"This edition explains how work-life integration is becoming an essential employee practice in the workplace; how social networks generate power and shape communication patterns; how emotions influence employee motivation, attitudes, and decisions; how self-concept is a significant determinant of individual behavior, team cohesion, and leadership; and how adopting a global mindset has become an important employee characteristic in this increasingly interconnected world"--

Canadian Organizational Behaviour reflects the dynamic world of organizational behaviour and emerging workplace realities - social media and virtual teams; values and self-leadership; emotional intelligence and effective teamwork skills. The Tenth Edition explains how these new realities impact/benefit an organization, and that organizational behavior is not just for managers, but is relevant to all who work in and around organizations. Canadian Organizational Behaviour has developed a reputation for its solid foundation of contemporary and classic research and writing. The Tenth Edition connects vivid real-world examples and practices to good theory. This evidence-based foundation is apparent from the number and quality of literature cited in each chapter, including dozens of –articles, books, and other sources. This market leading title discusses emerging OB theories such as the full self-concept model (not just core self-evaluation), workplace emotions, social identify theory, global mindset, four-drive theory, Schwartz's values model, employee engagement, learning orientation, social and information processing characteristics of job design, and many other groundbreaking topics. The authors also teach organizational behaviour so they know the importance of a textbook that offers deep support for active learning and critical thinking with Canadian and global cases and examples and rich in-class activities.

Governance is a word that is increasingly heard and read in modern times, be it corporate governance, global governance, or investment governance. Investment governance, the central concern of this modest volume, refers to the effective employment of resources—people, policies, processes, and systems—by an individual or governing body (the fiduciary or agent) seeking to fulfil their fiduciary duty to a principal (or beneficiary) in addressing an underlying investment challenge. Effective investment governance is an enabler of good stewardship, and for this reason it should, in our view, be of interest to all fiduciaries, no matter the size of the pool of assets or the nature of the beneficiaries. To emphasize the importance of effective investment governance and to demonstrate its flexibility across organization type, we consider our investment governance process within three contexts: defined contribution (DC) plans, defined benefit (DB) plans, and endowments and foundations (E&Fs). Since the financial crisis of 2007–2008, the financial sector's place in the economy and its methods and ethics have (rightly, in many cases) been under scrutiny. Coupled with this theme, the task of investment governance is of increasing importance due to the sheer weight of money, the retirement savings gap, demographic trends, regulation and activism, and

rising standards of behavior based on higher expectations from those fiduciaries serve. These trends are at the same time related and self-reinforcing. Having explored the why of investment governance, we dedicate the remainder of the book to the question of how to bring it to bear as an essential component of good fiduciary practice. At this point, the reader might expect investment professionals to launch into a discussion about an investment process focused on the best way to capture returns. We resist this temptation. Instead, we contend that achieving outcomes on behalf of beneficiaries is as much about managing risks as it is about capturing returns—and we mean “risks” broadly construed, not just fluctuations in asset values.

Course: Principles of Management is the introductory course taken by most undergraduate business majors. Almost every text/course is organized around the four functions of management: planning, leading, organizing, and controlling (PLOC). What makes the texts different are their approach to the subject (principles vs. OB focused) and their strengths of coverage (high/strategic vs. low level/applied/skills). The aim of this text is to show how the four functions interact.

The ‘fish book’ has become a phenomenal success story. Primarily used as a 2nd year level text for students majoring in Management, the popularity and widespread use of the text has enabled us to gain further insight into developing this next edition to meet the needs of the market. Contemporary and Informed This text addresses contemporary topics in a depth that other textbooks have yet to achieve. Students are kept up-to-date with: Revised case studies and boxed features Daily OB news from around the country, through Press Gallery Updated coverage of concepts Written in clear, uncomplicated language The text has been commended for linking learning with work-related behaviour and its focus on essential concepts and smooth transition from theory to practice. Relevant and Engaging The examples are real, current and thought-provoking and relate to student's experience and interest. The book maintains a Pacific Rim focus whilst including international examples to ensure that students are exposed to OB on a broader scale.

The strategy team have technology ideas and frameworks that represent the best body of knowledge for creating real business value from technology, but only other teams not the strategy team can create the value, by broadly completing the strategy team's ideas. The delivery teams often ignore the ideas. Sometimes real conflict emerges. It feels like the other teams think differently in a deeply rooted way. Could differences in organisational culture be to blame? This dissertation examines the organisational culture perceived within BP's energy trading technology team known as Integrated Supply and Trading Digital Business (ISTDB). The focus is on the Strategy and Architecture team (S&A) who are responsible for assuring the long-term viability of technology delivered to the business by setting and enforcing technology standards with the technology delivery teams (Regional Businesses or RBs). S&A relies on influence and persuasion to build compliance with the standards as it does not have line management responsibility for the other teams. This research concludes the perception of organisational culture is different between S&A

and the RBs, and that it is a cause of conflict. The research also identifies that perceived organisational culture in ISTDB technology team as a whole is non-cohesive and not well aligned with the BP business strategy. This is a suboptimal arrangement for value creation. The author recommends both short-term and long-term shifts in working practices to correct this imbalance. The changes include a new emphasis on communications, new personnel hiring procedures and cross-cultural awareness training.

Appropriate for one-semester courses in Administrative Law at both college and university levels. Legal concepts and Canadian business applications are introduced in a concise, one-semester format. The text is structured so that five chapters on contracts form the nucleus of the course, and the balance provides stand-alone sections that the instructor may choose to cover in any order. We've made the design more reader-friendly, using a visually-appealing four-colour format and enlivening the solid text with case snippets and extracts. The result is a book that maintains the strong legal content of previous editions while introducing more real-life examples of business law in practice.

Organisational Behaviour Irwin/McGraw-Hill

This title engages students by bringing cutting edge organisational behaviour concepts closer to reality through the 'theory-practice link' approach. It connects theories to emerging workplace realities through hundreds of fascinating real-life stories from around the world.

The Seventh Edition of Canadian Organizational Behaviour is truly a "new and improved" McShane: new trim size, fresh new design, new co-author, reorganized table of contents, improved examples,

and even enhanced readability. The McShane brand is known for its cutting edge research and scholarship, recognized for its "for Canadians, by Canadians" approach to content, and respected for its firm anchoring of Canadian material within a global context. No other OB book offers the kind of comprehensive coverage in such an accessible, readable format. Canadian Organizational Behaviour continues to lead the way as the most innovative OB text on the market. McShane was the first OB textbook to include topics such as workplace emotions, appreciative inquiry, social identity theory, future search events, virtual teams, workaholism, and emotional intelligence. The innovation continues in the seventh edition with new and expanded coverage of topics such as employee engagement, resilience, four-drive theory, blogs and wikis, psychological harassment, learning orientation, Schwartz's values model, and separating socioemotional from constructive conflict. The pedagogical features have been completely overhauled to speak to new and emerging topics in OB worldwide, including the opening vignettes, the photo essays in each chapter, and many of the end-of-chapter exercises and end-of-part cases.

Organizational Behavior [Essentials] 2e offers the same quality of contemporary knowledge, excellent readability, and classroom support that has made the hardback book by the same author team one of the best-selling OB books around the world - but in a smaller package. It applies four fundamental principles: linking theory with reality, organizational behavior for everyone, contemporary theory foundation, and active learning support. McShane and Von Glinow have sliced out the extended or secondary topics so students can drill down to what is really essential. Although this book is less than two-thirds the length of their comprehensive hardback textbook, it doesn't skimp on classroom support. In this era of active learning, critical thinking, and outcomes-based teaching, these supplements are becoming more "essential" than ever.

From Parents to Partners Prentice Hall

The #1 Canadian and only 100% Canadian-authored Organizational Behaviour text has been thoroughly updated and finely tuned to reflect the continuous changes Canadian organizations face in today's business world. There's a revolution going on in the workplace. Knowledge is replacing infrastructure. Self-leadership is replacing direct supervision. Networks are replacing hierarchies. Virtual teams are replacing committees. Companies are looking for employees with emotional intelligence, not just technical smarts. Globalization has become the mantra of corporate survival. Co-workers aren't just down the hall; they're at the other end of an Internet connection. Canadian Organizational Behaviour (COB) is written with this revolution in mind
