Here is New York Lonely Planet

'Beautifully crafted, and so finely balanced that she holds the reader right up against the tender humanity of her characters.' Eimear McBride 'A writer of rare elegance and beauty, Caldwell doesn't just get inside her characters' minds. She perches in the precarious chambers of their hearts, telling their stories truthfully and tenderly.' Independent Multitudes is the beautiful debut story collection from the acclaimed, prize-winning novelist and playwright Lucy Caldwell. From Belfast to London and back again the ten stories that comprise Caldwell's first collection explore the many facets of growing up - the pain and the heartache, the tenderness and the joy, the fleeting and the formative - or 'the drunkenness of things being various'. Stories of longing and belonging, they culminate with the heart-wrenching and unforgettable title story.

If they are to survive, cities need healthy chunks of the world's ecosystems to persist; yet cities, like parasites, grow and prosper by local destruction of these very ecosystems. In this absorbing and wide-ranging book, Eldredge and Horenstein use New York City as a microcosm to explore both the positive and the negative sides of the relationship between cities, the environment, and the future of global biodiversity. They illuminate the mass of contradictions that cities present in embodying the best and the worst of human existence. The authors demonstrate that, though cities have voracious appetites for resources such as food and water, they also represent the last hope for conserving healthy remnants of the world's ecosystems and species. With their concentration of human beings, cities bring together centers of learning, research, government, finance, and media—institutions that increasingly play active roles in solving environmental problems. Some of the topics covered in *Concrete Jungle*: --The geological history of the New York region, including remnant glacial features visible today --The early days of urbanization on Manhattan Island, focusing on the history of Central Park, Collect Pond, and Manhattan Square --The history of early railway lines and the development of New York's iconic subway system --The problem of producing enough safe drinking water for an ever-expanding population --Prominent civic institutions, including universities, museums, and zoos

"In the middle of the night, a chain reaction of noises wakes the residents of an urban apartment building, and then lulls them back to sleep"--

Bowling Alone: Revised and Updated Harper Collins

Longlisted for the Brooklyn Public Library Book Prize in Nonfiction From award-winning New York Times reporter Sam Roberts, the story of the world's most exceptional city, told through 31 little-known yet pivotal inhabitants who helped define it. In Sam Roberts's pulsating history of the world's most exceptional metropolis, greet the city anew through thirty-one unique New Yorkers you've probably never heard of—just in time for the city's 400th birthday. The New Yorkers introduces the first woman to appear nude in a motion picture, becoming the face of Civic Fame as Miss Manhattan; the couple whose soirée ended the Gilded Age with an embarrassing bang; and the husband and wife who invented the modern celebrity talk show. It reveals the victim of the city's first recorded murder in the seventeenth century and the high school dropout who slashed crime rates in the twentieth. The notorious mobster who was imperiously banished from the city

and the woman who successfully sued a bus company for racial discrimination a century before Rosa Parks. Some deserved monuments, but their grandeur was overlooked or forgotten. Others shepherded the city through its perpetual evolution, but discreetly. Virtually all have vanished into New York's uncombed history. The New Yorkers is a living biography of the world's greatest city, and no one knows New York better than Sam Roberts—or is better at bringing its history to life.

Brick City is a novel that tells the hopes and dreams of Ginger, a forty-three-year-old single mother of three teenaged children: nineteen-year-old son, Ralph; sixteen-year-old daughter, Susan; and fourteen-year-old daughter, Helen. In spite of Gingers dubious past, she was able to eke out a fair living for her children. Things were going well in her household until Nick, a one-time gangster, was released from prison and arrived to collect an old debt from a longtime friend. His method of collecting left Gingers hopes and dreams shattered and the little community of Brick City devastated.

AIA Guide to New York City Simon & Schuster

Winner of the Believer Book Award The triumphant follow-up collection to *The Game of Boxes*, winner of the James Laughlin Award Catherine Barnett's tragicomic third collection, *Human Hours*, shuttles between a Whitmanian embrace of others and a kind of rapacious solitude. Barnett speaks from the middle of hope and confusion, carrying philosophy into the everyday. Watching a son become a young man, a father become a restless beloved shell, and a country betray its democratic ideals, the speakers try to make sense of such departures. Four lyric essays investigate the essential urge and appeal of questions that are "accursed," that are limited—and unanswered—by answers. What are we to do with the endangered human hours that remain to us? Across the leaps and swerves of this collection, the fevered mind tries to slow—or at least measure—time with quiet bravura: by counting a lover's breaths; by remembering a father's space-age watch; by envisioning the apocalyptic future while bedding down on a hard, cold floor, head resting on a dictionary. *Human Hours* pulses with the absurd, with humor that accompanies the precariousness of the human condition.

Untold Story Lonely Planet Kids

Hailed as "extraordinarily learned" (New York Times), "blithe in spirit and unerring in vision," (New York Magazine), and the "definitive record of New York's architectural heritage" (Municipal Art Society), Norval White and Elliot Willensky's book is an essential reference for everyone with an interest in architecture and those who simply want to know more about New York City. First published in 1968, the AIA Guide to New York City has long been the definitive guide to the city's architecture. Moving through all five boroughs, neighborhood by neighborhood, it offers the most complete overview of New York's significant places, past and present. The Fifth Edition continues to include places of historical importance—including extensive coverage of the World Trade Center site--while also taking full account of the construction boom of the past 10 years, a boom that has given rise to an unprecedented number of new buildings by such architects as Frank Gehry, Norman Foster, and Renzo Piano. All of the buildings included in the Fourth Edition have been revisited and re-photographed and much of the commentary has been re-written, and coverage of the outer boroughs--particularly Brooklyn--has been expanded. Famed skyscrapers and historic landmarks are detailed, but so, too, are firehouses, parks, churches, parking garages, monuments, and bridges. Boasting more than 3000 new photographs, 100 enhanced maps, and thousands of short and spirited entries, the guide is arranged geographically by borough, with each borough divided into sectors and then into neighborhood. Extensive commentaries describe the character of the divisions. Knowledgeable, playful, and beautifully illustrated, here is the ultimate guided tour of New York's architectural treasures. Acclaim for earlier editions of the AIA Guide to New York City: "An extraordinarily learned, personable exegesis of our metropolis. No other American or, for that matter, world city can boast so definitive a one-volume guide to its built environment." -- Philip Lopate, New York Times "Blithe in spirit and unerring in vision." -- New York Magazine "A definitive record of New York's architectural heritage... witty and helpful pocketful which serves as arbiter of architects, Baedeker for boulevardiers, catalog for the curious, primer for preservationists, and sourcebook to students. For all who seek to know of New York, it is here. No home should be without a copy." -- Municipal Art Society "There are two reasons the guide has entered the pantheon of New York books. One is its encyclopedic nature, and the other is its inimitable style--'smart, vivid, funny and opinionated' as the architectural historian Christopher Gray once summed it up in pithy W & W fashion." -- Constance Rosenblum, New York Times "A book for architectural gourmands and gastronomic gourmets." -- The Village Voice

While to many, LEGO bricks are 'just a toy', to an ever-growing army of fans they provide a challenging and enjoyable modelling medium. These fans, calling themselves 'AFOLs', or Adult Fans of LEGO, have taken it upon themselves to recreate local landmarks using just the bricks that you may find at a local store. LEGO models created by adult fans, however, don't resemble those that many people created as a child. Created by masters of their medium, these fabulously detailed models may contain thousands of pieces - or perhaps just a handful. Either way, the talented artists have an intimate knowledge of every piece and colour available. Skilfully choosing the ideal piece to recreate a well-known landmark, they may create a model indistinguishable from the real thing, or evoke the spirit of a building in just a few small pieces. In fact, landmarks and cityscapes - from the New York skyline to the Sagrada Familia, London's St Pancras and the amazing towers of Beijing and Hong Kong - have long been a source of inspiration for LEGO builders. In this book, LEGO artist Warren Elsmore takes us on a world tour and explores more than 12 global cities and their iconic structures. Each city is examined and recreated in LEGO form. Comprising amazing artwork, exploratory photographs and detailed breakdowns, Brick City looks

at the essence of what makes an urban landscape recognizable.

Brick City Faber & Faber

An "extraordinary" debut memoir of first love, identity, and self-discovery among a group of friends who became family in a Montauk summer house (Andrew Solomon, National Book Award winner). They call Montauk the end of the world, a spit of land jutting into the Atlantic. The house was a

ramshackle split-level set on a hill, and each summer thirty-one people would sleep between its thin walls and shag carpets. Against the moonlight the house's octagonal roof resembled a bee's nest. It was dubbed The Hive. In 2013, John Glynn joined the share house. Packing his duffel for that first Memorial Day Weekend, he prayed for clarity. At twenty-seven, he was crippled by an all-encompassing loneliness, a feeling he had carried in his heart for as long as he could remember. John didn't understand the loneliness. He just knew it was there. Like the moon gone dark. Out East is the portrait of a summer, of The Hive and the people who lived in it, and John's own reckoning with a half-formed sense of self. From Memorial Day to Labor Day, The Hive was a center of gravity, a port of call, a home. Friendships, conflicts, secrets and epiphanies blossomed within this tightly woven friend group and came to define how they would live out the rest of their twenties and beyond. Blending the sand-strewn milieu of George Howe Colt's *The Big House* with the radiant aching of Olivia Liang's *The Lonely City*, *Out East* is a keenly wrought story of love and transformation, longing and escape in our own contemporary moment. "An unforgettable story told with feeling and humor and above all with the razor-sharp skill of a delicate and highly gifted writer." -- André Aciman, New York Times bestselling author of *Call Me by Your Name* "Out East is full of intimacy and hope and frustration and joy, an extraordinary tale of emotional awakening and lacerating ambivalence, a confession of self-doubt that becomes self-knowledge." -- Andrew Solomon, National Book Award winner An Entertainment Weekly Best Book of May 2019A Time magazine Best Book of May 2019Cosmopolitan Best Book of May 2019An O, the Oprah Magazine Best LGBTQ Book of 2019

Why were so many authors of the greatest works of literature consumed by alcoholism? In *The Trip* to Echo Spring, Olivia Laing takes a journey across America, examining the links between creativity and drink in the overlapping work and lives of six extraordinary men: F. Scott Fitzgerald, Ernest Hemingway, Tennessee Williams, John Berryman, John Cheever and Raymond Carver. From Hemingway's Key West to Williams's New Orleans, Laing pieces together a topographical map of alcoholism, and strips away the tangle of mythology to reveal the terrible price creativity can exert.

Fat City is a vivid novel of allegiance and defeat, of the potent promise of the good life and the desperation and drink that waylay those whom it eludes. Stockton, California is the setting: the Lido Gym, the Hotel Coma, Main Street lunchrooms and dingy bars, days like long twilights in houses obscured by untrimmed shrubs and black walnut trees. When two men meet in the ring -- the retired boxer Billy Tully and the newcomer Ernie Munger - their brief bout sets into motion their hidden fates, initiating young Ernie into the company of men and luring Tully back into training. In a dispassionate and composed voice, Gardner narrates their swings of fortune, and the plodding optimism of their manager Ruben Luna, as he watches the most promising boys one by one succumb to some undefined weakness; still, "There was always someone who wanted to fight."
