This atlas presents the results of cases of structural chromosome aberrations based on the currently available methods of analysis for different types of abnormality. It particularly focuses on which spectrum should be chosen when combining the different techniques to achieve the best method of diagnosis in individual cases, for example direct preparation of cells and mitoses, short or long-time cell culture, fluorescence in situ hybridization (FISH), analysis of interphases, microarray or DNA sequencing. Generally it has to be taken into account, that the development of new and improved investigation methods is forthcoming. Thus, by improvement of diagnostic possibilities new fields of investigation arise, and special groups of patients with cytogenetic analyses can be re-analysed under new research questions.

Claudia Focks Avec la collaboration de Ulrich März et Ingolf Hosbach. Ouvrage de référence, l'Atlas d'acupuncture présente de façon exhaustive les douze méridiens principaux, les points des huit merveilleux vaisseaux, tout comme de nombreux points hors méridiens. Chaque point est présenté selon le même modèle, permettant de saisir d'un seul regard sur une même page les informations cliniques les plus importantes. L'objectif est ainsi d'aider le praticien dans sa recherche de la localisation correcte du point, de l'angle d'insertion de l'aiguille, ainsi que des principales actions et indications. Les caractéristiques particulières de chaque point sont aussi systématiquement présentées. Le contenu de cette nouvelle édition a été entièrement actualisé en vue d'améliorer son caractère didactique et d'apporter plus de sécurité pour le traitement. Les très nombreuses illustrations sont composées de photographies cliniques, de schémas, ainsi que de pictogrammes mettant en évidence l'angle et la profondeur d'insertion de l'aiguille, tout comme des alertes, qu'il s'agisse d'éviter des organes ou une puncture douloureuse. L'état de la recherche scientifique a également été mis à jour, tenant compte des dernières données sur l'acupuncture et son efficacité. L'Atlas d'acupuncture, en dressant un panorama complet de cette pratique, constitue un ouvrage incontournable pour les acupuncteurs, qu'ils soient confirmés ou en formation.

**Manual Therapy for the Cranial Nerves E-Book** Lippincott Williams & Wilkins

New title by the author of *Cosmetic Acupuncture!* Energetics is an area of growing interest and importance in acupuncture. Acupuncture treatment aims to correct the imbalance of energy, or qi; energetics is a method of diagnosing which aspects of qi are out of balance. Energetics in Acupuncture provides a straightforward diagnostic method of identifying which aspects of the qi are out of balance and therefore what acupuncture treatment is required. One symptom can be caused by many different imbalances of organs and it is essential for the therapist to correctly diagnose the problem before commencing treatment. Once the correct diagnosis is made, the relevant points can be treated with appropriate techniques. The book takes a logical approach to diagnosis and provides relevant lines of questioning and reasoning. FEATURES \*Treatments are described for over 80 different diseases. \*Innovative visual 'towers' show clearly what an energy imbalance looks like \* Case studies illustrate imbalanced states.

This accessible, up-to-date resource guide leads you through the foundations and techniques of acupressure and acupuncture. Acupressure and acupuncture can relieve painful conditions such as migraine headaches, lower back pain, joint disorders, carpal tunnel syndrome, asthma, allergies, stress, nausea, heart problems, and many others. Today, most health-care plans cover these treatments, making them more popular than ever. Filled with insights into the history of these two age-old therapies, *The Healing Power of Acupressure and Acupuncture* helps readers choose when to see a licensed therapist, and even provides information about doing certain treatments at home. Matthew D. Bauer delves deeply into the traditions and remarkable benefits of acupressure and acupuncture, explains the many benefits of both, describes techniques for self-treatment, and illustrates how Chinese healing can augment modern Western medicine.

**NEUROSENSITIVE FACIAL CUPPING** Elsevier Health Sciences

Develop the skills needed to proficiently evaluate a patient's present functional status and create effective range of motion and muscle strength goals. This updated fourth edition of Hazel Clarkson's *Musculoskeletal Assessment: Joint Range of Motion, Muscle Testing, and Function: A Research-Based Practical Guide* offers a straight forward student-friendly approach to learning the clinical evaluation of Joint Range of Motion (ROM), Muscle Length, and Manual Muscle Testing (MMT). Now in striking

full color, the fourth edition provides the right amount of detail students need to prepare for effective practice. Each chapter is devoted to a separate anatomical region to help Physical Therapists and Occupational Therapists-in-training hone their understanding of pertinent surface and deep anatomy. The clear narrative outlines the steps taken in the assessment techniques and interpreting the results and is enhanced by a strong art program with meticulously created color illustrations and photographs that demonstrate patient and therapist positions and instrument placement.

Los símbolos, las rayas y los signos se han utilizado desde la antigüedad como portadores de poder y fuerza en numerosas culturas como método autocurativo. Por ejemplo, los pueblos indígenas han utilizado símbolos y signos para revitalizar su ánimo y sus energías. Asimismo, sobre el famoso hombre de hielo, Ötzi se han encontrado líneas tatuadas sobre zonas del cuerpo dañadas, y el escáner del supermercado reconoce los artículos por el código de barras El ingeniero Erich Körbler creó el sistema curativo holístico denominado Nueva Homeopatía, que es la curación con símbolos, por el que el organismo de las personas, los animales y las plantas, de forma similar a la homeopatía, pueden ser influidos de forma saludable mediante las formas geométricas y los signos a nivel corporal, mental y espiritual. Los símbolos actúan como antenas sobre la piel y, pintados sobre la piel con distintas combinaciones entre sus trazos pueden transformar el sistema energético del organismo; se pintan sobre zonas doloridas o sobre los puntos de acupuntura (pero sin utilizar agujas como en la medicina tradicional china) para que actúen y ejerzan el proceso de curación. El lector, conocerá, entre otros temas: □ Combinación del poder del agua y los símbolos para transferir información. □ Terapia de los chakras y el aura para curar alergias, hongos e intolerancias. □ Efectos energéticos de los colores en viviendas o lugares de trabajo. □ Las rayas de energía: meridianos, para neutralizar enfermedades o trastornos mentales.
