 Tracing the little-known history of the first underground Catholic church in China, noted scholar D. E. Mungello illuminates the period between the imperial expulsion of foreign Christian missionaries in 1724 and their return with European colonialism in the 1800s. Few realize that this was the first time in which Chinese, rather than Europeans, came to control their own church as Chinese clergy and lay leaders maintained communities of clandestine

Catholics. Mungello follows the church in a time of persecution, focusing in particular on the role of Chinese clergy and lay leaders in maintaining communities of clandestine Catholics during the eighteenth century. He highlights the parallels between the 1724 and 1951 expulsions of missionaries from China, the first driven by a Chinese imperial system and the second by a revolutionary Communist government. The two periods also reflected foreign bias against the Chinese priests and laity and questions about their spiritual depth and constancy. However, Mungello shows that the historical record of incarcerated and interrogated Christians reveals a spiritually inspired resistance to government oppression and a willingness to suffer, often to the point of martyrdom.

This expanded second edition of *Contemporary European Theatre Directors* is an ambitious and unprecedented overview of many of the key directors working in European theatre over the past 30 years. This book is a vivid account of the vast range of work undertaken in European theatre during the last three decades, situated lucidly in its artistic, cultural, and political context. Each chapter discusses a particular director, showing the influences on their work, how it has developed over time, its reception, and the complex relation it has with its social and cultural context. The volume includes directors living and working in Italy, Germany, France, Spain, Poland, Russia, Romania, the UK, Belgium, Switzerland, and the Netherlands, offering a broad and international picture of the

directing landscape. Now revised and updated, *Contemporary European Theatre Directors* is an ideal text for both undergraduate and postgraduate directing students, as well as those researching contemporary theatre practices, providing a detailed guide to the generation of directors whose careers were forged and tempered in the changing Europe following the end of the Cold War.

Almost three centuries have passed since the oldest manuscript of *The Thousand and One Nights* arrived in Europe. Since then, the *Nights* have occupied the minds of scholars world-wide, in particular the questions of origin, composition, language and literary form. In this book, Muhsin Mahdi, whose critical edition of the text brought so much praise, explores the complex literary history of the *Nights*, bringing to fruition the search for the archetype that constituted the core of the surviving editions, and treating the fascinating story of the growth of the collection of stories that we now know as *The Thousand and One Nights*.

In 1585, at the height of Jesuit missionary activity in Japan, which was begun by Francis Xavier in 1549, Luis Frois, a long-time missionary in Japan, drafted the earliest systematic comparison of Western and Japanese cultures. This book constitutes the first critical English-language edition of the 1585 work, the original of which was discovered in the Royal Academy of History in Madrid after the Second World War. The book provides a translation of the text, which is not a continuous narrative, but rather more than 600 distichs or brief couplets on subjects such as gender, child rearing, religion, medicine, eating, horses, writing, ships and seafaring, architecture, and music and drama. In addition, the book includes a substantive introduction and other editorial material to explain the background and also to make comparisons with present-day Japanese life. Overall, the book represents an important primary source for understanding a particularly challenging period of history and its connection to contemporary Europe and Japan.

Until the modern period, the reproduction of written texts required manual transcription from earlier versions. This cumbersome process inevitably created errors and made it increasingly difficult to identify the original readings among multiple copies. Lachmann's method—associated with German classicist Karl Lachmann (1793-1851)—aimed to provide scholars with a scientific, systematic procedure to standardize the transmission of ancient texts. Although these guidelines for analysis were frequently challenged, they retained a paradigmatic value in philology for many years. In 1963, Italian philologist Sebastiano Timpanaro became the first to analyze in depth the history and limits of Lachmann's widely established theory with his publication, *La genesi del metodo del Lachmann*. This important work, which brought Timpanaro international repute, now appears in its first English translation. *The Genesis of Lachmann's Method* examines the origin, development, and validity of Lachmann's model as well as its association with Lachmann himself. It remains a fundamental work on the history and methods of philology, and Glenn W. Most's translation makes this seminal study available to an English-speaking audience. Revealing Timpanaro's extraordinary talent as a textual critic and world-class scholar, this book will be indispensable to classicists, textual critics, biblical scholars, historians of science, and literary theorists.

This volume contains ten papers selected from among those presented at the annual Free University Stemmatalogical Colloquia 1990-93. Current issues in (automated) stemmatology, paleography and codicology are addressed from contemporary theoretical perspectives. All papers focus on new directions in textuology and manuscript affiliation, and especially on the use of computer science in this field. The theoretical implications of computer-assisted stemma construction are explored. In combination with achievements in codicology and paleography, these investigations allow for dealing with the major problems in textuology: extreme complex and entangled manuscript traditions. Following an introductory chapter, part 1 presents six theoretical contributions on stemmatology, and part 2 deals with

auxiliary fields in textuology, such as codicology and paleography. In part 3 applications of the previously developed fields are presented.

Performance as Research (PAR) is characterised by an extraordinary elasticity and interdisciplinary drive. Performance as Research: Knowledge, Methods, Impact celebrates this energy, bringing together chapters from a wide range of disciplines and eight different countries. This volume focuses explicitly on three critical, often contentious themes that run through much discussion of PaR as a discipline: Knowledge - the areas and manners in which performance can generate knowledge Methods - methods and methodologies for approaching performance as research Impact - a broad understanding of the impact of this form of research These themes are framed by four essays from the book's editors,

contextualising their interrelated conversations, teasing out common threads, and exploring the new questions that the contributions pose to the field of performance. As both an intervention into and extension of current debates, this is a vital collection for any reader concerned with the value and legitimacy of performance as research.

The Soul of Anna Klane Rowman & Littlefield

Cecilia Valdés is arguably the most

important novel of 19th century Cuba. Originally published in New York City in 1882, Cirilo Villaverde's novel has fascinated readers inside and outside Cuba since the late 19th century. In this new English translation, a vast landscape emerges of the moral, political, and sexual depravity caused by slavery and colonialism. Set in the Havana of the 1830s, the novel introduces us to Cecilia, a beautiful light-skinned mulatta, who is being pursued by the son of a Spanish slave trader, named Leonardo. Unbeknownst to the two, they are the children of the same father. Eventually Cecilia gives in to Leonardo's advances; she becomes pregnant and gives birth to a baby girl. When Leonardo, who gets bored with Cecilia after a while, agrees to marry a white upper class woman, Cecilia vows revenge. A mulatto friend and suitor of hers kills Leonardo, and Cecilia is thrown into prison as an accessory to the crime. For the contemporary reader Helen Lane's masterful translation of Cecilia Valdés opens a new window into the intricate problems of race relations in Cuba and the Caribbean. There are the elite social circles of European and New World Whites, the rich culture of the free people of color, the class to which Cecilia herself belonged, and then the slaves, divided among themselves between those who were born in Africa and those who were born in the New World, and those who worked on the sugar plantation and those who worked in the households of the rich people in Havana. Cecilia Valdés thus presents a vast portrait of sexual, social, and racial oppression, and the lived experience of Spanish colonialism in Cuba.
