This Critical Perspectives on Language Teaching Materials brings together a collection of critical voices on the subject of language teaching materials for use in English, French, Spanish, German and Content and Language Integrated Learning (CLIL) classrooms. It is firmly located within the 'critical turn' in Applied Linguistics and seeks to build on the growing body of work in this vein. Collectively the authors take it as axiomatic that the politics of representation and identity, and issues of ideology and commercialism cannot be neglected in any serious study of language teaching materials. Rather, it sees these issues as central. The book draws on research carried out in the UK, Spain, North America and Brazil, and is aimed at language teachers, teacher educators, students, researchers, materials writers and those working in the materials publishing industry.

This is the newly updated SECOND EDITION! This version has been fully re-checked for accuracy and re-formatted to make it even more user-friendly, following feedback after a full year of classroom use by thousands of teachers across the world. Spanish Sentence Builders is a workbook aimed at beginner to pre-intermediate students co-authored by two modern languages educators with over 40 years of extensive classroom experience between the two, both in the UK and internationally. This 'no-frills' book contains 19 units of work on very popular themes, jam-packed with graded vocabulary-building, reading, translation, retrieval practice and writing activities. Key vocabulary, lexical patterns and structures are recycled and interleaved throughout. Each unit includes: 1) A sentence builder modelling the target constructions; 2) A set of vocabulary building activities; 3) A set of narrow reading texts exploited through a range of tasks focusing on both the meaning and structural levels of the text; 4) A set of retrieval-practice translation tasks; 5) A set of writing tasks targeting essential micro-skills such as spelling, lexical retrieval, syntax, editing and communication of meaning. Based on the Extensive Processing Instruction (E.P.I.) principle that learners learn best from comprehensible and highly patterned input flooded with the target linguistic features, the authors have carefully designed each and every text and activity to enable the student to process and produce each item many times over. This occurs throughout each unit of work as well as in smaller grammar, vocabulary and question-skills micro-units located at regular intervals in the book, which aim at reinforcing the understanding and retention of the target grammar, vocabulary and question patterns.
