BRYANT MALDONADO

Usborne Book and Jigsaw: Tree of Life Twirl
A beautifully illustrated, non-fiction picture book about space for very young children. Little astronauts can find out about planets, stars, asteroids, space travel, the International Space Station and lots more. With lots to spot and talk about, vivid illustrations and simple language, this is a fun and entertaining way to introduce little children to a fascinating subject. With links to carefully selected websites where

children can find out more about constellations and space via the Usborne Quicklinks website.

Patterns to Colour

Introduction to earth sciences is full of colorful illustrations and presented in an engaging format.

Lift-The-Flap Looking After Our Planet 100 Things to Know

This delightful pack contains a 300-piece jigsaw of a beautiful forest scene for children to assemble, as well as a picture puzzle book teeming with forest animals and objects to spot, match and count. Can you find foxes wearing hats, a lost cat, an

otter with swimming goggles and lots more?

Lets Save Antarctica Barefoot Books

"A dynamic and comprehensive introduction to physical geography, which explores our world's most dramatic features. It gets to the heart of fiery volcanoes, uncovers the causes of earthquakes and looks at incredible weather phenomena."--Adapted from back cover

The Usborne Big Book of Big Animals
Kingfisher

When young Arlo accidentally drops a book on the Mayor's head, the Mayor

decides books are dangerous and destroys all the books in town! But thanks to Arlo's imagination and perseverance, the Mayor finds that suppressing stories cannot stop them from blossoming more beautifully than ever. This timely allegorical tale will be a useful tool for starting conversations with children about the power of activism and the written word.

Book of Planet Earth Usborne Books

What is the surface of Mars like? Why does Venus glow in the dark? How do scientists explore faraway planets? Beginner readers can find answers to these questions and more in this colourful information book. Illustrated with stunning photographs and illustrations accompanied by short, informative text developed with reading experts. Includes carefully selected internet-links to exciting websites about the Solar System.

My First Book of Planets Usborne

The internationally successful Ultimate Book series expands its scope to embrace—very appropriately—the whole world! The Ultimate Book of Planet Earth offers lots of opportunity for hands-on interaction using flaps, pop-ups, and more! Pull a tab to see how magma erupts from

a volcano, turn a page for a pop-up of a mountain range, or rotate a wheel to move the blades of a wind turbine! Planet Earth explores not only the geology of the Earth—oceans, continents, and the formation of mountains and volcanoes—but also its geography, atmosphere, and weather. A valuable reference book for any child!

The Usborne Encyclopedia of Planet Earth Usborne Books

From frozen deserts to steaming jungles, our planet is amazingly rich and varied. But it is also under threat. Take a closer look at the challenges facing planet Earth today and discover what we can all do to make a difference.

Raptors! Rockridge Press

Provides an introduction to the planets, stars, comets, and meteors that can be found in the solar system.

Sun, Moon and Stars Usborne Publishing Ltd

This guide to our planet shows paper being engineered like never before. Paper World: Planet Earth uses ingenious paper cutouts to reveal the amazing details of our planet, from bubbling volcanoes to rushing rivers to the boiling hot interior of

the Earth. With detailed art by studio Bomboland, a fact-filled text, and flaps and die-cuts on every spread, this one-of-a-kind novelty book will appeal to readers of all ages.

The Ultimate Book of Planet Earth Usborne Books

How could plastic-eating bacteria help reduce waste? Can a river be given human rights? Could we generate all the power we need from the sun and the wind? How do woolly sweaters help penguins in peril? Would building a giant sunshade in space stop the world from overheating? Find the answers to these questions and more in this bold, graphic and exciting book, full of big, small and unexpected ways to save the planet. Covers a wide range of topics from everyday ways individuals can help save the planet, to massive international missions and ambitious plans for the future. With bold artwork, and clear text in 100 bite-sized topics, perfect for dipping in and out of, and sharing with family and friends. A new addition to the bestselling series - other titles include Space, Science, the Human Body, History and Food. Includes links to websites to discover more about the dangers facing our planet and

how to help protect it.

Paper World: Planet Earth Lonely Planet

This book takes young readers on a spectacular journey around the world, from the highest mountain peaks to the very bottom of the ocean. Full of fascinating facts, this book uses jaw-dropping landscapes and richly illustrated maps to explain the wonderful secrets behind Planet Earth. Stunning but accessible illustrations by Stephanie Fizer Coleman, and large format creates extra impact. Full of rich vocabulary, with clear simple explanations. Includes links to websites with video clips, games and activities and maps to find out more about the people, places and geography of our planet.

Helping Our Planet Usborne Publishing

This beautifully designed picture book will be a delight for adults and children to share and discover together what goes on at night when they're asleep. Each spread explores a different night-time world; as well as the city and woods, we visit a coral reef, the North Pole, a jungle, a busy port, the Australian outback, a factory where robots are making cars and even outer space... This is a delightful and surprising

book that will engage young and old alike.

First Sticker Book Planet Earth Usborne Books

This exploration of the sun, moon and stars is part of a series introducing children to the wonder of the world around them. It has two reading levels, with a simple sentence on each page for beginners, accompanied by more complex information which can be read as the child's ability grows.

Look After Your Planet Activity Book

Go on a big puzzle journey around the world with this amazing maze book!

Children are taken on a whirlwind journey around the globe, solving puzzles along the way.

Usborne Book of Night Time Charlie and Lola

Discover the mysteries of the Universe and journey to galaxies beyond our own in this fact-including companion to space. From icy worlds and hot, fiery giants to the biggest telescopes and latest spacecraft, this ebook covers more than 40 profiles of the planets, stars, and objects in our Universe. Find out all about our neighbouring planets, from tiny Mercury to gigantic Jupiter. Discover what lies beyond

our Solar System and the stars we can see in the night sky. Learn about the latest space technology and when humans may finally land on Mars. Broken down by type, each object is presented in a clear, engaging way, with stunning images and bite-sized chunks of information. Detailed NASA photography brings the mysteries of outer space to life, while pronunciation guides help with tricky names, and a visual index gives a quick overview of all the key objects in the ebook. Filled with fascinating details for every young stargazer and budding astronaut, *My Book of Stars and Planets* is the perfect first reference book on space and the Universe for kids.

100 Things to Know about the Oceans 100 Things to Know

We are bombarded by warnings about the health of our planet, but what can we actually do to help? This hands-on guide is filled with suggestions for everyday actions and choices that will help readers take better care of the Earth. Armed with this informative and helpful book, they can feel ready to make a positive difference. Takes a cool, clear look at the issues facing our planet, followed by lists of

practical things to do. Includes chapters on food, travel and shopping choices, as well as guidance on saving energy and water, and advice on reducing, re-using and recycling. Contains fun quizzes and instructions for practical projects as well as Quicklinks to further sources of information.

Planet Earth Activity Book National Geographic Books

Do fish wear pajamas? What's the sound of an iceberg melting? How many sheep did it take to launch a Viking longship? Which is faster - a tsunami or a bullet train? Find the answers to these and many more questions in a book that explores the history, science, environment and art of our planet's seas and oceans. Richly illustrated and perfect for broadening children's knowledge of an essential subject, away from the classroom.

My Very First Space Book Usborne Books

Blast off on an exploration of our solar system—a fun space book for kids 3 to 5 Get even the smallest astronomer excited for the big universe of space, from the bright and burning sun to our own blue Earth to ice-capped Pluto and every planet in between. With this book, kids will explore the entire solar system through incredible photos and fascinating facts on what makes each planet so special—like their size, distance from the sun, what the surface is like, how many moons they have, and more! This planets for kids book includes: Big, beautiful images—Vibrant photos will take kids deep into space and onto each planet—no telescope required. Astronomy for kids—Learn all about the eight planets in our solar system, plus dwarf planets Ceres, Pluto, Eris, Haumea, and Makemake. Fun space facts—Did you know the bubbles in soda are the same

gas that's on Venus? Out of this world facts will keep kids glued to the page and excited to explore the sky. Show kids the amazing universe that surrounds them with this fun and engaging astronomy book.

First Encyclopedia of Seas & Oceans Fold-Out Timeline

Fascinating activity book for children to explore the wonders of our planet. The puzzles and activities in this book will take you to the furthest corners of the Earth. You'll spot wildlife in the Amazon Rainforest and find a wonderful array of corals in the Great Barrier Reef to colour in. You'll discover the highest mountains on all the world's continents and identify volcanoes around the Pacific Ocean in the Ring of Fire. And when you come to reunite a herd of elephants on the African savanna, you'll learn why these amazing creatures are rather like gardeners.
