In Sarah Anna Glover: Nineteenth Century Music Education Pioneer, Jane Southcott explores the life and pedagogy of Sarah Anna Glover, the female music education pioneer of congregational singing (psalmody) and singing in nineteenth-century schools. Glover devoted her life to the creation and propagation of a way of teaching class music that was meticulously devised, musically rigorous, and successfully promulgated. Southcott analyzes Glover's methods, history, and memory, and works to correct inaccuracies and misrepresentations that have emerged since Glover's death.

Cuba is often perceived in starkly black and white terms—either as the site of one of Latin America's most successful revolutions or as the bastion of the world's last communist regime. The Cuba Reader multiplies perspectives on the nation many times over, presenting more than one hundred selections about Cuba's history, culture, and politics. Beginning with the first written account of the island, penned by Christopher Columbus in 1492, the selections assembled here track Cuban history from the colonial period through the ascendancy of Fidel Castro to the present. The Cuba Reader combines songs, paintings, photographs, poems, short stories, speeches, cartoons, government reports and proclamations, and pieces by historians, journalists, and others. Most of these are by Cubans, and many appear for the first time in English. The writings and speeches of José Martí, Fernando Ortiz, Fidel Castro, Alejo Carpentier, Che Guevara, and Reinaldo Arenas appear alongside the testimonies of slaves, prostitutes, doctors, travelers, and activists. Some selections examine health, education, Catholicism, and santería; others celebrate Cuba's vibrant dance, music, film, and literary cultures. The pieces are grouped into chronological sections. Each section and individual selection is preceded by a brief introduction by the editors. The volume presents a number of pieces about twentieth-century Cuba, including the events leading up to and following Castro's January 1959 announcement of revolution. It provides a look at Cuba in relation to the rest of the world: the effect of its revolution on Latin America and the Caribbean, its alliance with the Soviet Union from the 1960s until the collapse of the Soviet bloc in 1989, and its tumultuous relationship with the United States. The Cuba Reader also describes life in the periodo especial following the cutoff of Soviet aid and the tightening of the U.S. embargo. For students, travelers, and all those who want to know more about the island nation just ninety miles south of Florida, The Cuba Reader is an invaluable introduction.

A New Dictionary of the Italian and English Languages Faber & Faber

Gustav Holst was a leading figure in the new age of English music in the late 19th and early 20th centuries. His most celebrated work, The Planets, is an orchestral tour de force, but he wrote music of startling originality in many forms, drawing inspiration from sources as varied as English folksong, oriental melody, the Apocrypha and Sanskrit literature, as well as from writers such as Keats, Hardy,

Bridges and Whitman. This biography, by his daughter Imogen, was first published by Faber in 1938 and revised in 1969. In it she quotes at length from his many letters to his friends - especially to his closest colleague Vaughan Williams - and draws on her personal memories of Holst's later years. Holst struggled all his life against bouts of ill-health and depression, but his remarkable and good-humoured resilience enabled him to compose great music in often difficult circumstances. He was essentially a very private person, and the huge popular success of *The Planets* in 1919 disconcerted him. Imogen Holst describes the effect of this sudden fame on her father, and records the late flowering of his music in the final years of his life.

This methods text for the music specialist focuses on teaching children the sounds of music-singing and the symbols of music-reading and writing music notation. With over 75 Mini-Lessons, this text offers general principles and specific ways to teach elements of rhythm, melody, and structure and help children learn to read, write, and enjoy music. The text addresses the four major challenges of teaching music: how to translate the aural sense of music into visual and kinesthetic experiences for young children, how to organize musical sounds, how to explore the patterns of music in temporal rather than static contexts, and how to engage the students as performers of the music studied through singing, moving, and playing classroom instruments.

Edith Grossman, celebrated for her brilliant translation of *Don Quixote*, offers a dazzling new version of another Cervantes classic, on the 400th anniversary of his death. The twelve novellas gathered together in *Exemplary Novels* reveal the extraordinary breadth of Cervantes's imagination: his nearly limitless ability to create characters, invent plots, and entertain readers across continents and centuries. Cervantes published his book in Spain in 1613. The assemblage of unique characters (eloquent witches, talking dogs, Gypsy orphans, and an array of others), the twisting plots, and the moral heart at the core of each tale proved irresistible to his enthusiastic audience. Then as now, Cervantes's readers find pure entertainment in his pages, but also a subtle artistry that invites deeper investigation. Edith Grossman's eagerly awaited translation brings this timeless classic to English-language readers in an edition that will delight those already familiar with Cervantes's work as well as those about to be enchanted for the first time. Roberto González Echevarría's illuminating

introduction to the volume serves as both an appreciation of Cervantes's brilliance and a critical guide to the novellas and their significance.
