Outcomes Conference Book of the Year Christian Book Award Finalist Richard Stearns is a leader who has been tested as a CEO in both secular companies and also as the head of one of the world's largest Christian ministries. After stints as CEO of Parker Brothers and then Lenox, Stearns accepted the invitation to leave his corporate career to become the president of World Vision US, where he became the longest serving president in their seventy-year history. During his tenure there he implemented corporate best practices, lowering overheads while tripling revenues. His

leadership in calling the American church to respond to some of the greatest crises of our time, notably the HIV and AIDS pandemic, and the global refugee crisis, challenged Christians to embrace a bold vision for compassion, mercy, and justice. In *Lead Like It Matters to God*, Stearns shares the leadership principles he has learned over the course of his remarkable career. As a leader who has navigated both secular and sacred spaces, Stearns claims that the values Christian leaders embrace in their workplaces are actually more important than the results they achieve—that God is more concerned about a leader's character than a leader's success. With wisdom, wit, and biblical teaching, Stearns shares captivating stories of his life journey and unpacks seventeen crucial values that can transform leaders and their organizations. When leaders embody values such as integrity, courage, excellence, forgiveness, humility, surrender, balance, generosity, perseverance, love, and encouragement, they not only improve their witness for Christ, they also shape institutions, influence culture, improve team performance, and create healthy workplaces where people can flourish. Through this book, Stearns will inspire a new generation of Christian leaders to boldly take their values into their workplaces to tangibly

demonstrate the character of Christ, the love of Christ, and the truth of Christ as they live out their faith in full view of others.

Kissinger's six leaders are Konrad Adenauer, Charles de Gaulle, Richard Nixon, Anwar Sadat, Lee Kuan Yew, and Margaret Thatcher. All of them were formed in a period when established institutions collapsed all over Europe, colonial structures gave way to independent states in Asia and Africa, and a new international order had to be created from the vestiges of the old. Kissinger penetratingly analyses each of these leaders' careers through the highly individual strategies of statecraft which he presents them as embodying, to show how it is the combination of character and circumstance which creates history. Kissinger's public experience, personal knowledge and historical perceptions enrich the book with insights and judgements such as only he could make. **It Worked for Me** Routledge

The blockbuster best seller *Primal Leadership* introduced us to "resonant" leaders--individuals who manage their own and others' emotions in ways that drive success. Leaders everywhere recognized the validity of resonant leadership, but struggled with how to achieve and sustain resonance amid the relentless demands of work and life. Now, Richard Boyatzis and Annie McKee provide an indispensable guide to overcoming the vicious cycle of stress, sacrifice, and dissonance that afflicts many leaders. Drawing from extensive multidisciplinary research and real-life stories, *Resonant Leadership* offers a field-tested framework for creating the resonance that fuels great leadership. Rather than constantly sacrificing themselves to workplace demands, leaders can manage the cycle using specific techniques to combat stress, avoid burnout, and renew themselves physically, mentally, and emotionally. The book reveals that the path to resonance is

through mindfulness, hope, and compassion and shows how intentionally employing these qualities creates effective and enduring leadership. Great leaders are resonant leaders. Resonant Leadership offers the inspiration--and tools--to spark and sustain resonance in ourselves and in those we lead.

Leadership is both an art and a science. We may be tempted to look for a sure-fire formula, but the reality is quite different: effective leaders are exceptional generalists rather than narrow specialists. The best leaders take what the best business experts have to offer, and apply that based on their own abilities, experience and judgment. And these leaders seek real-life mentors and learn from them. Gayle Beebe, who has spent over a decade as a college president, had the opportunity to study with Peter Drucker, the father of modern management and the author of *The Effective Executive*. Drawing on Drucker's influence as well as his own years of experiences as a pastor, administrator and president, Beebe has developed a pyramid of leadership principles. The combination of these defines a leader of influence and integrity. In these pages you'll also meet some of Beebe's other mentors: Steve Sample of USC, Harold A. "Red" Poling of Ford Motor Company, Richard Foster of Renovaré, David McKenna of Asbury Seminary and Bob Emmons of SmartFinal. In a day of relentless self-direction, strong leaders have a critical role. With this book you can discover what it takes to be effective in your sphere of influence.

"A true classic of world literature . . . A masterpiece that has inspired generations of writers in Nigeria, across Africa, and around the world." —Barack Obama "African literature is incomplete and unthinkable without the works of Chinua Achebe." —Toni Morrison Nominated as one of America's best-loved novels by PBS's *The Great American Read* *Things Fall Apart* is the first of three novels in Chinua Achebe's critically acclaimed African Trilogy. It is a classic narrative about Africa's cataclysmic encounter with Europe as it establishes a colonial presence on the continent. Told through the fictional experiences of Okonkwo, a wealthy and fearless Igbo warrior of Umuofia in the late 1800s, *Things Fall Apart* explores one man's futile resistance to the devaluing of his Igbo traditions by British political and religious forces and his despair as his community capitulates to the powerful new order. With more than 20 million copies sold and translated into fifty-seven languages, *Things Fall Apart* provides one of the most illuminating and permanent monuments to African experience. Achebe does not only capture life in a pre-colonial African village, he conveys the tragedy of the loss of that world while broadening our understanding of our contemporary realities.

It's the Subtleties that Matter! What is the real difference between competent leader and extraordinary executive? Is it pedigree, experience, intelligence? The answer is yes...and much more. Exceptional leadership hinges on a complex interaction between individual psychology and unique business needs. At the top rung of the ladder, where the dynamics are most complicated, subtle adjustments in style can produce outstanding results. In his new book, *The Intangibles of Leadership*, Management Psychologist Richard Davis, Ph.D., uncovers patterns in the attributes that truly distinguish those who succeed at the top. What he found was that extraordinary leaders possess certain characteristics that fall between the lines of existing leadership models, yet are fundamental to executive success. Davis explains each of these qualities, the people who exemplify them, how to detect them in others, and most importantly, how to develop the subtle characteristics that will enable them to stand out from the pack. Learn why... It's often better to aim for silver than for gold Playing hard to get attracts people to you It's important to have a slightly inflated view of your abilities Your peripheral vision is so important It's ok to get angry with your team So many extraordinary executives have gone through crises early in their lives
