### **Individual Employment Rights Cases** How To Books

My name is Tina Alberino, and I wrote this book to save you. This is not another lame book full of generic beauty business advice. This book serves as the literary equivalent of a kick in the ass and a punch to the throat. You hold in your hands compendium of harsh lessons and a raw depiction of the true nature of this industry. The vast majority of these lessons aren't taught in schools and don't appear in textbooks; they're learned through experience--often in a way that is less-than-gentle. This book will help you navigate this tumultuous industry. The waters run deep, the currents are swift, and the tides shift quickly. The journey can certainly be treacherous. Don't learn these lessons the hard way. Learn how to avoid scoundrel salon owners and crackpot contracts, build a loyal following of glamorous gals and gallant gents, and land your first big break before graduation day!

Shake up the market with these key ingredients to a successful startup Entrepreneurship starts with an idea and a dream: a dream of a better world for others, and a life less ordinary for yourself. These days, more people than ever are full of world-changing ideas and, thanks to technology, have the means to

bring them to life. But many ideas remain just ideas, and many dreams just dreams. Startup Mixology is first and foremost a book about turning your ideas into action. From the cofounder of media company Tech Cocktail, a veteran entrepreneur and investor who was named one of the most connected people in tech, this book covers the basic "ingredients" of winning entrepreneurship. No abstract theories here — it shows you how to tackle everything from idea generation to launch to marketing to funding and how to start getting things done. Once you've taken that first step, the journey has only begun. Startup Mixology tells it like it is — and it's not easy! You'll learn about the harsh reality of starting up: what happens when you offend your customers, get no attention, or run out of money. These are the stories you don't always hear in the media. In the end, Startup Mixology is an optimistic book. You can do this — and you can have fun doing it, too. Every chapter also shows you how to enjoy the journey along the way - because if you don't, what's the point of it all? From cake baking to workations to llama parades, you'll learn how entrepreneurs around the world stay sane, reduce stress, and celebrate the positive. This may seem fluffy, but it's actually one of the biggest secrets of successful startups. Inside, you'll find the stories of companies like MakerBot, WordPress, Zappos, Basecamp, Uber, and more. Hear in their own words how they survived the startup phase, and learn from the straightforward and conversational Frank Gruber, who has met thousands of entrepreneurs and watched them grow their businesses. In many ways, entrepreneurship will be the most difficult undertaking of your career. But if you can find the right balance of hard work, support, and celebration, it can also be the most rewarding. Startup Mixology takes you through the whole process from start to finish, so you can begin the incomparable journey of turning your great ideas into great startups.

A sitting federal judge's lively and provocative recounting of six cases, to make the argument for revisiting overly punitive sentences Murderous mafia capos. The police officer who brutalized Abner Louima. A purveyor of child pornography. These are some of the defendants to have come before U.S. District Court Judge Frederic Block to ask for reductions in their prison sentences. All of them have been found guilty and have already served decades in prison, but under the 2018 First Step Act they

are entitled to petition for reconsideration and release. In a rare glimpse behind the bench, Judge Block recounts the cases of six incarcerated people who have done heinous things but have nevertheless petitioned him for their release. He then explains the criteria the First Step Act has spelled out for his consideration. And, in a novel twist, he asks the reader, "What would you do?" Judge Block puts us out of our suspense in a third section of the book where he tells us what he did do in each case and why, as he weighs each compassionate release request, evaluating issues ranging from "the trial tax," to sentencing disparities, to judicial incompetence. Finally, Judge Block makes the compelling case that the First Step Act should be extended to state court judges, since state prisons house about 90 percent of those incarcerated. In a book that could be the basis for a new season of *Law & Order*, Judge Block challenges our ideas about punishment and justice.
