A  
comprehensiv  
e pocket guide  
to dinosaurs  
and  
prehistoric  
animals and  
the world they  
inhabited  
millions of

years ago.  
Packed with  
more than  
seven  
hundred full-  
color  
illustrations,  
this definitive  
pocket guide  
paints a vivid  
portrait of  
extraordinary

dinosaurs and prehistoric animals, and the ecosystems they lived in millions of years ago. This guide features authoritative text, crystal-clear illustrations, and a straightforward approach to revealing the fascinating lives and habitats of dinosaurs, pterosaurs, marine reptiles, and prehistoric beasts. The introductory section explains classification systems,

geological timelines, the evolution of the dinosaurs, and how fossils form and are discovered by paleontologists. For ease of reference, the main body of the book is divided into three sections: the Precambrian and Paleozoic eras, when animals first began evolving; the Mesozoic era, which saw the flourishing and eventual extinction of the dinosaurs; and the Cenozoic era, when giant mammals

walked the Earth. Each section is broken down into its geological time periods, and, within these, the species are organized according to habitat--whether they lived on land, in the water, or in the air. There are detailed profiles of 200 dinosaurs and other ancestors of modern animals. Each entry combines a precise, jargon-free description with full-color illustrations,

skeletons, and replica models, annotated to showcase the unique features of the species. Maps show where each animal's fossils have been found, and many profiles are supported by photographs to show actual excavation sites.

*Dinosaurs* DK Children From the creative brain of Mike Lowery, discover the **ULTIMATE** book about all things prehistoric! Featuring fun facts, dinosaur

jokes, comics, timelines, and more! In this final adventure, Whip and his four friends, Bobi, Pition, Fentruck, and Ezra, work in a science lab and a nerdy science toucan invents a time machine.  
Whip and the gang test it, and it glitches as a bomb sending them

back to the time of the dinosaurs. They are stuck back in time to help a herd of herbivores battle the mighty T-Rex, Gish. Will this be enough to reactivate the time machine and zoom back to the present? Whip is to be married soon to his fiancée, Imogene (formerly known as Princess Zelda of the Vips).
