For years, IDocs have been used as interfaces for internal and cross-enterprise communication

n. But does the SAP standard meet the demands and requirements for your business? With this book, learn how you can change standard IDocs and even develop your own IDocs for special customer information. With expert knowledge and hands-on advice, this complete reference help you hit the ground running. Interfaces from A to Z Explore the procedures for adapting and

developing IDocs using a complete, practice-oriented approach. Standard and Special Knowledge Get an in-depth look at standard technologies that apply to all IDoc types (such as filtering and reduction), but also specific features such as the workflow connection. Expert Advice for Practical Use Discover important functions for daily use, such as the testing or serialization of	IDocs. SAP NetWeaver Process Integration Master the use of IDocs within SAP NetWeaver PI with an entire chapter dedicated to the topic. Everything at a Glance Learn about all of the aspects of IDoc development at a glance -- accompanied by real world tips and tricks as well as numerous coding examples and screenshots. <a href="#">SAP Web Client</a> John Wiley & Sons SAP can help	you capture better information and deliver it more quickly, allowing you to make better decisions and maximize the business value of everything you do. However, SAP implementations require massive effort, total buy-in, and significant change throughout the organization. In SAP Implementation Unleashed, 10 expert SAP project managers, functional consultants,

and technologists guide you through the entire journey, helping you avoid pain and pitfalls and gain all the benefits of SAP. The authors introduce start-to-finish business, technical, and project management roadmaps for successful SAP implementation. Then, drawing on their immense experience, they walk you through the entire process of planning and deployment—addressing

make-or-break issues and hidden gaps that other guidebooks ignore. You'll discover how to employ processes, models, and toolsets that help you achieve implementation excellence while systematically reducing cost and business risk. Along the way, you'll find actionable advice and real-world insight into innovative project management, best-suited leadership, effective load testing,

contemporary infrastructure implementation, and more. George W. Anderson is responsible for providing enterprise applications thought leadership for the EDS/HP office of the CTO. A long-time SAP consultant and PMI-certified project manager, George has authored several best-selling books and enjoys new challenges. Charles D. Nilson is a senior program
