 Covering the rich film production of Belgium, Switzerland, Quebec, the Caribbean, North Africa, and Sub-Saharan Africa, this book brings together films that might otherwise be divided by questions of race, gender, genre, period, or nation, in a valuable comparative study of a diverse corpus. Individual countries, film-makers, and films are treated separately in order to emphasize their specific identities or those which are represented in their films, and key films are examined within a well-developed historical context. Clearly written and accessible to the specialist and general reader alike, this informative book is a valuable reference source.

 In the raucous decade following World War I, newly blurred boundaries between male and female created fears among the French that theirs was becoming a civilization without sexes. This new gender confusion became a central metaphor for the War's impact on French culture and led to a marked increase in public debate concerning female identity and woman's proper role. Mary Louise Roberts examines how in these debates French society came

to grips with the catastrophic horrors of the Great War. In sources as diverse as parliamentary records, newspaper articles, novels, medical texts, writings on sexology, and vocational literature, Roberts discovers a central question: how to come to terms with rapid economic, social, and cultural change and articulate a new order of social relationships. She examines the role of French trauma concerning the War in legislative efforts to ban propaganda for abortion and contraception, and explains anxieties about the decline of maternity by a crisis in gender relations that linked soldiery, virility, and paternity. Through these debates, Roberts locates the seeds of actual change. She shows how the willingness to entertain, or simply the need to condemn, nontraditional gender roles created an indecisiveness over female identity that ultimately subverted

even the most conservative efforts to return to traditional gender roles and irrevocably altered the social organization of gender in postwar France.

Take your Python text processing skills to another level by learning about the latest natural language processing and machine learning techniques with this full color guide **Key Features** Learn how to acquire and process textual data and visualize the key findings Obtain deeper insight into the most commonly used algorithms and techniques and understand their tradeoffs Implement models for solving real-world problems and evaluate their performance **Book Description** With the ever-increasing demand for machine learning and programming professionals, it's prime time to invest in the field. This book will help you in this endeavor, focusing specifically on text data and human language by steering a middle path among the various textbooks that present complicated theoretical concepts or focus disproportionately on Python code. A good metaphor this work builds upon is the relationship between an experienced craftsman and their trainee. Based on the current problem, the former picks a tool from the toolbox, explains its utility, and puts it into action. This approach will help you to identify at least one practical use for each method or technique presented. The content unfolds in ten chapters, each discussing one specific case study. For this reason, the book is solution-oriented. It's accompanied by Python code in the form of Jupyter notebooks to help you obtain hands-on experience. A recurring pattern in the chapters of this book is helping you get some intuition on the data and then implement and contrast various solutions. By the end of this book, you'll be able to understand and apply various techniques with Python for text preprocessing, text representation, dimensionality reduction, machine learning, language modeling, visualization, and evaluation. What you will learn **Understand** fundamental concepts of machine learning for text **Discover** how text data can be represented and build language models **Perform** exploratory data analysis on text corpora **Use** text preprocessing techniques and understand their trade-offs **Apply** dimensionality reduction for visualization and classification **Incorporate** and fine-tune algorithms and models for machine learning **Evaluate** the performance of the implemented systems **Know** the tools for retrieving text data and visualizing the machine learning

workflow **Who this book is for** This book is for professionals in the area of computer science, programming, data science, informatics, business analytics, statistics, language technology, and more who aim for a gentle career shift in machine learning for text. Students in relevant disciplines that seek a textbook in the field will benefit from the practical aspects of the content and how the theory is presented. Finally, professors teaching a similar course will be able to pick pertinent topics in terms of content and difficulty. **Beginner-level** knowledge of Python programming is needed to get started with this book.

Civilization without Sexes Rowman & Littlefield

Victor rencontre Lucía lors d'une soirée et passe la nuit avec elle. Quelques jours plus tard, elle retourne dans le sud de l'Espagne, où elle vit. Désœuvré et amoureux, sans autre indice que le nom d'une ville - Grenade -, le jeune homme de vingt ans décide de partir à sa recherche. Lucía, Lucía, Lucía... Il se perd dans un labyrinthe de ruelles éblouissantes, à l'image de sa passion pour la jeune femme, qui augmente à mesure qu'elle lui échappe. Sans Lucía, à qui se confier ? Qui aimer ? Victor découvre la trompette et se confie à elle comme à un amour, en jouant à se perdre de bonheur, à défaut de retrouver la jeune femme. Et soudain : Lucía. Ils renouent. Ils s'aiment. Ils s'adorent. Tout de même, Lucía a des comportements bien énigmatiques... Elle a une conception du couple, comment dit-elle ? ouverte. S'ouvre un champ d'expérimentations périlleux. Entre distance humoristique et panique existentielle, les éblouissements esthétiques naissants et les charmes de l'amour incertain, un premier roman charmeur et déchirant comme un solo de trompette dans la nuit.

The Dictionary of Louisiana French (DLF) provides the richest inventory of French vocabulary in Louisiana and reflects precisely the speech of the period from 1930 to the present. This dictionary describes the current usage of French-speaking peoples in the five broad regions of South Louisiana: the coastal marshes, the banks of the Mississippi River, the central area, the north, and the western prairie. Data were collected during interviews from at least five persons in each of twenty-four areas in these regions. In addition to the data collected from fieldwork, the dictionary contains material compiled from existing lexical inventories, from texts published after 1930, and from archival recordings. The new authoritative

resource, the DLF not only contains the largest number of words and expressions but also provides the most complete information available for each entry. Entries include the word in the conventional French spelling, the pronunciation (including attested variants), the part of speech classification, the English equivalent, and the word's use in common phrases. The DLF features a wealth of illustrative examples derived from fieldwork and textual sources and identification of the parish where the entry was collected or the source from which it was compiled. An English-to-Louisiana French index enables readers to find out how particular notions would be expressed in la Louisiane .

Import Export est le récit autobiographique d'un jeune chômeur « professionnel », toxicomane et coureur de jupons. On y découvre comment, au début des années quatre-vingt, il part au Maroc avec trois compères pour acheter du cannabis qu'ils comptent revendre beaucoup plus cher en France. En parallèle, le héros se livre totalement. Il raconte son enfance, son parcours scolaire, son adolescence difficile, ses complexes, son addiction au sexe et aux stupéfiants et surtout son amour pour une femme mariée et plus âgée que lui dont il ne saura que trente-cinq plus tard qu'il est bien le père de son enfant. Il vivra alors avec celle qu'il n'a jamais pu oublier.

This book rethinks the influence that early medieval studies and Grail narratives had on modernist literature. Through examining several canonical works, from Henry James' *The Golden Bowl* to Samuel Beckett's *Molloy*, Ulliot argues that these texts serve as a continuation of the Grail legend inspired by medieval scholarship. *Ollendorff's New Method of Learning to Read, Write, and Speak the French*

The Philosophical Reflection of Man in
Literature Di Marco

Originally published in 1966. Stevens'
Poetry of Thought is the first full-length
study of Wallace Stevens as a thinker.
With original insight, Mr. Doggett provides
many detailed interpretations of individual
poems in examining Steven's imagery.
This is a pertinent treatment of Stevens'
inherent affinity with the philosophic
imagination of his time, showing how
firmly this poet was linked through his
images with the leading thinkers of the
age just passed—especially
Schopenhauer, Bergson, Santayana,
Whitehead, William James, Jung, and
Cassirer. The clear and perceptive reading
of a great many of the poems in this book
should illuminate the work of Stevens for
all the readers who admire his language
and wish for further insight into its
significance. Beyond being a definitive
exposition of Steven' poetry and a
meaningful act of faith in the intellectual
sophistication of Stevens, this is an
exciting study of the human imagination
which satisfies the need for distinction
between poetry and philosophy while
illuminating one by the other. Mr. Doggett
demonstrates how the poetry of Stevens is
a representative voice of the ideas of his
age and illustrates Stevens own
statement: "Poets and philosophers often
think alike, as we shall see." Wallace
Stevens is now recognized as one of the
most important American poets of the
twentieth century. His first volume of
poems, *Harmonium* was published in
1923, and since then seven volumes of his
work have appeared. He was awarded the
Bollingen Prize in Poetry of the Yale
University Library for 1949. In 1951 he
won the National Book Award in Poetry for
The Auroras of Autumn. The *Collected
Works of Wallace Stevens* was awarded

the Pulitzer Prize in Poetry in 1955. From
1916 to his death in 1955 he was
associated with the Hartford Accident and
Indemnity Company, of which he became
vice-president in 1934.

"In this entertaining academic history of
these rival magazines, Mesch . . . explores
the emergence of the working woman in
France." —Publishers Weekly At once
deeply historical and surprisingly timely,
Having It All in the Belle Epoque shows
how the debates that continue to
captivate high-achieving women in
America and Europe can be traced back to
the early 1900s in France. The first two
photographic magazines aimed at women,
Femina and *La Vie Heureuse* created a
female role model who could balance age-
old convention with new equalities. Often
referred to simply as the "modern
woman," this captivating figure embodied
the hopes and dreams as well as the most
pressing internal conflicts of large
numbers of French women during what
was a period of profound change. Full of
never-before-studied images of the
modern French woman in action, *Having It
All* shows how these early magazines
exploited new photographic technologies,
artistic currents, and literary trends to
create a powerful model of French
femininity, one that has exerted a lasting
influence on French expression. This book
introduces and explores the concept of
Belle Epoque literary feminism, a product
of the elite milieu from which the
magazines emerged. Defined by its refusal
of political engagement, this feminism was
nevertheless preoccupied with expanding
women's roles, as it worked to construct a
collective fantasy of female achievement.
Through an astute blend of historical
research, literary criticism, and visual
analysis, Mesch's study of women's
magazines and the popular writers
associated with them offers an original
window onto a bygone era that can serve
as a framework for ongoing debates about
feminism, femininity, and work-life
tensions

For Broadway audiences of the 1980s, the
decade was perhaps most notable for the
so-called "British invasion." While concept
musicals such as *Nine* and Stephen
Sondheim's *Sunday in the Park with
George* continued to be produced, several
London hits came to New York. In addition
to shows like *Chess*, *Me and My Girl*, and
Les Misérables, the decade's most
successful composer Andrew Lloyd
Webber was also well represented by *Cats*,
The Phantom of the Opera, *Song & Dance*,
and *Starlight Express*. There were also

many revivals (such as *Show Boat* and
Gypsy), surprise hits (*The Pirates of
Penzance*), huge hits (*42nd Street*), and
notorious flops (*Into the Light*, *Carrie*, and
Annie 2: Miss Hannigan's Revenge). In *The
Complete Book of 1980s Broadway
Musicals*, Dan Dietz examines in detail
every musical that opened on Broadway
during the 1980s. In addition to including
every hit and flop that debuted during the
decade, this book highlights revivals and
personal-appearance revues with such
performers as Sid Caesar, Barry Manilow,
Jackie Mason, and Shirley MacLaine. Each
entry includes the following information
Opening and closing dates Plot summaries
Cast members Number of performances
Names of all important personnel including
writers, composers, directors,
choreographers, producers, and musical
directors Musical numbers and the names
of performers who introduced the songs
Production data, including information
about tryouts Source material Critical
commentary Tony awards and
nominations Details about London and
other foreign productions Besides separate
entries for each production, the book
offers numerous appendixes, including a
discography, filmography, and published
scripts, as well as lists of Gilbert and
Sullivan operettas, black-themed shows,
and Jewish-themed productions. A treasure
trove of information, *The Complete Book
of 1980s Broadway Musicals* provides
readers with a comprehensive view of
each show. This significant resource will
be of use to scholars, historians, and
casual fans of one of the greatest decades
in musical theatre history.

En moins de dix ans, la mafia russe a
opéré une formidable montée en
puissance, débordant son territoire
traditionnel pour submerger l'Europe, le
Moyen-Orient et l'Amérique du Nord :
Paris, Anvers, Lausanne, Berlin, Brooklyn
connaissent désormais les stigmates de
cette criminalité eurasiennne qui, pour la
seule Russie, rassemble 5 700 gangs, 100
000 bras armés et plusieurs centaines de

Comment en est-on arrivé là ? «

retracant l'histoire d'une poignée
d'hommes — une vingtaine tout au plus —
qui ont gagné le pari de régenter
l'Unterwelt, de s'allier à la Cosa Nostra et

criminelle autrefois évanescence. Nourri
par une longue enquête de terrain, le
témoignage inédit d'intermédiaires de la

mafia russe, ainsi que de nombreux documents d'analyses du FBI américain et du BKA allemand, ce document promène le lecteur dans les coulisses du milieu russe de Brighton Beach, de la mouvance criminelle de Tel-Aviv, de la « Brigade » de Vilnius, des villas somptueuses de la banlieue d'Anvers, ou des échoppes du centre de Berlin. Une plongée instructive et terrifiante dans un univers secret caractérisé par l'alchimie de l'argent et du plomb : des affaires et du crime.
