In this engrossing book, Hollis Clayson provides the first description and analysis of French artistic interest in women prostitutes, examining how the subject was treated in the art of the 1870s and 1880s by such avant-garde painters as Cézanne, Degas, Manet, and Renoir, as well as by the academic and low-brow painters who were their contemporaries. Clayson not only illuminates the imagery of prostitution—with its contradictory connotations of disgust and fascination—but also tackles the issues and problems relevant to women and men in a patriarchal society. She discusses the conspicuous sexual commerce during this era and the resulting public panic about the deterioration of social life and civilized mores. She describes the system that evolved out of regulating prostitutes and the subsequent rise of clandestine prostitutes who escaped police regulation and who were condemned both for blurring social boundaries and for spreading sexual licentiousness among their moral and social superiors. Clayson argues that the subject of covert prostitution was especially attractive to vanguard painters because it exemplified the commercialization and the ambiguity of modern life.

Blue White Red London, Heinemann
“Mabanckou dazzles with technical dexterity and emotional depth” in his debut novel, winner of the Grand Prix Littéraire de l’Afrique Noire (Publishers Weekly, starred review). This tale of wild adventure reveals the dashed hopes of Africans living between worlds. When Moki returns to his village from France wearing designer clothes and affecting all the manners of a Frenchman, Massala-Massala, who lives the life of a humble peanut farmer after giving up his studies, begins to dream of following in Moki’s footsteps. Together, the two take wing for Paris, where Massala-Massala finds himself a part of an underworld of out-of-work undocumented immigrants. After a botched attempt to sell metro passes purchased with a stolen checkbook, he winds up in jail and is deported. *Blue White Red* is a novel of postcolonial Africa where young people born into poverty dream of making it big in the cities of their former colonial masters. Alain Mabanckou’s searing commentary on the lives of Africans in France is cut with the parody of African villagers who boast of a son in the country of Digol. Praise for Alain Mabanckou and *Blue White Red*

Discovering French Simon and Schuster

From the New York Times bestselling author of *My Paris Kitchen* and *L'Appart*, a deliciously funny, offbeat, and irreverent look at the city of lights, cheese, chocolate, and other confections. Like so many others, David Lebovitz dreamed about living in Paris ever since he first visited the city and after a nearly two-decade career as a pastry chef and cookbook author, he finally moved to Paris to start a new life. Having crammed all his worldly belongings into three suitcases, he arrived, hopes high, at his new apartment in the lively Bastille neighborhood. But he soon discovered it's a different world en France. From learning the ironclad rules of social conduct to the mysteries of men's footwear, from shopkeepers who work so hard not to sell you anything to the etiquette of working the right way around the cheese plate, here is David's story of how he came to fall in love with—and even understand—this glorious, yet sometimes maddening, city. When did he realize he had morphed into un vrai parisien? It might have been when he found himself considering a purchase of men's dress socks with cartoon characters on them. Or perhaps the time he went to a bank with 135 euros in hand to make a 134-euro payment, was told the bank had no change that day, and thought it was completely normal. Or when he found himself dressing up to take out the

garbage because he had come to accept that in Paris appearances and image mean everything. Once you stop laughing, the more than fifty original recipes, for dishes both savory and sweet, such as Pork Loin with Brown Sugar-Bourbon Glaze, Braised Turkey in Beaujolais Nouveau with Prunes, Bacon and Bleu Cheese Cake, Chocolate-Coconut Marshmallows, Chocolate Spice Bread, Lemon-Glazed Madeleines, and Mocha-Crème Fraîche Cake, will have you running to the kitchen for your own taste of Parisian living.

Now available in paperback, *Days on Earth*--originally published in 1988 (Yale University Press)--traces the dance career and artistic development of one of the founders of American modern dance. In this biography of dance pioneer Doris Humphrey, Marcia B. Siegel follows Humphrey's career from her days with the Denishawn Company (among fellow students like Martha Graham) to her creative partnership with Charles Weidman to her tenure as artistic director of protégé José Limon's dance company. Siegel's reconsideration and description of Humphrey's dances, including many that are no longer performed, sheds important light on this pathbreaking dancer/choreographer.

Horace G. Danner's *A Thesaurus of English Word Roots* is a compendium of the most-used word roots of the English language. As Timothy B. Noone notes in his foreword: "Dr. Danner's book allows you not only to build up your passive English vocabulary, resulting in word recognition knowledge, but also gives you the rudiments for developing your active English vocabulary, making it possible to infer the meaning of words with which you are not yet acquainted. Your knowledge can now expand and will do so exponentially as your awareness of the roots in English words and your corresponding ability to decode unfamiliar words grows apace. This is the beginning of a fine mental linguistic library: so enjoy!" In *A Thesaurus of English Word Roots*, all word roots are listed alphabetically, along with the Greek or Latin words from which they derive, together with the roots' original meanings. If the current meaning of an individual root differs from the original meaning, that is listed in a separate column. In the examples column, the words which contain the root are then listed, starting with their prefixes, for example, *dysacusia*, *hyperacusia*. These root-starting terms then are followed by terms where the root falls behind the word, e.g., *acouesthesia* and *acoumeter*. These words are followed by words where the root falls in the middle or the end, as in such terms as *bradyacusia* and *odynacusis*. In this manner, *A Thesaurus of English Word Roots* places the word in as many word families as there are elements in the word. This work will interest linguists and philologists and anyone interested in the etymological aspects of English language.

Their Eyes Were Watching God Getty Publications

The Optical Unconscious is a pointed protest against the official story of modernism and against the critical tradition that attempted to define modern art according to certain sacred commandments and self-fulfilling truths. The account of modernism presented here challenges the vaunted principle of "vision itself." And it is a very different story than we have ever read, not only because its insurgent plot and characters rise from below the calm surface of the known and law-like field of modernist painting, but because the voice is unlike anything we have heard before. Just as the artists of the optical unconscious assaulted the idea of autonomy and visual mastery, Rosalind Krauss abandons the historian's voice of objective detachment and forges a new style of writing in this book: art history that insinuates diary and art theory, and that has the gait and tone of fiction. *The Optical Unconscious* will be deeply vexing to modernism's standard-bearers, and to readers who have accepted the foundational principles on which their aesthetic is based. Krauss also gives us the story that Alfred Barr, Meyer Shapiro, and Clement Greenberg repressed, the story of a small, disparate group of artists who defied modernism's most cherished self-descriptions, giving rise to an unruly, disruptive force that persistently haunted the field of modernism from the 1920s to the 1950s

and continues to disrupt it today. In order to understand why modernism had to repress the optical unconscious, Krauss eavesdrops on Roger Fry in the salons of Bloomsbury, and spies on the toddler John Ruskin as he amuses himself with the patterns of a rug; we find her in the living room of Clement Greenberg as he complains about "smart Jewish girls with their typewriters" in the 1960s, and in colloquy with Michael Fried about Frank Stella's love of baseball. Along the way, there are also narrative encounters with Freud, Jacques Lacan, Georges Bataille, Roger Caillois, Gilles Deleuze, and Jean-François Lyotard. To embody this optical unconscious, Krauss turns to the pages of Max Ernst's collage novels, to Marcel Duchamp's hypnotic Rotoreliefs, to Eva Hesse's luminous sculptures, and to Cy Twombly's, Andy Warhol's, and Robert Morris's scandalous decoding of Jackson Pollock's drip pictures as "Anti-Form." These artists introduced a new set of values into the field of twentieth-century art, offering ready-made images of obsessional fantasy in place of modernism's intentionality and unexamined compulsions.

Hélène Cixous -- author, playwright and French feminist theorist -- is a key figure in twentieth-century literary theory. *Stigmata* brings together her most recent essays for the first time. Acclaimed for her intricate and challenging writing style, Cixous presents a collection of texts that get away -- escaping the reader, the writers, the book. Cixous's writing pursues

authors such as Stendhal, Joyce, Derrida, and Rembrandt, da Vinci, Picasso -- works that share an elusive movement in spite of striking differences. Along the way these essays explore a broad range of poético-philosophical questions that have become characteristic of Cixous' work: * love's labours lost and found * feminine hours * autobiographies of writing * the prehistory of the work of art *Stigmata* goes beyond theory, becoming an extraordinary writer's testimony to our lives and times.

Jean-Nicolas-Louis Durand (1760-1834) regarded the *Précis of the Lectures on Architecture* (1802-5) and its companion volume, the *Graphic Portion* (1821), as both a basic course for future civil engineers and a treatise. Focusing the practice of architecture on utilitarian and economic values, he assailed the rationale behind classical architectural training: beauty, proportionality, and symbolism. His formal systematization of plans, elevations, and sections transformed architectural design into a selective modular typology in which symmetry and simple geometrical forms prevailed. His emphasis on pragmatic values, to the exclusion of metaphysical concerns, represented architecture as a closed system that subjected its own formal language to logical processes. Now published in English for the first time, the *Précis* and the *Graphic Portion* are classics of architectural education. The Francophonie and the Orient Crown

Secrets the Jesuits don't want Christians to know Out of Europe, a voice is heard from the secular world that documents historically the same information told by ex-priests. The author exposes the Vatican's involvement in world politics, intrigues, and the fomenting of wars throughout history. It appears, beyond any doubt, that the Roman Catholic institution is not a Christian church and never was. The poor Roman Catholic people have been betrayed by her and are facing spiritual disaster. Paris shows that Rome is responsible for the two great world wars. Author Edmond Paris explains why he wrote this book... "The public is practically unaware of the overwhelming responsibility carried by the Vatican and its Jesuits in the start of the two world wars -- a situation which may be explained in part by the gigantic finances at the disposition of the Vatican and its Jesuits, giving them power in so many spheres, especially since the last conflict." "In fact, the part they took in those tragic events has hardly been mentioned until the present time, except by apologists eager to disguise it. It is with the aim of rectifying this and establishing the true facts that we present in this and other books the political activity of the Vatican during the contemporary -- activity which mutually concerns the Jesuits." "This study is based on irrefutable archive documents, publications from well-known political personalities, diplomats, ambassadors and eminent writers, most of whom are Catholics, even attested by the imprimatur."

This booklet proposes to approach the teaching of French from a multicultural perspective. The introductory section

presents the reasons for recommending this orientation and the pedagogical advantages to be derived from it, emphasizing the fact that French serves as a link between several Francophone nations and their widely different cultures. Accordingly, a multicultural approach is viewed as more realistic than one that focuses solely on France, and more likely to broaden the appeal of the language as a tool for international communication. The second section offers a panorama of the Francophone regions of the world, with brief introductions to the historical and linguistic contexts into which the French language and culture were thrust, and with a list of basic readings on Francophone literature. The third section presents various activities for teaching about the cultures of the French-speaking world, arranged by level of language proficiency. The fourth section suggests ways of making or collecting instructional materials. The fifth section, a selected bibliography and guide to resources, lists sources of print and audiovisual materials for each Francophone region, including addresses of U.S. distributors and of Francophone nations' embassies in Washington. Oscar and the Lady in Pink Verso Books

France is a Pacific power, with three territories, a military presence, and extensive investments. Once seen by many as a colonial interloper in the South Pacific, by the early 2000s, after it ended nuclear testing in French Polynesia and negotiated transitional Accords responding to independence demands in New Caledonia, France seems to have become generally accepted as a regional partner, even if its efforts concentrate on its own territories rather than the independent

island states. But France's future in the region has yet to be secured. By 2014 it is to have handed over a set of agreed autonomies to the New Caledonian government, before an independence referendum process begins. Past experience suggests that a final resolution of the status of New Caledonia will be divisive and could lead once again to violent confrontations. In French Polynesia, calls continue for independence and for treatment under UN decolonisation procedures, which France opposes. Other island leaders are watching, so far putting faith in the Noumea Accord, but wary of the final stages. The issues and possible solutions are more complex than the French Pacific island population of 515,000 would suggest. Combining historical background with political and economic analysis, this comprehensive study offers vital insight into the intricate history -- and problematic future -- of several of Australia's key neighbours in the Pacific and to the priorities and options of the European country that still rules them. It is aimed at policy-makers, scholars, journalists, businesspeople, and others who want to familiarise themselves with the issues as France's role in the region is redefined in the years to come.

" Salvator Rosa (1615–1673) was a colorful and controversial Italian painter,

talented musician, a notable comic actor, a prolific correspondent, and a successful satirist and poet. His paintings, especially his rugged landscapes and their evocation of the sublime, appealed to Romantic writers, and his work was highly influential on several generations of European writers. James S. Patti analyzes Rosa's tremendous influence on French writers, chiefly those of the nineteenth century, such as Stendhal, Honoré de Balzac, Victor Hugo, George Sand, and Théophile Gautier. Arranged in chronological order, with numerous quotations from French fiction, poetry, drama, art criticism, art history, literary history, and reference works, *Salvator Rosa in French Literature* forms a narrative account of the reception of Rosa's life and work in the world of French letters. James S. Patti, professor emeritus of French at Vanderbilt University, is the author of *Dürer in French Letters*. He lives in Nashville, Tennessee.
