 In the Andes, indigenous knowledge

systems based on the relationships between different beings, both earthly and heavenly, animal and plant, have been central to the organization of knowledge since precolonial times. The legacies of colonialism and the continuance of indigenous cultures make the Andes a unique place from which to think about art and social change as ongoing, and as encompassing more than an exclusively human perspective. Beyond Human revises established readings of the avant-gardes in Peru and Bolivia as humanizing and historical. By presenting fresh readings of canonical authors like César Vallejo, José María Arguedas, and Magda Portal, and through analysis of newer artist-activists like Julieta Paredes, Mujeres Creando Comunidad, and Alejandra Dorado, Daly

argues instead that avant-gardes complicate questions of agency and contribute to theoretical discussions on vital materialisms: the idea that life happens between animate and inanimate beings—human and non-human—and is made sensible through art. Queer Cosmos is a contemporary, fresh look into astrology, personal insight, and relationships for the LGBTQ+ community! Astrologer Colin Bedell from Cosmopolitan and QueerCosmos.com

has brought together fifteen years of research, client interviews, and astrological mastery to create a spiritual guide for not only resistance and resilience, but also personal insights and relationship compatibility. Unpacking complex issues like shame and worthiness, *Queer Cosmos* explores Astrology as an antidote to feelings of hopelessness and provides language for authentic practices of self-expression. Leaving behind gender-normative pronouns and assumptions, *Queer Cosmos* explores more nuanced patterns of the archetypal energies expressed in queer experiences. After all, the only way to forge deep, meaningful relationships is to first forge a relationship with yourself. Drawing on research from experts in the field like Dr.

Harville Hendrix, Brene Brown, and Esther Perel, Bedell goes deep to provide practical relational theory that can empower readers to find successful and healthy relationships.

Llegamos a esta publicación a partir del trabajo conjunto, que compartimos durante tres años, en el marco del Proyecto "Recuperación de procesos de co-construcción interactoral del conocimiento, en el marco de una pluriversalidad cognitiva, para la transformación social en el campo del hábitat". En este sentido, la expresión de los ocho trabajos que se conforman este libro, es el resultado de reflexiones que acontecen desde las perspectivas de los autores en articulación con el camino recorrido en forma conjunta. Si bien

cada trabajo posee una temática abordada desde la libertad de las autorías, los enfoques de cada uno de ellos, tanto cognitivos como ideológicos, plantean una visión común que habita la palabra a partir de experiencias situadas en territorios y junto a comunidades específicas, han expresado de diversas maneras la voluntad por permitirse pensar en otras condiciones y con otros elementos que pongan en juego nuevas relaciones y formas de vinculación con las realidades múltiples que contecen. Reflexionar acerca de los modos de comprender y conocer el mundo, desde una perspectiva diferente a la hegemónica, ha sido el motor de marcha de este grupo de personas que presentan hoy sus textos en esta publicación; siendo las temáticas

abordadas y compartidas todas diferentes, es indudable que, en todos los casos, la manifestación por una libertad cognitiva y de expresión, hace lugar a las reflexiones teóricas en articulación constante con experiencias situadas que de un modo u otro atraviesan la vida personal de cada uno de los compañeros de este libro, dando lugar a prácticas que bucean en nuevas formas de hacer investigación y de hacer política.

Un retrato inmejorable de la historia del país, desde la llegada de san Patricio a la isla pagana de Irlanda, la resistencia a la cristianización o el enfrentamiento con los vikingos, hasta los conflictos entre los príncipes de Irlanda y los reyes de

Inglaterra. Para comprender la vida de un país es necesario conocer su historia; esa es la oportunidad que brinda esta Novela a través de historias ficticias y personajes inventados. Un viaje imaginario a través de los siglos, con parada en los hechos más significativos del devenir de Irlanda, que se engarzan perfectamente a la ficción y que arribará, en este primer volumen de los dos concebidos por Rutherford, hasta el siglo XVI. Una magnífica epopeya sobre el amor y la guerra, la vida de una familia y una intriga a lo largo de once siglos en Irlanda. La crítica ha dicho... «Un guiso exquisito con el punto justo de especias.» Sunday Telegraph «Suspense, aventuras de piratas y relatos apasionados de amor y guerra.» The Times

Publications McGraw Hill Professional Pope Francis confuses many observers because his papacy does not fit neatly into any pre-established classificatory schemes. To gain a deeper appreciation of Francis's complicated papacy, this volume proposes that an interdisciplinary approach, fusing concepts derived from moral theology and the social sciences, may properly situate Pope Francis as a global political entrepreneur. The chapters in this volume ask what difference it makes that he is the first pope from Latin America, how and why different countries in the world respond to him, how his understanding of scripture informs his ideas on economic, social, and environmental policy, and where politics meets theology under Francis. In

the end, this volume seeks to provide a more robust understanding of the enigmatic papacy of Francis.

Majismo, a cultural phenomenon that embodied the popular aesthetic in Spain from the second half of the eighteenth century, served as a vehicle to “regain” Spanish heritage. As expressed in visual representations of popular types participating in traditional customs and wearing garments viewed as historically Spanish, majismo conferred on Spanish “citizens” the pictorial ideal of a shared national character. In *Framing Majismo*, Tara Zanardi explores nobles’ fascination with and appropriation of the practices and types associated with majismo, as well as how this connection cultivated

the formation of an elite Spanish identity in the late 1700s and aided the Bourbons’ objective to fashion themselves as the legitimate rulers of Spain. In particular, the book considers artistic and literary representations of the majo and the maja, purportedly native types who embodied and performed uniquely Spanish characteristics. Such visual examples of majismo emerge as critical and contentious sites for navigating eighteenth-century conceptions of gender, national character, and noble identity. Zanardi also examines how these bodies were contrasted with those regarded as “foreign,” finding that “foreign” and “national” bodies were frequently described and depicted in similar ways. She isolates and uncovers

the nuances of bodily representation, ultimately showing how the body and the emergent nation were mutually constructed at a critical historical moment for both.
