Yurei Attack! is a nightmare-inducing one-stop guide to Japan's traditional ghosts and spirits.

Surviving encounters with angry ghosts and sexy spectres. Haunted places. Dangerous games and how to play them. And more importantly, a guided tour of what awaits in the world of the dead.

Yurei is the Japanese word for "ghost." It's as simple as that. They are the souls of dead people, unable--or unwilling--to shuffle off this mortal coil. Yurei are many things, but "friendly" isn't the first word that comes to mind. Not every yurei is dangerous, but they are all driven by emotions so uncontrollably powerful that they have taken on a life of their own: rage, sadness, devotion, a desire for revenge, or even the firm belief that they are still alive. This book, the third in the authors' bestselling Attack! series, after Yokai Attack! and Ninja Attack! gives detailed information on 39 of

the creepiest yurei stalking Japan, along with detailed histories and defensive tactics should you have the misfortune to encounter one. Japanese ghosts include: Oiwa, The Horror of Yotsuya Otsuyu, The Tale of the Peony Lantern The Lady Rokujo, The Tale of Genji Isora, Tales of Moonlight and Rain Orui, The Depths of Kasane Book 3 of 3 in the Yokai Attack! series. Others include Ninja Attack! and Yokai Attack!.

Cities and Solidarities charts the ways in which the study of individuals and places can revitalise our understanding of urban communities as dynamic interconnections of solidarities in medieval and early modern Europe. This volume sheds new light on the socio-economic conditions, the formal and informal institutions, and the strategies of individual town dwellers that explain the similarities and differences in the organisation and functioning of urban communities in pre-modern Europe. It considers how communities within cities and towns are constructed and reconstructed, how interactions amongst members of differing groups created social and economic institutions, and how urban communities reflected a sense of social cohesion. In answering these questions, the contributions combine theoretical frameworks with new digital methodologies in order to provoke further discussion into the fundamental nature of urban society in this key period of change. The essays in this collection demonstrate the complexities of urban societies in pre-modern Europe, and will make fascinating reading for students and scholars of medieval and early modern urban history.

The North Downs Way National Trail is a 130 mile (208km) between the high downland of Farnham and the historic city of Dover on the Kent coast. The route is described in 11 day stages from west to east with an optional detour via Canterbury. Step-by-step route descriptions are fully illustrated with colour photographs and extracts from OS 1:50,000 mapping for every stage. The guidebook comes with a separate map booklet of 1:25,000 scale OS maps showing the full route of the North Downs Way. Clear step-by-step route descriptions in the guide link together with the map booklet at each stage along the Way, and the compact format is conveniently sized for slipping into a jacket pocket or the top of a rucksack. The North Downs Way is one of the easier national trails with a modest number of steep (but short) ascents and descents and long sections with no noticeable height gain or loss. Several historic sites including Neolithic burial chambers, Roman roads and Norman churches are passed and much of the route follows The Pilgrims' Way.
