*Interfaces* United Nations Publications UNIDIR

The South African War rounded off the British conquest of Southern Africa. Only now, a hundred years later, are some of the more baleful legacies of the war being addressed. This new history is an up-to-date account of the military struggle in South Africa including the whole web of miscalculations and shattered illusions that surrounded it which spread far beyond the battlefields.

**Contract Theory** Taylor & Francis

Reexamines the history of South Africa, traces the development of apartheid, and describes the anti-apartheid movement

**SIPRI Yearbook 1997** SSRC

This report analyzes the reenlistment part of the Reserve/National Guard force structure model. Analysis of the Defense Manpower Data Center's Reserve Component surveys, 1986, Reserve Components Common Personnel Data System, and civilian moonlighting wages predicted from the Bureau of the Census reveals that the U.S. Congress can increase reenlistment by increasing Reserve pay. Reenlistment can also be increased by assigning reservists to primary Military Occupational Specialties in which they are trained.

*The History of the SAS* Human Rights Watch

In this comprehensive study, 15 African experts describe and analyse the military budgetary processes and degree of parliamentary oversight and control in nine countries of Africa, spanning across all the continent's sub-regions. Each case study addresses a wide range of questions, such as the roles of the ministries of finance, budget offices, audit departments and external actors in the military budgetary processes, the extent of compliance with standard public expenditure management procedures, and how well official military expenditure figures reflect the true economic resources devoted to military activities in these countries.

Unequal Protection Coronet

In most countries, parliament has the constitutional mandate to both oversee and hold government to account. In light of the increased focus on good governance, academics and legislative strengthening practitioners are re-examining parliament's oversight function with a view to increasing public financial accountability, curbing corruption, and contributing to poverty reduction. This volume brings together research from many different perspectives and many different legislative settings worldwide. As the country case studies in section III demonstrate, the accountability mechanisms or oversight tools available to the legislature vary based on constitutionally defined powers of the legislature, institutional arrangements between the branches of government, divisions of authority between national, regional, and local governments, the degree of legitimacy conferred on the legislature, and the resources available to it. The budget process provides critical opportunities. Section II of this volume is devoted to examining budget oversight

from the formulation and approval of the budget, to implementation and the ex post examination of the public accounts. Special attention is also paid to mechanisms to assist parliaments such as Public Accounts Committees and independent parliamentary budget offices. This title will be of interest to parliamentarians and parliamentary staff, legislative strengthening practitioners, and students of legislative development.

*The Security-development Nexus* HSRC Press

This edition covers the comprehensive test ban treaty, armed conflict prevention, management and resolution, multilateral military-related export control measures and information on multilateral observers, peacekeeping and electoral operations.

*A Case for Intelligence Reforms in India* Bloomsbury USA

This book analyzes both indigenous and external efforts to develop African countries' individual and collective capacities to undertake peacekeeping operations. It chronicles the participation of African countries in United Nations peacekeeping operations and non-African-led multinational forces over the past 50 years. It also discusses the role of the United Nations in peacekeeping in the region and concludes with recommendations on how to make current approaches more effective--Publisher's description.

Truth and Reconciliation Commission of South Africa Report NDU Press

Drawing on the stories of the soldiers who were there, this dramatic history of the SAS is full of bravado. Forged to fight guerrillas in the sweltering jungles of Malaya... Ryan writes with the authority of a man familiar with every nuance of the regiment's tactics, training, weapons and equipment.' - Sunday Times Culture Tasked with storming mountain strongholds in the desert. Trained to hunt down the world's most wanted terrorists. This is the extraordinary story of 22 SAS. The history of the modern SAS is one of the great successes of post-war Britain. Since it was revived in 1950 to combat Communist insurgents, the Regiment has gone from strength to strength, fighting covert wars in Oman, Borneo, Northern Ireland, the Falklands, the Persian Gulf and beyond. In the process, it has become one of the most indispensable, and at times controversial, units in the British army Today, the SAS is regarded as the world's leading Special Forces unit, renowned for its demanding Selection course and its relentless ability to adapt to the changing nature of warfare. More than anything else, however, it is the determination and ingenuity of the SAS soldiers that has made the Regiment what it is today. Drawing on his extensive network of contacts and his own experiences, Chris Ryan tells the story of the men on the ground. From the earliest patrols in the Malayan jungle, through to the storming of the Iranian Embassy, the daring raids behind enemy lines in the Gulf War, and up-to-minute missions to capture or kill notorious terrorists - this is the gripping, no-holds-barred account of Regiment operations. Above all, it is a story of elite soldiers fighting, and triumphing, against seemingly impossible odds.

*Reflections on Democracy and Human Rights* DIANE Publishing

Originally published in 1968, this volume traces the history and growth of Apartheid in South Africa. The acts which enforced Apartheid - the Group Areas Act, Population and Registration Act are given

in full. The book also includes documents which reflected reaction to these measures: Parliamentary debates, newspaper reports and policy statements by the leading political parties and religious denominations. The documents are headed by a full historical and analytical introduction.

*Budgeting for the Military Sector in Africa* Truth and Reconciliation Commission

Fully updated edition of best-selling work of political analysis. Released to coincide with 20th anniversary of the end of Apartheid in South Africa.

*Crisis in the Congo* United Nations Publications UNIDIR

The mechanism of disarmament, demobilization, and reintegration (DDR) is widely acknowledged to be an essential component of successful peacekeeping, peace-building, postconflict management, and state-building. Security sector reform (SSR) has emerged as a promising though poorly understood tool for consolidating stability and establishing sovereignty after conflict. While DDR enables a state to recover the monopoly (or at least the preponderance) of force, SSR provides the opportunity for the state to establish the legitimacy of that monopoly. The essays in this book reflect the diversity of experience in DDR and SSR in various contexts. Despite the considerable experience acquired by the international community, the critical interrelationship between DDR and SSR and the ability to use these mechanisms with consistent success remain less than optimally developed. DDR and SSR are essential tools of modern statecraft, but their successful use is contingent upon our understanding of both the affinities and the tensions between them. These essays aim to excite further thought on how these two processes—DDR and SSR—can be implemented effectively and complementarily to better accomplish the shared goals of viable states and enduring peace.

*Managing Public Money* Springer

The Zambian military: trials, tribulations and hope

**Soldiers Without Politics** IDRC

Prior to the Six-Day War, Israel was a darling of the international left, vocally opposed to apartheid and devoted to building alliances with black leaders in newly independent African nations. South Africa, for its part, was controlled by a regime of Afrikaner nationalists who had enthusiastically supported Hitler during World War II. But after Israel's occupation of Palestinian territories in 1967, the country found itself estranged from former allies and threatened anew by old enemies. As both states became international pariahs, a covert—and lucrative—military relationship blossomed between these seemingly unlikely allies. Based on extensive archival research and exclusive interviews with former generals and high-level government officials in both countries, *The Unspoken Alliance* tells a troubling story of Cold War paranoia, moral compromises, and startling secrets.

*The Rollback of South Africa's Chemical and Biological Warfare Program* SIPRI Yearbook

Countries emerging from armed conflict or authoritarian rule face difficult questions about what to do with public employees who perpetrated past human rights abuses and the institutional structures that allowed such abuses to happen. *Justice as Prevention: Vetting Public Employees in Transitional Societies* examines the transitional reform known as "vetting"—the process by which abusive or corrupt employees are excluded from public office. More than a means of punishing individuals, vetting represents an important transitional justice measure aimed at reforming institutions and preventing the recurrence of abuses. The book is the culmination of a multiyear project headed by the International Center for Transitional Justice that included human rights lawyers, experts on

police and judicial reform, and scholars of transitional justice and reconciliation. It features case studies of Argentina, Bosnia and Herzegovina, the Czech Republic, El Salvador, the former German Democratic Republic, Greece, Hungary, Poland, and South Africa, as well as chapters on due process, information management, and intersections between other institutional reforms.

*Salut* Univ of California Press

A comprehensive introduction to contract theory, emphasizing common themes and methodologies as well as applications in key areas. Despite the vast research literature on topics relating to contract theory, only a few of the field's core ideas are covered in microeconomics textbooks. This long-awaited book fills the need for a comprehensive textbook on contract theory suitable for use at the graduate and advanced undergraduate levels. It covers the areas of agency theory, information economics, and organization theory, highlighting common themes and methodologies and presenting the main ideas in an accessible way. It also presents many applications in all areas of economics, especially labor economics, industrial organization, and corporate finance. The book emphasizes applications rather than general theorems while providing self-contained, intuitive treatment of the simple models analyzed. In this way, it can also serve as a reference for researchers interested in building contract-theoretic models in applied contexts. The book covers all the major topics in contract theory taught in most graduate courses. It begins by discussing such basic ideas in incentive and information theory as screening, signaling, and moral hazard. Subsequent sections treat multilateral contracting with private information or hidden actions, covering auction theory, bilateral trade under private information, and the theory of the internal organization of firms; long-term contracts with private information or hidden actions; and incomplete contracts, the theory of ownership and control, and contracting with externalities. Each chapter ends with a guide to the relevant literature. Exercises appear in a separate chapter at the end of the book.

*An African Peace Process* MIT Press

CD contains the entire text of the five volume set.

**Project Coast** Vintage

The origins and nature of the civil war between the Tutsi ruling minority and the Hutu majority in Burundi are the focus in this analysis. Chapters discuss the problems of establishing democracy, the weapon of genocide, and the role of Nelson Mandela as a mediator between the warring sides with the hope of promoting demilitarization and a sustained peace.

*A Treatise on State and Federal Control of Persons and Property in the United States* HSRC Publishers

The link between security and development has been rediscovered after 9/11 by a broad range of scholars. Focusing on Southern Africa, the *Security-Development Nexus* shows that the much debated linkage is by no means a recent invention. Rather, the security/development linkage has been an important element of the state policies of colonial as well as post-colonial regimes during the Cold War, and it seems to be prospering in new configurations under the present wave of democratic transitions. Contributors focus on a variety of contexts from South Africa, Mozambique and Namibia, to Zimbabwe and Democratic Congo; they explore the nexus and our understanding of security and development through the prism of peace-keeping interventions, community policing,

human rights, gender, land contests, squatters, nation and state-building, social movements, DDR programmes and the different trajectories democratization has taken in different parts of the region.
