The intrigue began with a triple homicide in a luxury apartment building just steps from the Champs-Élysées, in March 1887. A high-class prostitute and two others, one of them a child, had been stabbed to death—the latest in a string of unsolved murders targeting women of the Parisian demimonde. Newspapers eagerly reported the lurid details, and when the police arrested Enrico Pranzini, a charismatic and handsome Egyptian migrant, the story became an international sensation. As the case descended into scandal and papers fanned the flames of anti-immigrant politics, the investigation became thoroughly enmeshed with the crisis-driven political climate of the French Third Republic and the rise of xenophobic right-wing movements. Aaron Freundschuh's account of the "Pranzini Affair" recreates not just the intricacies of the investigation and the raucous courtroom trial, but also the jockeying for status among rival players—reporters, police detectives, doctors, and magistrates—who all stood to gain professional advantage and prestige. Freundschuh deftly weaves together the sensational details of the case with the social and political undercurrents of the time, arguing that the racially charged portrayal of Pranzini reflects a mounting anxiety about the colonial "Other" within France's own borders. Pranzini's case provides a window into a transformational decade for the history of immigration, nationalism, and empire in France.

**British Museum Catalogue of printed Books** Penguin UK  
The Anarchist Inquisition explores the groundbreaking transnational human rights campaigns that emerged in response to a brutal wave of repression unleashed by the Spanish state to quash anarchist activities at the turn of the twentieth century. Mark Bray guides readers through this tumultuous era—from backroom meetings in Paris and torture chambers in Barcelona, to international antiterrorist conferences in Rome and human rights demonstrations in Buenos Aires. Anarchist bombings in theaters

and cafes in the 1890s provoked mass arrests, the passage of harsh anti-anarchist laws, and executions in France and Spain. Yet, far from a marginal phenomenon, this first international terrorist threat had profound ramifications for the broader development of human rights, as well as modern global policing, and international legislation on extradition and migration. A transnational network of journalists, lawyers, union activists, anarchists, and other dissidents related peninsular torture to Spain's brutal suppression of colonial revolts in Cuba and the Philippines to craft a nascent human rights movement against the "revival of the Inquisition." Ultimately their efforts compelled the monarchy to accede in the face of unprecedented global criticism. Bray draws a vivid picture of the assassins, activists, torturers, and martyrs whose struggles set the stage for a previously unexamined era of human rights mobilization. Rather than assuming that human rights struggles and "terrorism" are inherently contradictory forces, *The Anarchist Inquisition* analyzes how these two modern political phenomena worked in tandem to constitute dynamic campaigns against Spanish atrocities. The Fall of Paris Copyright Office, Library of Congress (Amadeus). This book explores every facet of Parisian musical life in the glorious first half of the 19th century. Among the composers who chose Paris as a second home were Rossini, Meyerbeer, Bellini, Donizetti, Liszt, and Chopin. **HARDCOVER.** Poetry and Radical Politics in Fin de Siècle France Stanford University Press  
**CHOICE Outstanding Academic Title 2017** *Law, Crime and Deviance since 1700* explores the potential for the 'micro-study' approach to the history of crime and legal history. A selection of in-depth narrative micro-studies are featured to illustrate specific issues associated with the theme of crime and the law in historical context. The methodology used unpacks the wider historiographical and contextual issues related to each thematic area and facilitates discussion of the wider implications for the history of crime and social relations. The case studies in the volume cover a range of incidents relating to crime, law and deviant behaviour since 1700, from policing vice in Victorian

London to chain gang narratives from the southern United States. The book concludes by demonstrating how these narratives can be brought together to produce a more nuanced history of the area and suggests avenues for future research and study.

Opera in Paris, 1800-1850 Harvard University Press

Putting the latest theoretical thinking into empirical use, the author assesses how the function of the state and its citizens changed during the Paris Commune and Franco-Prussian War.

Parisians Yale University Press

This book examines Kropotkin as the man who became the chief exponent of the ideas of the European anarchist movement.

Fighters in the Shadows Harvard University Press

Hungarian composer Franz Liszt (1811-1886) was an anomaly. A virtuoso pianist and electrifying showman, he toured extensively throughout the European continent, bringing sold-out audiences to states of ecstasy while courting scandal with his frequent womanizing. Drawing on new, highly revealing documentary sources, including a veritable treasure trove of previously unexamined material on Liszt's Weimar years, best-selling author Oliver Hilmes shines a spotlight on the extraordinary life and career of this singularly dazzling musical phenomenon. Whereas previous biographies have focused primarily on the composer's musical contributions, Hilmes showcases Liszt the man in all his many shades and personal reinventions: child prodigy, Romantic eccentric, fervent Catholic, actor, lothario, celebrity, businessman, genius, and extravagant show-off. The author immerses the reader in the intrigues of the nineteenth-century European glitterati (including Liszt's powerful patrons, the monstrous Wagner clan) while exploring the true, complex face of the artist and the soul of his music. No other Liszt biography in English is as colorful, witty, and compulsively readable, or reveals as much about the true nature of this extraordinary, outrageous talent.

The Anarchist Inquisition Librairie Droz

A long list of canonical writers in Western literature have experienced incarceration and have subsequently written celebrated works about the imprisoned and the condemned. The

French tradition is no exception: writers who produced noteworthy texts while incarcerated or who later wrote about their experiences in prison are found on the literary-historical landscape from the medieval era through the twentieth century. Prison writing by inmates, former guards, chaplains, teachers, and doctors is firmly established as part of the fabric of popular culture and has long attracted the attention of culture critics and scholars. Nevertheless, scant analysis exists of the prison novel a literary genre that, as Andrew Sobanet argues in *Jail Sentences*, uses fiction as a documentary tool. Its narrative peculiarities, which are the main subjects of Sobanet's study, include the use of autobiographical and testimonial techniques to critique the penitentiary system. *Jail Sentences* is the definitive study of the legacy of the Western tradition of prison writing in twentieth-century French literature. Although Sobanet focuses primarily on French writers Victor Serge, Jean Genet, Albertine Sarrazin, and François Bon his keen sense of literary dialogue pulls into the orbit of his study an international corpus of work, from Dostoyevsky to Malcolm X. *Jail Sentences* arrives at a coherent definition of the genre, whose unique conventions stem from the innermost regions of our understanding of stories, truth, fiction, and belief.

French Autobiographical Writing 1900-1950 Bloomsbury Publishing

This book is a vivid account of life in Moscow, "the most Russian of Russian cities," in the year 1903, a year before Russia's disastrous war with Japan and two years before the momentous Revolution of 1905. Though the undercurrents of social change were running swiftly, the surface stability of the Tsarist regime show no indication of the turmoil ahead. The author, who is perhaps best known for his biography Tolstoy, describes Russian life through the eyes of a fictional young Englishman visiting a prosperous Russian merchant family. All facets of Moscow life are covered, from entertainment and night life to family life and the devotions of the Orthodox. We learn about Russia's factory workers and peasants, its soldiers and lawyers, its priests and its city officials, its Tsar and his entourage: what they do and what they wear, what they think and what they dream. Concluding chapters take our visitor to the famous fair at Nizhny-Novgorod, which was held every year from July 15 to September 10, and on a boat trip down the Volga.

The National Union Catalog, Pre-1956 Imprints Oxford University Press, USA

She then examines compulsory education in hygiene and gymnastics, the flourishing genre of women's medical and sexual self-help literature, and the commercialization of health, beauty, and fitness products - all contributing to new scientific and commercial representations of the female body.

Subject Index of the Modern Works Added to the Library of the British Museum in the Years 1906-1910 Tamesis Books

On Stendhal: "The study of human nature, 'the observation of the human heart and its passions, ' was his constant preoccupation. But where could he study the passions better than in himself? Though he lived exuberantly, submitting himself to experience... he went on incessantly writing down everything that happened to him just as it happened. he even led to perform some remarkable experiments upon himself. He laid claim to having been a soldier, a man of fortune, a great lover, a society wit, a diplomat, a traveler, and even, sometimes, a revolutionary conspirator. "Fifty years after his death he becomes one of the demigods of the world's letters, taking his place in the ranks of the great social writers who appeared toward the end of the last century. his manner of life itself has fascinated whole regiments of literary scholars in France, Italy and Germany in the last forty years." - Matthew Josephson, From the Introduction (1946) "Like Josephson's Victor Hugo, it is the best and most comprehensive English study of its subject, a careful collection of material, skillfully assembled and organized...When Freud read Stendhal's memoirs of his childhood and adolescence he called them 'a manifestation of psychological genius.' Stendhal, he saw, had been a Freudian some 70 years before Freud himself."-TIME Magazine (1946)

OEuvres Complètes de H. de Balzac Stanford University Press

Robert Gildea's penetrating history of France during World War II sweeps aside the French Resistance of a thousand clichés.

Gaining a true understanding of the Resistance means recognizing how its image has been carefully curated through a combination of French politics and pride, ever since jubilant crowds celebrated Paris's liberation in 1944.

**Daily Life in Russia under the Last Tsar** Lulu.com

The collapse of France in 1870 had an overwhelming impact - on Paris, on France and on the rest of the world. People everywhere

saw Paris as the centre of Europe and the hub of culture, fashion and invention. Suddenly France, not least to the disbelief of her own citizens, was gripped in the vice of the Iron Chancellor's armies and forced to surrender on humiliating terms. In this brilliant study of the Siege and its aftermath, Alistair Horne evokes the high drama of those ten fantastic months and the spiritual agony which Paris and the Parisians suffered. *The Fall of Paris* is the first part of the trilogy including *To Lose a Battle* and *The Price of Glory* (already available in Penguin).

Napoléon Bonaparte JHU Press

This book, first published in 1974, analyses the problems and mechanics of the Revolutionary movement in the army during and after the French Revolution. It charts the transition of the French army from the Revolutionary force of 1815 to the counter-revolutionary army which in June 1848 led the suppression of the European Revolutionary movement. By defining the scope of political of political unrest in the army between 1815 and 1848 - its causes, patterns and remedies - the author demonstrates that republican political ideology had only a limited appeal for the military and served more as a rallying point for discontent with the conditions of service.

Amour et Raison - L'Appel de l'Enfance Routledge

Issued in conjunction with the exhibition of the same title held at the Metropolitan Museum of Art, New York, 18 Sept. - 31 Dec. 2000.

**The Battle against Anarchist Terrorism** Psychology Press

The author of the acclaimed "The Discovery of France" delves into the secrets of the City of Light, revealed in the lives of the great, the near-great, and the forgotten.

**For Health and Beauty** Routledge

An extensive and authoritative study that examines the economic, social and political crises of France during the revolution of 1848. Using analysis of original sources and recent research, Fortescue here offers new interpretations of events leading up to and after the second republic was declared. Looking at Louis Philippe's overthrow, the proclamation of manhood suffrage and the unexpected success of the right-wing in the subsequent elections, this book evaluates the political history of France in 1848 and the French political culture of the time. This should be read by all students of nineteenth century history, political scientists and all those with an interest in the historical

development of French political culture.

*Book News Monthly* JHU Press

Poetry and Radical Politics in fin de siecle France explores the relations between poetry and politics in France in the last decade of the 19th century. The period covers perhaps the most important developments in modern French poetry: from the post-Commune climate that spawned the 'decadent' movement, through to the (allegedly) ivory-towered aestheticism of Mallarme and the Symbolists. In terms of French politics, history and culture, the period was no less dramatic with the legacy of the Commune, the political and financial instability that followed, the anarchist campaigns, the Dreyfus affair, and the growth of 'Action francaise'. Patrick McGuinness argues that the anarchist politics of many Symbolist poets is a reaction to their own isolation, and to poetry's anxious relations with the public: too 'difficult' to be widely read, Symbolist poets react to the loss of poetry's

centrality among the arts by delegating their radicalism to prose: they can call, in prose, for the overthrow of the state and support anarchist bombers, while at the same time writing poems about dribbling fountains and dazzling sunsets for each other. This study demonstrates the connections between the anti-Symbolist reaction of the *ecole romane* of 1891 (in which Charles Maurras first made his name), and the far-right cultural politics of Action francaise in the early 20th century. It also redefines many of the debates about late 19th-century French poetry by putting an argument forward for the political engagement(s) of the Symbolists while the French 'intellectuel' as a national icon was being forged. McGuinness insists on profound continuities between the end of the 19th century and the beginning of the 20th in terms of cultural politics, literary debate, and poetic theory, and shows how politics is to be found in unexpected ways in the least political-seeming literature of the period. The famous line by Peguy, that everything begins in mysticism and ends in

politics, has an appealing sweep and grace. This book has its own more modest and specific version of a similar journey: it begins in Mallarme and ends in Maurras.

*Women for Hire* Yale University Press

Alain Corbin depicts prostitution in nineteenth-century France not as a vice, crime, or disease, but as a well-organized business.

Corbin reveals how the brothel served the sex industry in the same way that the factory served manufacturing: it provided an institution for the efficient and profitable sale of services.

**Stendhal Or the Pursuit of Happiness** Jorge Pinto Books Inc. Sweeping in scope and insightfully written, the second volume of this biography of Napoleon Bonaparte covers the great man's political and military career in great detail, including the many betrayals he faced in the latter stage of his Empire, while also discussing his personal life while Emperor and his exiles, culminating in his death at age 52. (Volume II of II)
