Edouard

Manet PARIS

By The Numbers
Accessories to Modernity explores the ways in which feminine fashion accessories, such as cashmere shawls, parasols, fans, and handbags, became essential instruments in the bourgeois idealization of womanhood in nineteenth-century France. Considering how these fashionable objects were portrayed in fashion journals and illustrations,

as well as fiction, the book explores the histories and cultural weight of the objects themselves and offers fresh readings of works by Balzac, Flaubert, and Zola, some of the most widely read novels of the period. As social boundaries were becoming more and more fluid in the nineteenth century, one effort to impose order over the looming confusion came, in the

case of women, through fashion, and the fashion accessory thus became an ever more crucial tool through which social distinction could be created, projected, and maintained. Looking through the lens of fashion, Susan Hiner explores the interplay of imperialist expansion and domestic rituals, the assertion of privilege in the face of increasing social mobility,

gendering practices and their relation to social hierarchies, and the rise of commodity culture and woman's paradoxical status as both consumer and object within it. Through her close focus on these luxury objects, Hiner reframes the feminine fashion accessory as a key symbol of modernity that bridges the erotic and proper, the domestic and exotic, and mass production and the work

of art while making a larger claim about the "accessory" status—in terms of both complicity and subordination—of bourgeois women in nineteenth-century France. Women were not simply passive bystanders but rather were themselves accessories to the work of modernity from which they were ostensibly excluded. *PARIS By The Numbers* 2011 Supplement to 3d ed. called

Selected characteristics of occupations (physical demands, working conditions, training time) issued by Bureau of Employment Security. Modernism on Stage Articles on the history and culture of the French capital augment information on tourist attractions, hotels, restaurants, and shopping facilities throughout the city *Products and Priorities* Modernism on Stage restores

Serge Diaghilev's Ballets Russes to its central role in the Parisian art world of the 1910s and 1920s. During those years, the Ballets Russes' stage served as a dynamic forum for the interaction of artistic genres - dance, music and painting - in a mixed-media form inspired by Richard Wagner's Gesamtkunstwerk (total work of art). This interdisciplinary study combines a broad history

of Diaghilev's troupe with close readings of four ballets designed by canonical modernist artists: Pablo Picasso, Sonia Delaunay, Henri Matisse, and Giorgio de Chirico. Experimental both in concept and form, these productions redefine our understanding of the interconnected worlds of the visual and performing arts, elite culture and mass entertainment in Paris between the

two world wars. This volume traces the ways in which artists working with the Ballets Russes adapted painterly styles to the temporal, three-dimensional and corporeal medium of ballet. Analyzing interactions among sets, costumes, choreography, and musical accompaniment, the book establishes what the Ballets Russes' productions looked like

and how audiences reacted to them. Juliet Bellow brings dance to bear upon modernist art history as more than a source of imagery or ornament: she spotlights a complex dialogue among art forms that did not preclude but rather enhanced artists' interrogation of the limits of medium. **American Cloak and Suit Review** [Dictionary of Occupational Titles](#)
