In "I that is We, We that is I" leading scholars analyze the many facets of Hegel's formula for the intersubjective structure of human life and explores its relevance for debates on social ontology, recognition, action theory, constructivism, and naturalism.

The volume aims at a critical assessment of Carl Stumpf's philosophy and an evaluation of his place in the School of Brentano and in the phenomenological movement. The book contains 15 original essays, unpublished writings by Stumpf and a complete bibliography.
GRÄFE UND UNZER
With the death of Edward Jonathan Lowe (1950-2014), the analytical philosophy lost

one of the most influential thinkers of the last thirty-five years. His contributions include (but are not limited to) philosophy of mind, John Locke's philosophy and metaphysics. In particular, concerning metaphysical studies, the most innovative part of Lowe's philosophical perspective is the four-category ontology that, according to the author, provides an exhaustive inventory of what there is and a powerful explanatory framework for a metaphysical foundation

of natural science. Accordingly, the purpose of this volume is to collect some new essays from distinguished authorities in the field, critics and collaborators of Lowe in order to present some fundamental issues triggered by his ontological proposal.

Die Studie «Performing the Archive»

dokumentiert die Ergebnisse eines ersten Forschungsprojektes, das sich mit der Archivierung Freien Theaters beschäftigt. Seit mehr als 50 Jahren haben sich in Deutschland die Freien Darstellenden Künste als «zweite Säule» der Theaterlandschaft herausgebildet. Die Überlieferung seiner künstlerischen und kulturpolitischen sowie der organisatorischen und administrativen Praxis ist zwar überwiegend noch vorhanden, befindet sich aber weit verstreut,

zumeist an den Orten ihrer Entstehung, ist aber unerschlossen und vom Verfall bedroht. Mit der Studie werden konzeptionelle Grundlagen geschaffen, um einen relevanten Bestandteil des kulturellen Erbes zu sichern und zugänglich zu machen. So wie das Freie Theater aus der kritischen Selbstermächtigung und innovativen Selbstorganisation seiner Künstler*innen entstanden ist, haben sich seine organisierten Akteur*innen aus

Kulturpolitik und Wissenschaft zusammengetragen und mit Unterstützung des Bundes und einiger Bundesländer einen Forschungsprozess für ein Archiv des Freien Theaters initiiert, dessen umfassende Bestandsaufnahme hier vorgelegt wird. Die Studie mit ihren Erkenntnissen, Expertisen und Handlungsempfehlungen zeichnet aus künstlerischer und wissenschaftlicher sowie technologischer und rechtlicher Sicht die strukturellen Konturen

eines Archivs des Freien Theaters, das als dezentrale und digitale Wissensplattform die Voraussetzungen sowohl für ein «Performing the Archive» in der Praxis wie auch für kulturpolitische Diskurse zur Weiterentwicklung der Theaterlandschaft bietet. The study 'Performing the Archives' documents the results of one of the first research projects to examine the archiving of the Free Theatre movement. For over 50 years the free performing arts have constituted a

'second pillar' of the German theatre world. The records of artistic practice, cultural policy and organisational and administrative practice certainly survive in large part, but are widely dispersed, most being in the place of their origin, have not been properly archived and indexed, and are threatened with deterioration. This study lays the conceptual foundations for securing and making available a relevant part of our cultural heritage. Just as the Free Theatre

movement grew out of the critical self-empowerment and innovative self-organisation of its artists, organisers in the fields of cultural policy and academia have come together and, with the support of the German Federal Government and of some German states, initiated a research process to create an Free Theatre archive. Its comprehensive survey is presented here. The study, with its insights, expertise and recommendations for

action, describes from artistic and academic as well as technological and legal perspectives the structural contours of an archive which, as a decentralised and digital knowledge platform, provides the basis required both for 'Performing the archive' in practice and for cultural-political discourses of the future development of the theatrical landscape. *Studies in the Ontology of E.J. The Manual of Standard Tibetan presents the

everyday speech of Lhasa as it is currently used in Tibet and among the Tibetan diaspora. It not only places the language in its natural context but also highlights along the way key aspects of Tibetan civilization and Vajrayana Buddhism. The Manual, which consists of forty-one lessons, is illustrated with many drawings and photographs and also includes two informative political and linguistic maps of Tibet. Two CDs provide an essential oral complement to the

manual. A detailed introduction presents a linguistic overview of spoken and written Tibetan.

This text is an innovative exploration of philosophy and madness in the context of the critical

engagement of Heidegger's phenomenological ontology with Freudian psychoanalysis. Included is a play in which, after a mental breakdown, Martin Heidegger undergoes psychoanalytic treatment from Dr. Medard Boss. Boss is essentially caught between two intellectual giants: his patient, Heidegger, who challenges him to evolve beyond traditional Freudian psychoanalysis, and his mentor, Freud, who acts as a "ghostly" consultant in facilitating

Heidegger's return to health. The dialogue of the play consists of actual quotes taken from the major thinkers themselves, which enhances the authenticity of this fictitious production. In addition, the theoretical perspectives of Freud, Heidegger, Boss, and Ludwig Binswanger are included to enhance the readers' background knowledge. In the process of disclosing these brilliant theorists, this book uncovers what each orientation has to offer

the others.

Besitzer des Fischereischeins sind! Informationen für die Fischwirtschaft Rodopi First written in response to a JACT survey of over 100 schools, and now endorsed by OCR, this textbook has become a standard resource for students in the UK and for readers across the world who are looking for a clear and thorough introduction to the language of the ancient Greeks. Revised throughout and enhanced by coloured artwork and text features, this edition

will support the new OCR specification for Classical Greek (first teaching 2016). Part 1 covers the basics and is self-contained, with its own reference section. It covers the main declensions, a range of active tenses and a vocabulary of 250 Greek words to be learned. Pupil confidence is built up by constant consolidation of the material covered. After the preliminaries, each chapter concentrates on stories with one source or subject: Aesop, Homer's

Odyssey and Alexander the Great, providing an excellent introduction to Greek culture alongside the language study. Written by a long-time school teacher and examiner, this two-part course is based on experience of what pupils find difficult, concentrating on the essentials and on the understanding of principles in both accidence and syntax: minor irregularities are postponed and subordinated so that the need for rote learning is

reduced. It aims to be user-friendly, but also to give pupils a firm foundation for further study.

Wisdom from Your Spirit Guides Ernst Reinhardt Verlag

Mahatma Gandhi once chided a Christian friend, "All you Christians, missionaries and all, must begin to live more like Jesus Christ." And what Christian among us would disagree with him? After the holy wars and witch-hunts, after persecutions and political machinations, there is a

broad sense today that the Church, however well-meaning, is on the wrong side of history. But do we really know our history? In this collaboration with historian Arnold Angenendt, best-selling German author Manfred Lütz dares to show us what contemporary historians actually say

about Christianity's track record over the ages. This detailed overview begins with the ancient pagans, passing through Israel, the early Church martyrs, Constantine's Rome, the reign of Charlemagne, the Crusades, the Inquisition, the Reformation, the Borgia popes, the Galileo affair, the conquistadores,

the French Revolution, the slave trade, the Holocaust, the sex abuse crisis, and more. The Scandal of the Scandals separates myth from fact, giving us a candid portrait of Christendom with its scars and all. Prepare to be amazed at how little you really knew about Christianity.
