April and May Addison-Wesley Professional 'Blown to Bits' is about how the digital explosion is changing everything. The text explains the technology, why it creates so many surprises and why things often don't work the way we expect

them to. It is also about things the information explosion is destroying: old assumptions about who is really in control of our lives.

Reference USA Is Wall Street bad for Main Street America? "A well-told exploration of why our current economy is leaving too many behind." —The New York Times In looking at the forces that shaped the 2016 presidential election, one thing is clear: much of the population believes that our economic system is rigged to enrich the privileged elites at the expense of	hard-working Americans. This is a belief held equally on both sides of political spectrum, and it seems only to be gaining momentum. A key reason, says Financial Times columnist Rana Foroohar, is the fact that Wall Street is no longer supporting Main Street businesses that create the jobs for the middle and working class. She draws on in- depth reporting and interviews at the highest	rungs of business and government to show how the “financializatio n of America”—the phenomenon by which finance and its way of thinking have come to dominate every corner of business—is threatening the American Dream. Now updated with new material explaining how our corrupted financial sys- tem propelled Donald Trump to power, Makers and Takers explores the confluence of
---	---	--

forces that has led American businesses to favor balance-sheet engineering over the actual kind, greed over growth, and short-term profits over putting people to work. From the cozy relationship between Wall Street and Washington, to a tax code designed to benefit wealthy individuals and corporations, to forty years of bad policy decisions, she shows why so many

Americans have lost trust in the system, and why it matters urgently to us all. Through colorful stories of both "Takers," those stifling job creation while lining their own pockets, and "Makers," businesses serving the real economy, Foroohar shows how we can reverse these trends for a better path forward. *Ruling Class Men* Routledge This tale of love and intrigue is set in the misty

cliffs of Ireland where Oriel finds herself in remote castle where she discerns that she has a mysterious enemy-- as well as growing romantic feelings which leave her troubled in spirit. *Thread of Suspicion* Routledge An ambitious Eastern girl, Mindy McClaren leaves her comfortable home to become the editor of a newspaper in a rugged silver-mining town in the

mountains of Colorado. This is a true-West adventure and romance.
