognized for what they are — adaptations of the world language to local needs, and varying to an enormous degree, depending on the speakers' (and writers') education and the uses they make of the language. This acknowledgement came mainly from abroad (and still does); Indians are much less willing to admit to the variation and its communicative functions in the country. Therefore, standard English (if possible in its classical

British form) is generally favoured, together with formal written uses often based on the stylistic models provided by English literature from Shakespeare to Dickens. R.R. Mehrotra was one of the first to see the need for a proper sociolinguistic description of the Indian situation, and the forms and functions of English in this complex set-up. He has for a long time collected and analysed the huge range of English around him, with the aim of publishing a collection of texts that reflects the variation within the country along various dimensions, historical, regional, ethnic, social and stylistic. The present collection of texts is typical in many ways, evoking in the content, style and grammatical forms the contexts in which English functions; notes help to put the excerpts into the proper frame to make them intelligible to outsiders.
