A concise introduction to the basics of open access, describing what it is (and isn't) and showing that it is easy, fast, inexpensive, legal, and beneficial. The Internet lets us share perfect copies of our work with a worldwide audience at virtually no cost. We take advantage of this revolutionary opportunity when we make our work “open access”: digital, online, free of charge, and free of most copyright and licensing restrictions. Open access is made possible by the Internet and copyright-holder consent, and many authors, musicians, filmmakers, and other creators who depend on royalties are understandably unwilling to give their consent. But for 350 years, scholars have written peer-reviewed journal articles for impact, not for money, and are free to consent to open access without losing revenue. In this concise introduction, Peter Suber tells us what open access is and isn't, how it benefits authors and readers of research, how we pay for it, how it avoids copyright problems, how it has moved from the periphery to the mainstream, and what its future

may hold. Distilling a decade of Suber's influential writing and thinking about open access, this is the indispensable book on the subject for researchers, librarians, administrators, funders, publishers, and policy makers.

“Gary Greenberg has become the Dante of our psychiatric age, and the DSM-5 is his Inferno.”

—Errol Morris Since its debut in 1952, the American Psychiatric Association’s Diagnostic and Statistical Manual of Mental Disorders has set down the “official” view on what constitutes mental illness. Homosexuality, for instance, was a mental illness until 1973. Each revision has created controversy, but the DSM-5 has taken fire for encouraging doctors to diagnose more illnesses—and to prescribe sometimes unnecessary or harmful medications. Respected author and practicing psychotherapist Gary Greenberg embedded himself in the war that broke out over the fifth edition, and returned with an unsettling tale. Exposing the deeply flawed process behind the DSM-5’s compilation, *The Book of Woe* reveals how the manual turns suffering into a commodity—and made the APA its own biggest beneficiary.

An American pilot is shot down at the border between North and South Korea. While his team-mates cover up the whole incident so as to avoid a diplomatic disaster, Buck Danny is in charge of bringing the pilot back to the US. In the heart of the hostile jungle, a lethal game of hide-and-seek begins. Can Buck Danny find the American pilot before the North Koreans do?

Balbuzar The Secrets of the Black Sea

Cet ouvrage est introduit par une préface très documentée, réalisée par Christelle et Bertrand Pissavy-Yvernault, auteurs de "La Véritable Histoire de Spirou" et contient les histoires suivantes : "Sur le rail", "Valhardi et les Rubens", "Les diamants artificiels", "Valhardi détective", "Le roc du diable" et "À la poursuite de Max Clair". Voici réunies dans leur intégralité les 199 planches de "Valhardi" qu'Eddy Paape dessina lorsque Jijé lui confia la série pour se consacrer à Emmanuel, la biographie du Christ. Alors débutant, il réussit à fédérer autour de lui les fans du personnage qui, depuis sa création en 1941, l'avaient élevé au rang de vedette du journal. Jean Doisy, le créateur de la série, continue de lui imaginer des aventures pleines de rebondissements, avant de passer le relais au très jeune Yvan Delporte, futur rédacteur en chef du Journal de Spirou, et scénariste pour Peyo, Franquin, Will, etc. Si, pour Eddy Paape, ces pages de Valhardi furent véritablement ses premières planches de bande dessinée, il en fut de même pour Yvan Delporte : "À la poursuite de Max Clair" constitue son tout premier scénario.

Bosnia, 1995. Serb forces are encircling Sarajevo and defying UN peacekeeping troops, even shooting at patrolling US Navy fighters. International politics keep American hands tied. After Tuckson disobeys orders and attacks a Serb position, he is disciplined by being sent to a secret base, where other pilots from the US military—including Buck—are training for a mysterious mission in unmarked planes. But this Ghost Squadron is not the only unofficial fighting force in the area...

From the physician behind the wildly popular NutritionFacts website, *How Not to Die* reveals the groundbreaking scientific evidence behind the only diet that can prevent and reverse many of the causes of disease-related death. The vast majority of premature deaths can be prevented through simple changes in diet and lifestyle. In *How Not to Die*, Dr. Michael Greger, the internationally-renowned nutrition expert, physician, and founder of NutritionFacts.org, examines the fifteen top causes of premature death in America—heart disease, various cancers, diabetes, Parkinson's, high blood pressure, and more—and explains how nutritional and lifestyle interventions can sometimes trump prescription pills and other pharmaceutical and surgical approaches, freeing us to live healthier lives. The simple truth is that most doctors are good at treating acute illnesses but bad at preventing chronic disease. The fifteen leading causes of death claim the lives of 1.6 million Americans annually. This doesn't have to be the case. By following Dr. Greger's advice, all of it backed up by strong scientific evidence, you will learn which foods to eat and which lifestyle changes to make to live longer. History of prostate cancer in your family? Put down that glass of milk and add flaxseed to your diet whenever you can. Have high blood pressure? Hibiscus tea can work better than a leading hypertensive drug—and without the side effects. Fighting off liver disease? Drinking coffee can reduce liver inflammation. Battling breast cancer? Consuming soy is associated with prolonged survival. Worried about heart disease (the number 1 killer in the United States)? Switch to a whole-food, plant-based diet, which has been repeatedly shown not just to prevent the disease but often stop it in its tracks. In addition to showing what to eat to help treat the top fifteen causes of death, *How Not to Die* includes Dr. Greger's Daily Dozen—a checklist of

the twelve foods we should consume every day. Full of practical, actionable advice and surprising, cutting edge nutritional science, these doctor's orders are just what we need to live longer, healthier lives.

Augustus Melmotte is a financier with a mysterious past. He is rumoured to have Jewish ancestry. Trollope was an English novelist of the Victorian era. Among his best-known works is a series of novels collectively known as the Chronicles of Barsetshire, which revolves around the imaginary county of Barsetshire. He also wrote novels on political, social, and gender issues. His origins, and to be connected to some failed businesses in Vienna. When he moves his business and his family to London, the city's upper crust begins buzzing with rumours about him—and a host of people ultimately find their lives changed because of him. *The Way We Live Now* was Trollope's longest novel, and is particularly rich in sub-plot. It was inspired by the financial scandals of the early 1870s; Trollope had just returned to England from abroad, and was appalled by the greed and dishonesty those scandals exposed. This novel was his rebuke. It dramatised how such greed and dishonesty pervaded the commercial, political, moral, and intellectual life of that era. Excerpt: "Let the reader be introduced to Lady Carbury, upon whose character and doings much will depend of whatever interest these pages may have, as she sits at her writing-table in her own room in her own house in Welbeck Street. Lady Carbury spent many hours at her desk, and wrote many letters,—wrote also very much beside letters. She spoke of herself in these days as a woman devoted to Literature, always spelling the word with a big L..."

It is the end of the Cold War - supposedly the era of glasnost and perestroika. The Soviet Union is about to come apart at the seams. Buck Danny is sent in as an observer and adviser to help the Russian army deal with its arsenal of nuclear weapons and some of its rogue units. But old Communist habits die hard - and some of the Red Army hardliners have other plans. The pilot finds himself over the Black Sea, where he locates some unusual prototypes.

Ghost Squadron 9th Cinebook

A fable about freedom, about resistance, about power. And an ode to nature. In the Sarboucane sea, Balbuzar the pirate reigns supreme. He attacks, plunders, sinks, and ransoms everything that comes within his reach. Savage, cruel, formidable, certainly, Balbuzar is, but also with a certain bonhomie, and a great sense of justice. He is in harmony with the sea, the islands, the wind, the rocks. Around him, birds, always. Men, women, children...they all love him. For he is free as the air. But now the Empress Pépita XIII is worried about her state of affairs, and Balbuzar's constant plundering. She sends against him her best officer, the Commodore, at the head of an armada. He represents force, order, law. Arrogant, domineering, relentless. And sure to be the one who will clean the Sarboucane sea. Balbuzar and the Commodore clash. Two exceptional sailors, two sharp warriors. The fight begins, shattering, tumultuous. The struggle, however, is unequal, for the Commodore has immense resources, an army behind him and the power of the empire. He's built a gigantic ship that will surely sweep away the pirates and their black-flag flotilla. Balbuzar's fate seems certain. Will the outlaw be crushed by the enormity of the adversary? Cooked in the imperial pot? Or will the cunning pirate find the rift in the monster's breastplate? Will he defeat his monstrous foe, like David blasting Goliath? A story that will delight young and old, and artwork that bears repeated viewing to take it all in. Will the cunning pirate Balbuzar be able to find the chink in the monstrous Commodore's armor? Geirard Moncombe's prose deftly balances action, humor, and poetry while Freideiric Pillot's stunning, gorgeously detailed illustrations help paint this rousing, unforgettable tale. One that you'll want to come back to again and again... Featuring 32 double page illustrations interspersed with text. If you're an art geek, this book is a MUST!

The X-31 Enhanced Fighter Maneuverability Demonstrator was unique among experimental

aircraft. A joint effort of the United States and Germany, the X-31 was the only X-plane to be designed, manufactured, and flight tested as an international collaboration. It was also the only X-plane to support two separate test programs conducted years apart, one administered largely by NASA and the other by the U.S. Navy, as well as the first X-plane ever to perform at the Paris Air Show. *Flying Beyond the Stall* begins by describing the government agencies and private-sector industries involved in the X-31 program, the genesis of the supermaneuverability concept and its initial design breakthroughs, design and fabrication of two test airframes, preparation for the X-31's first flight, and the first flights of Ship #1 and Ship #2. Subsequent chapters discuss envelope expansion, handling qualities (especially at high angles of attack), and flight with vectored thrust. The book then turns to the program's move to NASA's Dryden Flight Research Center and actual flight test data. Additional tasking, such as helmet-mounted display evaluations, handling quality studies, aerodynamic parameter estimation, and a "tailless" study are also discussed. The book describes how, in the aftermath of a disastrous accident with Ship #1 in 1995, Ship #2 was prepared for its outstanding participation in the Paris Air Show. The aircraft was then shipped back to Edwards AFB and put into storage until the late 1990s, when it was refurbished for participation in the U. S. Navy's VECTOR program. The book ends with a comprehensive discussion of lessons learned and includes an Appendix containing detailed information.

Situated in the South Texas borderlands some fifty miles west of Corpus Christi, San Diego was a thriving town already a hundred years old at the turn of the twentieth century. With a population that was 90 percent Mexican or Mexican American and 10 percent Anglo, the bicultural community was the seat of Duval County and a prosperous town of lumberyards, banks, mercantile stores, and cotton gins, which also supplied the needs of area ranchers and farmers. Though Anglos dominated its economic and political life, San Diego was culturally Mexican, and Mexican Americans as well as Anglos built successful businesses and made fortunes. This collection of nearly one hundred photographs from the estate of amateur photographer William Hoffman captures the cosmopolitan town of San Diego at a vibrant moment in its history between 1898 and 1909. Grouped into the categories women and their jobs, local homes, men and their businesses, children at school and church, families and friends, and entertainment about town, the photos offer an immediate visual understanding of the cultural and economic life of the community, enhanced by detailed captions that identify the subjects and circumstances of the photos. An introductory historical chapter constitutes the first published history of Duval County, which was one of the most important areas of South Texas in the early twentieth century.

An extraordinary modern novel in the Victorian tradition, Charles Palliser has created something extraordinary—a plot within a plot within a plot of family secrets, mysterious clues, low-born birth, high-reaching immorality, and, always, always the fog-enshrouded, enigmatic character of 19th century—London itself. “So compulsively absorbing that reality disappears . . . One is swept along by those enduring emotions that defy modern art and a random universe: hunger for revenge, longing for justice and the fantasy secretly entertained by most people that the bad will be punished and the good rewarded.”—The New York Times “A virtuoso achievement . . . It is an epic, a tour de force, a staggeringly complex and tantalizingly layered tale that will keep readers engrossed in days. . . . The Quincunx will not disappoint you. It is, quite simply, superb.”—Chicago Sun-Times “A bold and vivid tale that invites the reader to get lost in the intoxicating rhythms of another world. And the invitation is irresistible.”—San Francisco Chronicle “A remarkable book . . . In mood, color, atmosphere and characters, this is Charles Dickens reincarnated . . . It is an immersing experience.”—Los Angeles Times Book Review “To read the first pages is to be trapped for seven-hundred odd more: you cannot stop turning them.”—The New Yorker “Few books, at most a dozen or two in a lifetime, affect us this way. . . . For sheer intricacy and ingenuity, for skill and clarity of storytelling, it is the kind of book readers wait for, a book to get lost in.”—The Philadelphia Inquirer

Look what The New Yorker dragged in! It's the purr-fect gathering of talent celebrating our feline companions. This bountiful collection, beautifully illustrated in full color, features articles, fiction, humor, poems, cartoons, cover art, drafts, and drawings from the magazine's archives. Among the

contributors are Margaret Atwood, T. Coraghessan Boyle, Roald Dahl, Wolcott Gibbs, Robert Graves, Emily Hahn, Ted Hughes, Jamaica Kincaid, Steven Millhauser, Haruki Murakami, Amy Ozols, Robert Pinsky, Jean Rhys, James Thurber, John Updike, Sylvia Townsend Warner, and E. B. White. Including a Foreword by Anthony Lane, this gorgeous keepsake will be a treasured gift for all cat lovers. Praise for The Big New Yorker Book of Cats “The Book of Cats comes a year after The Big New Yorker Book of Dogs—a publishing slight that, though it stings, I’ll forgive, as the latest anthology was worth the wait. . . . Two standout articles feature real-life obsessives of ages past

who reveal today’s Caturday devotees—with their GIFs and Tumblrs and hastily aggregated listicles—for what they truly are: amateurs. . . . Eat your heart out, Cute Overload.”—The New York Times Book Review “A beautiful hardcover.”—Jenny McCarthy, People “This irresistible anthology of articles, poems, essays, fiction, cartoons, and covers pulled from the New Yorker is a veritable treasure trove for cat lovers. Just dive right in; with stories from the likes of John Updike, Maeve Brennan, Roald Dahl, and Haruki Murakami interwoven with hilariously wry cartoons, one can’t help but be enthralled. A must-have.”—Modern Cat “A shiny, well-fed tome . . . The anthology

embodies the cat’s defining characteristic: its cluster of opposites, rolled together into a giant hairball of cultural attitudes—something, perhaps, at once uncomfortably and assuringly reflective of our own chronically conflicted selves.”—Brain Pickings “This gorgeous book has earned a permanent spot on my coffee table. It is an absolute joy to read and browse through, and I know it will bring me hours and hours of pleasure for years to come. And it makes a purr-fect gift for the special cat lovers in your life.”—The Conscious Cat “[A] sumptuous volume.”—The Dallas Morning News
