This current and timely volume presents new thinking and new directions in feminist legal scholarship. Rethinking key

concepts in legal feminism, Cowan and Hunter provide a unique examination of key socio-legal concepts in law, jurisprudence and legal and political theory. Written by an international cast of contributors, offering different cultural perspectives as well as doctrinal and theoretical knowledge, this collection of essays presents a dialogue between different feminist positions and approaches to a common theme. It addresses a range of questions, including: Can 'consent' be rethought and infused with different meanings in a post-liberal feminist politics? Can the concepts of 'choice' and 'consent' have consistent meanings and functions between different areas of law, or whether they prove to be highly contingent when viewed across the broad field of law. Exploring the deeply gendered concepts of 'choice' and 'consent' and examining the philosophical and jurisprudential issues surrounding them as well as how 'choice' and 'consent' operate in particular areas of law, including criminal law, medical law, constitutional law, employment law, family law and civil procedure, this volume is a key resource for postgraduate law

students studying jurisprudence. [A Companion to Anabaptism and Spiritualism, 1521-1700](#) Catapult Baptizing Business sifts through popular perceptions regarding the relationship between business and religion and the agenda of conservative Christian business leaders, drawing on personal interviews with the most diverse group of evangelical executives yet studied. While stereotypes and previous research both emphasize the perceived incompatibility of religious mandates and business objectives, Bradley C. Smith argues that evangelical executives experience tension not because business and religion are inherently opposed, but because they are made to feel like second-class citizens by members of their own faith communities. Indeed, in cases of apparent conflict between faith and business, evangelical executives insist that it is faith, not business, that must be reconceived. Smith reveals that evangelical business leaders are as inclined to export business concepts into other domains as to import religious objectives into business contexts, prompting us to reconsider the direction of influence between religious and economic

life. *Baptizing Business* is filled with compelling stories that paint a nuanced, unbiased picture of the increasing influence of intensely religious business leaders. The "spirit of capitalism," defined by Max Weber as a positive attitude toward work and wealth, finds ongoing embrace and new expression in evangelical executives and their accounts, with implications for our understanding of the faith at work movement, evangelicalism, and the role of religion among elites.

*Bowling for Communism* illuminates how civic life functioned in Leipzig, East Germany's second-largest city, on the eve of the 1989 revolution by exploring acts of "urban ingenuity" amid catastrophic urban decay. Andrew Demshuk profiles the creative activism of local communist officials who, with the help of scores of volunteers, constructed a palatial bowling alley without Berlin's knowledge or approval. In a city mired in disrepair, civic pride overcame resentment against a regime loathed for corruption, Stasi spies, and the Berlin Wall. Reconstructing such episodes through interviews and obscure

archival materials, Demshuk shows how the public sphere functioned in Leipzig before the fall of communism. Hardly detached or inept, local officials worked around centralized failings to build a more humane city. And hardly disengaged, residents turned to black-market construction to patch up their surroundings. Because such "urban ingenuity" was premised on weakness in the centralized regime, the dystopian cityscape evolved from being merely a quotidian grievance to the backdrop for revolution. If, by their actions, officials were demonstrating that the regime was irrelevant, and if, in their own experiences, locals only attained basic repairs outside official channels, why should anyone have mourned the system when it was overthrown?

*Dream Reader* is a uniquely comprehensive survey of contemporary approaches to understanding and working with dreams. The general reader interested in exploring the world of dreams could not obtain a better introduction and grounding than from this book. Academic psychologists, therapists,

and professional dreamworkers alike will find it to be an incomparable survey and sampling of the growing literature on dreaming. In Part I, Shafton summarizes sleep laboratory discoveries, then considers theories about dream generation and meaning that have arisen from these discoveries. Part II discusses major Euro-American schools of dream interpretation in the twentieth century: Freud, Jung, Existential, Cultural, and Gestalt. Also included are chapters dealing with various topics of interest: the dream styles of people of both genders, and of people with certain psychiatric diagnoses; non-interpretive approaches to dreamwork; dream incubation; lucid dreaming; dream re-entry; dreams of the blind; post-traumatic nightmares; and many more. *Dream Reader* provides an integrated review of the whole literature of dream psychology—the clinical, academic, and also the serious popular literature. It also presents sizeable extracts from the original sources for the reader's own critical evaluation.

In the mid-eighteenth century, Americans

experienced an outbreak of religious revivals that shook colonial society. This book provides a definitive view of these revivals, now known as the First Great Awakening, and their dramatic effects on American culture. Historian Thomas S. Kidd tells the absorbing story of early American evangelical Christianity through the lives of seminal figures like Jonathan Edwards and George Whitefield as well as many previously unknown preachers, prophets, and penitents. The Great Awakening helped create the evangelical movement, which heavily emphasized the individual's experience of salvation and the Holy Spirit's work in revivals. By giving many evangelicals radical notions of the spiritual equality of all people, the revivals helped breed the democratic style that would come to characterize the American republic. Kidd carefully separates the positions of moderate supporters of the revivals from those of radical supporters, and he delineates the objections of those who completely deplored the revivals and their wildly egalitarian consequences. The battles among these three camps, the author shows, transformed colonial America and ultimately defined the nature

of the evangelical movement. *Baptizing Business* Cornell University Press

### **The Visually Responsive Neuron** Images Publishing

A major new biography, illuminating the great mystery of Benjamin Franklin's faith. Renowned as a printer, scientist, and diplomat, Benjamin Franklin also published more works on religious topics than any other eighteenth-century American layperson. Born to Boston Puritans, by his teenage years Franklin had abandoned the exclusive Christian faith of his family and embraced deism. But Franklin, as a man of faith, was far more complex than the "thorough deist" who emerges in his autobiography. As Thomas Kidd reveals, deist writers influenced Franklin's beliefs, to be sure, but devout Christians in his life—including George Whitefield, the era's greatest evangelical preacher; his parents; and his beloved sister Jane—kept him tethered to the Calvinist creed of his Puritan upbringing. Based on rigorous research into Franklin's voluminous

correspondence, essays, and almanacs, this fresh assessment of a well-known figure unpacks the contradictions and conundrums faith presented in Franklin's life.
