Car Land Cruiser Prado, manufactured by Toyota since 1987. The cost of the car was not small, but comfortable ride, excellent off-road performance and build quality have made the car very popular. The second generation of the family Toyota began to produce in 1996. The car was named the Toyota Prado 90. Repair and maintenance of cars were also held in firm service centers throughout Japan, as well as beyond its borders - Toyota Prado 90 gained increasing popularity in other countries. The third generation of the family of Prado was released in 2002 - today it is the most common brands of cars Toyota Prado. This generation has been called the Toyota Prado 120.

Repair and maintenance of these cars - a very common practice in technical centers worldwide. In European countries, this car is referred to as a Toyota Land Cruiser Prado 120. Repair and maintenance of Toyota Prado - a significant item of expenditure of a happy owner of a passenger car. To save on these expenses will help you this book. Timely independent repair and diagnostics eliminate costly repairs Toyota Land Cruiser 120. You trust car services to which you give your car for repair? After you take away the car from repair, you had no thoughts - that work has been made not qualitatively, or has not been made in general though money has been paid for repair. How you define oil in transmission or the gearbox has been replaced? Agree - such thoughts can arise at any, especially if your car (it is not clear for what) detained at service station. If you thought of it if you like to support and repair independently the car - this book means to you. To read special books on car repairs likely and it will be useful. But, to see all process of repair and to

independently repeat it, it can be more convenient? Generally, all volume of information in this book - repair in pictures. This is the first a book about Toyota Land Cruiser Prado 120, but I plan to continue to continue to illuminate the repair and improvement for my favorite car. Table of contents Toyota Land Cruiser Prado 120. We correct fogging of intake manifold. To reach nozzles: it is necessary to remove plastic casing from the engine. To remove the air filter. We disconnect intake manifold and we remove it. we remove fuel-supply line with nozzles. The aluminum part of collector consists of two parts. For collector, we buy new sealing gaskets. Left and right. Toyota Land Cruiser Prado 120. Replacement of oil in Automatic transmission. Toyota Land Cruiser Prado 120. Automatic transmission oil replacement We install the new filter. We fill with automatic transmission oil Toyota Land Cruiser Prado 120. Replacement of Oil in the Engine, the Reducer and the steering booster. Toyota Land Cruiser Prado 120 - audit starter. Tension and intermediate rollers. Changing the rear disc brake pad and do an audit of the fingers in the brackets. Eliminating vibration in the front brakes. Replacement of the fuel filter. Factory engine repair manual for the iconic 2F petrol/gasoline engine as fitted to the Toyota 40, 55 and 60 Series four wheel drive vehicles. This repair manual has been prepared to provide information covering general repair for 2F Gasoline engine as fitted to the TOYOTA LAND CRUISER. Per Toyota Motor Sales Co., LTD. The Toyota 2F engine was one of the "F" series of OHV inline-6 cylinder engines produced by Toyota between 1955-1992. "F" Series engines are known for their high amount of torque at low RPM, massive cast iron blocks and heads and also their high reliability. The 2F Engine had one of the longest production runs of any Toyota engine. The "F" Series engines all incorporate overhead valves actuated by pushrods from a gear driven camshaft in the lower portion of the engine. The engine was first introduced in the Toyota FJ40 Land Cruiser, and in many countries, was the only gasoline engine offered in the Landcruiser until 1993. Although it's commonly badged as the Land Cruiser engine, it was used in a variety of other large truck applications as well, such as in fire trucks and the Toyota FQ15 trucks. It was also used in the Crown based Japanese Police Patrol Cars FH26 and FS20-F550.
