A telling look at today's "reverse" migration of white, middle-class expats from north to south, through the lens of one South American city. Even as the "migration crisis" from the Global South to the Global North rages on, another, lower-key and yet important migration has been gathering pace in recent years—that of mostly white, middle-class people moving in the opposite direction. Gringolandia is that rare book to consider this phenomenon in all its complexity. Matthew Hayes focuses on North Americans relocating to Cuenca, Ecuador, the country's third-largest city and a UNESCO World Heritage Site. Many began relocating there after the 2008 economic crisis. Most are self-professed "economic refugees" who sought offshore retirement, affordable medical care, and/or a lower-cost location. Others, however, sought adventure marked by relocation to an unfamiliar cultural environment and to experience personal growth through travel, illustrative of contemporary cultures of aging. These life projects are often motivated by a desire to escape economic and political conditions in North America. Regardless of their individual motivations, Hayes argues, such North-South migrants remain embedded in unequal and unfair global social relations. He explores the repercussions on the host country—from rising prices for land and rent to the reproduction of colonial patterns of domination and subordination. In Ecuador, heritage preservation and tourism development reflect the interests and culture of European-descendent landowning elites, who have most to benefit from the new North-South migration. In the process, they participate in transnational gentrification that marginalizes popular traditions and nonwhite mestizo and indigenous informal workers. The contrast between the migration experiences of North Americans in Ecuador and those of Ecuadorians or others from such regions of the Global South in North America and Europe demonstrates that, in fact, what we face is not so much a global "migration crisis" but a crisis of global social justice.

If you've ever dreamed of casting off your worldly possessions and traveling to your heart's content, this story about two intrepid seniors will inspire you no matter your age. Michael and Debbie Campbell felt they had one more adventure in them before considering retirement in the traditional sense, so they filled two rolling duffel bags with life's essentials (including their own pillows) and hit the road. Three years later, having sold their home in Seattle, their "Senior Nomad" lifestyle has no end in sight. Ride along as they share tales of living full-time in Airbnbs in over 50 countries and pay tribute to the many hosts who not only helped them live daily life, but also offered unique opportunities to experience their cities. From the barber's chair in Dublin and the dentist's chair in Split, to a wild motorcycle ride in Athens, a peek behind the Soviet Curtain in Transnistria, and the demise of a chicken for dinner in Marrakech, hosts made the Campbell's dream of adventure come true. Discover how Debbie and Michael find their next Airbnb, how they get there, and the many

ways they enjoy their new city just as the locals do. Learn their tips and tricks for using Airbnb and how they get the most out of each stay, all while spending little more than they would have spent settled into their rocking chairs in Seattle.

Exploit your offshore status to build a robust investment portfolio. Most of the world's 200 million expats float in stormy seas. Few can contribute to their home country social programs. They're often forced to fend for themselves when they retire. The Global Expatriate's Guide to Investing is the world's only book showing expats how to build wealth overseas with index funds. Written by bestselling author, Andrew Hallam, it's a guide for everyone, no matter where they are from. Warren Buffett says you should buy index funds. Nobel prize winners agree. But dangers lurk. Financial advisors overseas can be hungry wolves. They don't play by the same set of rules. They would rather earn whopping commissions than follow solid financial principles. The Global Expatriate's Guide To Investing shows how to avoid these jokers. It explains how to find an honest financial advisor: one that invests with index funds instead of commission paying windfalls. You don't want an advisor? Fair enough. Hallam shows three cutting edge index fund strategies. He compares costs and services of different brokerages, whether in the U.S. or offshore. And he shows every nationality how to invest in the best products for them. Some people want stability. Some want strong growth. Others want a dash of both. This book also answers the following questions: How much money do I need to retire? How much should I be saving each month? What investments will give me both strong returns, and safety? The Global Expatriate's Guide To Investing also profiles real expats and their stories. It shows the mistakes and successes that they want others to learn from. It's a humorous book. And it demonstrates how you can make the best of your hard-earned money.

The Sell-Your-House, See-the-World Life! Reunited after thirty-five years and wrestling a serious case of wanderlust, Lynne and Tim Martin decided to sell their house and possessions and live abroad full-time. They've never looked back. With just two suitcases, two computers, and each other, the Martins embark on a global adventure, taking readers from sky-high pyramids in Mexico to Turkish bazaars to learning the contact sport of Italian grocery shopping. But even as they embrace their new home-free lifestyle, the Martins grapple with its challenges, including hilarious language barriers, finding financial stability, and missing the family they left behind. Together, they learn how to live a life—and love—without borders. Recently featured on NPR's Here and Now and in

the New York Times, *Home Sweet Anywhere* is a road map for anyone who dreams of turning the idea of life abroad into a reality.

Millionaire Expat HarperCollins UK

A practical action guide for financial independence and early retirement from the popular Our Next Life blogger. In today's work culture, we're expected to hustle around the clock. But what if you could escape the traditional path and get on one that doesn't require working full-time until age 65? What if you could wake up every day without an alarm clock and do the things you love most? Tanja Hester and her husband Mark left their crazed careerist lifestyle to live their dream life in Lake Tahoe, retiring early from high-stress careers. Now Tanja will help you map out a customized plan for freedom and make it easy to succeed, whether you're good at math and budgeting -- or not! *Work Optional* is more than just a financial plan: it's a plan for your whole life -- designed by you, not by an employer or clients. Tanja walks you through envisioning your dream life, accounting for variables such as health care and children, protecting yourself from recessions and future unknowns, and achieving a purpose-filled early retirement, semi-retirement, or career intermission with completely doable, non-penny-pinching steps. You can live a happier, more meaningful life, free from the daily grind. Regardless of where you are in your career, *Work Optional* will get you there.

Start a successful business mid-life When you think of someone launching a start-up, the image of a twenty-something techie probably springs to mind. However, Gen Xers and Baby Boomers are just as likely to start businesses and reinvent themselves later in life. *Never Too Old to Get Rich* is an exciting roadmap for anyone age 50+ looking to be their own boss and launch their dream business. This book provides up-to-date resources and guidance for launching a business when you're 50+. There are snappy profiles of more than a dozen successful older entrepreneurs, describing their inspirational journeys launching businesses and nonprofits, followed by Q&A conversations, and pull-out boxes containing action steps. The author walks you through her three-part fitness program: guidelines for becoming financially fit, physically fit, and spiritually fit, before delving more deeply into how would-be entrepreneurs over 50 can succeed. • Describes how you can find capital to start your own business • Offers encouraging stories of real people who have become their own bosses and succeeded as entrepreneurs • Written by PBS Next Avenue's entrepreneur expert, Kerry Hannon • Teaches you how to start your own business *Never Too Old to Get Rich* is the ideal book for older readers looking to pursue new business ventures later in life.

This book is "an overseas journey that will warm your heart and make you smile." After early retirement, in 2017 Pam and her husband Dave packed four suitcases and one beer cooler full of insulin and boarded a one-way flight to Italy for a year-long dream trip. The dream was to live like locals, find out-of-the-way restaurants, and watch the seasons change. But behind every dream, there is the reality. Their journey came with challenges-homesickness, managing Pam's Type 1 diabetes, dodging political unrest in Barcelona, and navigating water restrictions in Egypt. Despite the challenges, along the way, they find a little adventure.

NOW COMPLETELY UPDATED to reflect the changes in tax legislation, health insurance, and the new investment realities. In this "highly valuable resource" (Publishers Weekly, starred review) Quinn "provides simple, straightforward" (The New York Times) solutions to the universal retirement dilemma—how to make your limited savings last for life—covering mortgages, social security, income investing, annuities, and more! Will you run out of money in your older age? That's the biggest worry for people newly retired or planning to retire. Fortunately, you don't have to plan in the dark. Jane Bryant Quinn tells you how to squeeze a higher income from all your assets—including your social security account (get every dollar you're entitled to), a pension (discover whether a lump sum or a lifetime monthly income will pay you more), your home equity (sell, rent, or take a reverse mortgage?), savings (how to use them safely to raise your monthly income), retirement accounts (invest the money for growth in ways that let you sleep at night), and—critically—how much of your savings you can afford to spend every year without running out. There are easy ways to figure all this out. Who knew? Quinn also shows you how to evaluate your real risks. If you stick with super-safe investment choices, your money might not last and your lifestyle might erode. The same might be true if you rely on traditional income investments. Quinn rethinks the meaning of "income investing," by combining reliable cash flow during the early years of your retirement with low-risk growth investments, to provide extra money for your later years. Odds are, you'll live longer than you might imagine, meaning that your savings will stretch for many more years than you might have planned for. With the help of this book, you can turn those retirement funds into a "homemade" paycheck that will last for life.

Hoyt Barber is a tax-haven guru and offshore-funds protection specialist. You can use his hands-on

methods to reduce or even eliminate your US taxes by moving your capital to Belize, the Cook Islands, Saint Kitts and Nevis, Panama, Dominica or other tax havens - and by relinquishing your US citizenship. Despite his solid financial counsel, Barber takes up a lot of space with discordant political predictions of America's fiscal doom that may strain your patience, credulity and patriotism. getAbstract finds his asset protection strategies potentially interesting, but we'd point out that as usual the opinions expressed in the abstract are those of the author alone.
