**Economic Goals and Measuring Economic Activity — Goals ...**  
 Macroeconomics Lesson 4 Activity 7  
 The Great Depression was a severe worldwide economic depression that took place mostly during the 1930s, beginning in the United States. The timing of the Great Depression varied across the world; in most countries, it started in 1929 and lasted until the late 1930s. It was the longest, deepest, and most widespread depression of the 20th century. The Great Depression is commonly used as an ...

 Lesson 3: In the long run, the rate of money growth determines the rate of inflation, but it does not affect the rate of unemployment. Lesson 4: In the short run, policymakers who control monetary and fiscal policy face a tradeoff between inflation and unemployment. The Four Most Important Unresolved Questions of Macroeconomics  
**Macroeconomics 10th Edition | N. Gregory Mankiw ...**  
 In this personal finance lesson, students will analyze the value of a stock to a long-term investor. Key Concepts: ...  
**Econland Macroeconomics Simulation.** In this economics activity, students go deeper understanding real world events using Macroeconomic concepts.  
**EconEdLink - All Grades**  
 As discussed in the previous lesson, the aggregate expenditures model is a useful tool in determining the equilibrium level of output in the economy. It does have a significant flaw, however: the aggregate expenditures model does not take into account the impact of the price level on aggregate output.  
**ECON 151: Macroeconomics**
